THEATRICAL COLUMN.

Byrant Washburn in Screen Version of Play, "It Pays to Advertise," Turns Out Best Farce of His Picture Career.

Rodney Martin, a young fellow, has spent a hilarious four years in college and it is to the general amazement of his friends that he has never been expelled. At the close of his final year, right after a game in which his college mates emerged victors, Rodney in company with practically the whole college attends the local theatre where a musical outfit is giving a show.

And so it happened, that one of the comedians, a peculiar effeminate creature, felt his face spattered with henfruit coming from the general direction of the box occupied by Rodney and his pals—this happening about the middle of the first act. The show ended in a riot. Rodney and his companions in crime saw nasty jail sentences staring them in the face for the police were upon them and the house manager was angry. But it so happened that just at this time Rodney made an acquaintance with Ambrose Peale, the advance agent for the show, who for a little change, five hundred dollars or so to be exact, agreed to get Rodney out.

And so Rodney's college days finally come to a close and he travels home. Cyrus Martin, however, is in no happy frame of mind. He has been calculating and he has discovered the exceedingly cold fact that son Rodney has cost him exactly two-hundred and ninety-three thousand dollars since his birth! He purposes, so he tells Rodney, to put him to work in one of his soap factories, so that he may at least gain a slight return on his heavy investment. But Rodney in a soap factory! Well, he tries it but that smell that develops during the manufacture of scented soap gets on his nerves and so he quits. Anyway, he opines, his father has more money now than both of them can spend in a life time so why work?

And then Rodney meets up with his old friend, Ambrose Peale, the same old press agent of his college days. Press agents don't always work and Ambrose is out of luck in this particular instance but two heads prove better than one and Ambrose's brain and

Rodney's money (money gained from pawing everything in sight) prove a happy combination. Ambrose is a strict believer in advertising. "Look at all the things that have been made the necessities of life," he says "just by advertising." He points out the window to a gum sign, a garter sign, an automobile sign, a beer sign. "It Pays to Advertise" is his argument. At Phillip's Egypt.
