The new apportionment has been made by our representatives in the legislature only for political aspirations. The view of joining Oliver and Mercer counties with Billings as a district, is to give the two former counties the representatives and Martin of this county, senator. As to the latter we have nothing to say at the present time, but we do say we cannot be properly represented by those in the remote portion of the district, 300 miles away; and, the political scheme may not pan out when the time comes for us to cast our vote for the same.

The many farmers who are now having their grain threshed are interested in local market prices and each week we shall endeavor to furnish the same. This week the market for wheat and oats is exceedingly low and the farmers will undoubtedly find it profitable to hold it for better prices, if possible. Flax is 95, and wheat 50 and 60. Oats is down to 26 cents. The Thorpe Elevator Co. will not have everything their own way here but a few more weeks. There is a move on now whereby they will meet with competition and before another fall we will have a farmers elevator. Our flour mill coming in this summer will also help to bring the farmer better prices for wheat. According to the Minneapolis Journal of yesterday, flax is \$1.18. A margin of 23c over the local market. Isn't that robbing some. The CHRONICLE will keep you posted and we'll bet dollars to dough nuts that you will get all there is in it, hereafter.

A surprise party was tendered Miss Jennie Dunlap last Tuesday evening in honor of the 17th anniversary of her birth. Games and dancing occupied a few hours very pleasantly. Refreshments were served.

Frank Emerson returned from his Wisconsin visit of a few weeks. He reports a good time. Frank had not been back to the old home in three years until this time.

Geo. Uhlenkott, of Freeport, arrived yesterday to look after business matters for a few days. Mr. Uhlenkott made this office a pleasant call and contracted space in the CHRONICLE for a year and each week the same will contain prices, specials, etc., concerning their line of general merchandise and lumber. The name Beach Merc. Co. will become a household word.

**With Apologies to the Medora Herald.**

There's a pretty little city in the Bad Lands of the west.

It's the town of Medora, the place to take a rest;

But they really need a court house even if this poetry doesn't rhyme,

And if they do not get it, they are nix for all the time.

They ought to have a court house that is comfortable and warm.

To protect the officials from the awful cold and storm.

That will come with next election, that's what the people say.

And the officials will need comfort on next election day.

So let's gather at the polls when election time comes around.

And warm up these officials in that pretty little town.

It won't cost us but a trifle in our taxes every year.

To keep the officials good and warm when election time draws near.

When our sheriff gets a prisoner he has trouble on his mind.

If he wants to keep him safely he must take him down the line.

To the town of Dickinson when the bars are good and strong;

And now they say the "bars" must close and "bar keeps" will be gone.

So let us build a court house, within every body's reach.

For if we fool much longer, they will have it up at Beach.

If you are good at climbing mountains and swimming flooded creeks.

Then this pretty little Medora town is within everybody's reach.

We surely need a court house now; the packing house is gone.

And there is nothing left to guard us from the wintry blizzards of storm.

Then let's hurry up and get it, while it's still within our reach.

For if we fool much longer they will build it up at Beach.

Happy Days.  
"What are halcyon days, father?"  
"Halcyon days, my son," replied Mr. Henpeck, as he looked around to assure himself that he and his son were alone, "are the glorious summer days when your dear mamma is far, far away from the wicked, noisy city, enjoying freedom from household cares, and getting the sweet, pure air she needs so much."

**Are You Going to Seed this Spring**

**Our Warranty** We warrant VanBrunt Drills to be well made of the best material, to do first class work in any soil capable of being seeded and not clog-up in mud or gumbo

If so, you want a Best Ever sulkey or gang breaking plow especially adapted for this kind of soil. Next in order will be a grain cleaner. We handle both the Fosston and Owens Mills, the best on the market.

**THEN YOU WANT A DRILL.**

We sell the VanBrunt drills. You can get them in both discs and shoe. You plant for profit, not for pleasure; but there is enjoyment in raising big crops. Good seeding is just as necessary as good seed. It's not only the number of acres, but the number of bushels per acre that count. The reputation of VanBrunt Grain Drills is built on bushels per acre. They do first class work and do it for many years. You get more out of a VanBrunt than you put into it. That means a good investment.

**OVERSTAD & HOVERSON.**

We also have on hand all kinds of farm machinery and a carload of wagons and buggies. Call and inspect the same.
