

ROBBERY.—Mr. Palmer, of La Grange, Missouri, was robbed last Tuesday, in the lower part of this city. He had arrived in the city on the previous day only, and was walking about looking at the city to amuse himself. A man overtook him and entered into conversation with Palmer and grew in his confidence, in the course of the evening, at such a rate, that he prevailed upon Palmer to show him his money and tell him how much he had. He took his pocket book out to count it, when a third man, who was in league with the former, snatched it away from him and fled. The acquaintance having ascertained previously that Palmer had a pistol, asked him for it hastily, declaring that he would pursue the man and get the money back from him or shoot him. Palmer complied with his request, but of course saw no more of either.—[St. Louis News, 25th.]

Bayard Taylor, writing two thousand miles from the mouth of the Nile—whose unknown source he is anxious to discover—says that its current there is as broad, and strong, and as deep as at Cairo, and that he is even now no nearer to the mystery of its origin. He is confident that when its hidden fountain shall at last be reached, and the problem of twenty centuries solved, the entire length of the Nile will be found to be not less than four thousand miles, and he will then rank its name with the Mississippi and Amazon—a sublime trinity of streams.

AYER'S CHERRY PECTORAL,
For the rapid cure of
**COUGHS, COLDS, HOARSENESS,
BRONCHITIS, WHOOPING-COUGH,
CROUP, ASTHMA, AND
CONSUMPTION.**

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted that can never be forgotten, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud on the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral does not only as a general thing, but almost invariably cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best resource of the afflicted, from the log cabin of the American Peasant, to the Palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, Cherry Pectoral is known as the best remedy extant for diseases of the throat and lungs, and in many foreign countries, it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, Cherry Pectoral is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of the lungs. Also in milder cases, and for children it is safe, pleasant and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it effectual in cases particularly incidental to childhood.

The Cherry Pectoral is manufactured by a practical Chemist, and every ounce of it under his own eye, with inviolable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth as should command itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust by great care in preparing it with chemical accuracy, of uniform strength, to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

Prepared and sold by James C. Ayer, Practical and Analytical Chemist, Lowell, Mass.
Sold by L. T. Hittingham & Bro., Hannibal; Knightley & Carstaphan, New London; Tave, Turnbull & Co., Frankford; Clifford, Davis & Co., Clarksville; Francis, Walton & Warren, St. Louis, and by Druggists everywhere.

ical, Historical, Patriotic, Moral, Religious, and
Sentimental Pieces, in Prose and Poetry. Compiled
by William Fields. Second edition, revised and im-
proved.

**The Footpath and Highway; or,
WANDERINGS of an American in Great Britain,
in 1851 and '52.** By Benjamin Morgan. This
volume embodies the observations of the author, made
during eight months wanderings, as a correspondent
for American Journals; and as he traveled much on
foot, differs essentially from those on the same coun-
tries, by other writers.

New Themes for the Protestant Clergy;
CREEDS without Charity, Theology without Hu-
manity, and Protestantism without Christianity;
with Notes by the Editor on the Literature of Charity,
Population, Pauperism, Political Economy, and Pro-
testantism. The great question which the book dis-
cusses is, whether the Church of this age is what the
primitive Church was, and whether Christians—both
pastors and people—are doing their duty. Our author
believes not, and, to our mind, he has made out a strong
case. He thinks there is abundant room for reform at
the present time, and that it is needed almost as much
as in the days of Luther.

Barber's Shop.
PETER JOHNSON,

RESPECTFULLY offers his services to the
public. He keeps the best quality of razors,
and keeps them sharp. He will always pay
strict attention to cleanliness and neatness.
He cuts and dresses hair in a style that
never fails to please his customers. As a
knight of the scissors and razor he yields to
none in Hannibal. His charges are reason-
ably low. As he intends to continue fitting
up and improving his establishment, as fast
as his means will allow, he hopes to have
the patronage of the citizens of Hannibal
whose well known chief characteristic
of energy, leads them to desire to see
everything on the progressive march.
Recollect it is the shop nearest to Hick-
man's Stove Store. It is on the west side
of Main street, two doors north of Bird
street. (ap-23-d-ly)

THE INTRODUCTION OF
FILLEY'S STOVES

Into Northern Missouri, to any extent, has been
in the last three years; since which time they
have been gradually increasing the manufacture
and sale of them; and although, owing to their
being light and smooth, and something new,
some little difficulty attended the sale and use
at first, yet by always making Stoves and Cas-
tings of the best quality of Scotch Pig and Mis-
souri Mountain Iron, they have proved to
withstand fire better than any other Casting
made in the western country. The furnace
castings and hollow-ware, particularly, have
been superseded by it, wherever it has been
brought into use, and always given satisfaction.
Having lived here a number of years, and be-
ing permanently located here, purchasers can
rely on our guarantee as to the quality of the
article sold by us; and as to the operation of
our celebrated Prize-Premium Cook Stove, just
read the certificates of those who have used
them, and are using them now. And another
advantage a purchaser will have in buying a
St. Louis stove of us, he would not only be
getting a stove made of the best material in the
world, but he can at any time get an odd piece
or plate without any charge, by letting us know
that such is wanted, as all our stoves are war-
ranted, and, in case of imperfection, the article
will be promptly made good to the purchaser,
which he will not find the case with Cincinnati,
Chicago, Pittsburgh, and Eastern made Stoves,
as you cannot get any odd Pieces. Even if
they were warranted, it would be impossible to
get odd plates from such a distance.

We, the undersigned, having used the St.
Louis Stoves manufactured by G. F. Filley, of
St. Louis, and sold by **CARTER W. BRYAN,**
at Hannibal, Mo., take pleasure in recommend-
ing them to the public as superior in point of
draft, durability, economy, convenience and
ease of regulation, to any stove which we have
ever used:

NEW COOK STOVES!!

Persons wishing to buy stoves, should give
us a call, and examine our new patterns of

This stove possesses advantages over common
stoves, in thickness of the plate, and improve-
ments in draft.

This stove was patented September, 1852,
and wherever they have been used, have given
general satisfaction. This stove weighs some
forty pounds more to the number than any other
stove ever brought to this city. The plates in
them are from one-half to three-fourths of an
inch in thickness. No. 1 weighs over 200
pounds. We warrant them all against fires.
These stoves have a Patent Hot Air Flue, which
carries the heat that is generated under the fire-
plate down the front part of the stove, between
two thick plates to the draft at the bottom of
the stove.
C. W. BRYAN.
