THE CHRONICLE PRINTING CO., INC.
C. T. BOSTAD, Editor and Manager.

Covers thoroughly the far-famed rich and fertile Golden Valley, North Dakota's most productive agricultural section of which Beach is the metropolis and North Dakota's Western gate-way. The Chronicle has the largest bona fide circulation of any paper published in the territory which it covers. Its statement of circulation rendered the government April 1, 1916, as required by the Act of Congress of August 24, 1912, proving an actual circulation of 1985 copies weekly. To avoid remittances being lost in the mails, readers of the Chronicle who have remittances to make are requested to send money by money order or registered letter, giving plainly name and address. All changes of address should be accompanied by old address, also. Contributions invited, and if available, will be used. However, no attention will be paid to anonymous communications.

CARDS OF THANKS.

The card of thanks is a relic of the stone age, and newspapers have unitedly discouraged the publication of this particular by antiquated form of literature, but nevertheless, every little while somebody erupts in the public press with it. In Fargo

the charge of a dollar for publication is the most earnest effort to discourage it, but still they come. Fact is that the services rendered for which thanks are usually offered in a "card of thanks" are those humane and neighborly attentions customary everywhere in the civilized world. If they were omitted we would garde ourselves as Hottentots. Then why publish any card of thanks?

Of course we are thankful for the kindness of neighbors in sickness and their sympathy when there's crepe on the door. Ministers serve us at funerals and we may well tell them personally that we are grateful, and where means permit, accompany this assurance with an honorarium.

But card of thanks—excuse us; the public suffers enough without inflicting them. And the news papers ought to charge the highest advertising rate and collect it in advance. By the way, experience teaches that if you don't collect in advance for that particular kind of advertising it is as profitless as political advertising run on credit. And that's the limit of comparison.—Courier-News.

A Distinctive Reason

What is the chief reason for the superiority of Royal Baking Powder?

There are several good reasons, but there is one which distinguishes Royal from other baking powders.

This reason, which every woman should know, is that Royal Baking Powder is made from cream of tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in other baking powders.

There is no alum nor phosphate in Royal Baking Powder.
