

BOY OVERCOME BY CRAMPS AND DROWNED.

Pathetic Accident Occurs At Big Reservoir West of City.

One of the most pathetic accidents which ever occurred in this community was that of last Saturday morning, when little Frank McLouren, 10-year old son of Mrs. A. D. McLouren of Seattle, was drowned in the Pope reservoir, about five miles west of the city. The body was recovered about 4 o'clock in the afternoon, taken in charge by Lowe Bros. and on Sunday was sent to Seattle, accompanied by Mrs. Tylor and Horace Leonard.

Details of the accident, as secured, are that on Saturday morning Frank, in company with Harold and Horace Kinney, sons of Mr. and Mrs. Frank Kinney, at whose place Mrs. McLouren, sister of Mr. Kinney, was visiting went to the reservoir to swim. The little boy was an excellent swimmer and his mother had no hesitation in permitting him to accompany the others.

It is understood that Harold Kinney, older of the brothers, got into the water first and remarked about it being very cold. He cautioned the others regarding this. Frank swam a short distance from the bank, probably about 30 feet, then took a position as though he were treading the water, and went down, hollering as he did so. The boys thought at

first that he was simply "fooling" but his danger was realized when he came up and again shouted for help.

Harold Kinney swam to him, calling for him to "keep swimming." The lad caught Harold about the neck and the two went down together, and as they came up the older boy finally succeeded in getting free, otherwise he would have drowned. In the meantime Horace swam out, succeeded in catching his brother by the hair and pulled him into the shallow water. It was fully ten minutes before he was able to stand. Meanwhile Frank sank the third time, despite Horace's efforts to save him. It is believed he was affected by cramps.

Efforts to recover the body began as soon as news of the drowning was brought to the city, but it was not until about 4 o'clock that it was recovered by Ralph Burns, who walked from Glendive to the reservoir to assist those engaged in the search.

Mrs. McLouren and children had arrived from Seattle less than 24 hours before the happening of the terrible accident.—Dawson County Review.

D'EXMA New Herbal Skin Balm
 Skin sufferers—try this new salve compound of healing herbs. D'Exma gives you instant relief from the distress of eczema and all forms of skin disease. It cures itching, burning, and all other skin troubles. It is the only dermatologist in this town from whom D'Exma, the great herbal balm, can be secured. Come in today and ask about our money-back guarantee to bring you relief.

Sanitary Plumbing, Steam and Hot Water Heating

You no doubt are aware that the city water system and sewerage is at your service and I wish to announce that I am better equipped than ever to take care of the wants of those who are contemplating getting any plumbing or heating done in their residence. I have secured the services of the best skilled plumbers that I can secure and which takes the experience of such men to do the work so as to comply with the rigid city plumbing ordinance. I have for the benefit of the public one of the nicest and well equipped sample and display rooms that you will find outside the larger cities, which will enable you to make your selections from personal inspection and thus avoid the uncertainty of being compelled to take your selections from a catalogue, of such important things as bath tubs, sinks, lavatories and toilets. I will be pleased to explain the merits of my goods, whether you purchase or not, and will consider it a favor if you will give me an opportunity to figure with you before letting your work.

Respectfully,

B. D. GRANT

Beach, N. D.

GIRLS OF COUNTRY FORM HONOR GUARD FOR PREPAREDNESS

1,000 Wanted in Each State to Be Ready if War Is Declared.

Philadelphia, June 27.—A nationwide movement has been started under the leadership of Miss Theodora Booth, daughter of Mrs. Maud Ballington Booth, to enroll the young women of the United States in a national honor guard. The plan is to have 1,000 girls from each state.

In the six weeks since the plan was launched 1,000 members have enrolled, 500 of whom joined the guard from New Orleans within one week.

The movement is indorsed by governors of 40 states. It has the hearty approval of President Wilson and Secretary of War Baker, the American Defense, the National Security league, the Red Cross society, the National Committee of Preparedness, the Army and Navy Journal and many other persons and organizations.

Like Pennsylvania League.

The plan of organization is somewhat similar to that for the Pennsylvania Woman's Division for National Preparedness, in that it includes three corps; First aid to the wounded, first aid to soldiers' families and first aid in general utility.

In every town and city the girls are being enrolled as "Honor Guards," with an older woman at the head to "mother" them. Two of the principal things they try to learn are cheerfulness and unselfishness.

To Care for Soldiers.

Besides the routine work of caring for the wounded, the girls are required to learn plain cooking writing and reading, so that they can write intelligent letters home for the wounded soldiers.

They must know how to ride and swim and shoot, drive an automobile, manage a motorboat or a sailboat and know the telegraph and wireless codes, if coal quaja. h t aaamEAOIN Farming to Be Taught.

A unique requirement is that they shall learn farming and agriculture. The leaders of the movement have taken the lessons learned in the present war to heart, and are determined that, if war ever does come to this country, the women shall be fitted to take the place of the men in the fields in as efficient a manner as possible.

There are courses in shorthand and correct reporting, as well as a geography lesson on the location of the principal cities, forts and hospitals. Each girl who enlists is required to learn one thing and learn it thoroughly, so that she could co-operate with the government or with any of the agencies for relief in time of war or national disaster.

Patriotism, recruiting for the enrollment of more members and 25 cents a year are all that are required of girls already eligible in at least one of the branches of knowledge.

ARMY LARGER THAN U. S. FORCE IN MEXICO WORKS IN ONE VERDUN SECTOR.

Verdun, —June 7. (By Mail.)—There are more soldiers repairing the roads in this one sector than the United States has available today for operations in Mexico.

There are more troopers working the roads back of the French front now than there are in the entire United States army.

Most of us are inclined to think of a soldier as charging with the bayonet, doing picket duty or firing rifle or cannon.

Shovel Brigade Vital. Any officer here will tell you that the pick and shovel men are every bit as important as the bay-

onet and gunmen, and there are as many of them.

By army motor from Bar-le-Duc to the citadel we passed hundreds upon hundreds of other motor-driven vehicles ranging in size from the smallest motorcycle or cyclecar to the trucks on which every wheel is a driving wheel and which can haul a house.

The roads—and the roads of no country are better than these in France—are experiencing hard use. One is constantly passing between lines of soldiers sitting on rock piles beating up rock for the ways.

Literally, therefore, back of the firing line is another line, more prosaic, but none the less necessary, armed with sledge hammers, mallets and spades. Scarcely does a charging racer with studied tires flash by, sending a stone flying from a highway, before a soldier is on the job replacing the stone.

As soon as a hole begins to give trouble is is expertly and quickly scooped out and refilled with a composition of sand and stone, cement and water.

Now and then a huge convoy glides along the road bearing upon its trucks graceful and powerful guns, with ammunition enough to last until more can be brought up.

U. S. Army Wouldn't See Front. As the last big "fighting fellow" gets out of the way, as likely as not an humble steamroller hauling a train of rock wagons, will pull out into the middle of the road and go its way, mending, mending, mending.

If the entire U. S. army now available for fighting purposes should come over her, there would not be enough to run the automobiles, man the convoys and ammunition centers, and keep the roads in repair in the one sector of Verdun. It would be absorbed before the front trenches were reached.

DICKINSON IS LOYAL TO BOYS OF COMPANY K.

Fund is Provided for Boys on Departure to Ft. Lincoln—Many Festivities.

Dickinson, N. D., June 27.—The minimum of the National guards for Dickinson is fully completed and Sunday the boys went to Bismarck.

The Dickinson Commercial Club, assisted by the citizens, were not backward in giving the boys a splendid sendoff, and each member of Company K. left with a feeling that the best wishes and prayers will follow them in their new relationship with Uncle Sam.

On Thursday a splendid reception and entertainment was provided by the Young Women's association.

Friday a public mass meeting was held in the armory, followed by a dance.

Saturday the Masonic fraternity gave them another banquet and dance.

A purse of \$600 for mess purposes was made up by the citizens and placed in the care of the captain for special and necessary needs.

TERRIBLE MEASURES OF FRIGHTFULNESS ADVOCATED BY PAPER PUBLISHED IN MEXICO

El Paso, ex., June 27.—Carranza troops in northern Chihuahua are being concentrated hastily and in force along the line of the Mexican Central railroad between Juarez and Chihuahua City, according to private dispatches today. These messages said eight troop trains packed with soldiers to be distributed between Villa Ahumada and Laguna, left the state capital last night.

Military men assume the Mexican plan contemplates sparing no effort to hold the railroad, the

main artery of transportation, in case of hostilities. Reports say that thousands of people in northern Mexico are on the verge of starvation and that the economic situation is fast becoming worse.

Refugees from Mexico City arriving today said at stations in northern Durango, men and women no longer had clothing to cover themselves, and crowded about the train, crying for food. They fought as beasts over bits of orange peeling a fellow traveler from the coach.

To show the extent of the anti-American feeling, refugees displayed newspapers, one of which, La Reforma, a semi-official paper of Saltillo, carried an article captioned "Blood," which said:

"Above all, do not forget that in time of national need, humanity is a crime and frightfulness a virtue. Pull out the eyes, snatch out the hearts, tear open the breasts, drink—if you can—the blood and skulls of invaders from the cities of Yankee land."

WHAT THE KIDNEYS DO

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—which vary widely but may include pain in the back, headache, nervousness, hot, dry skin, rheumatic pains, sight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine etc. But if you keep the filters right the danger is overcome. Doan's Kidney Pills have proven an effective kidney medicine.

Mrs. E. W. Fish, E. Third St., Dickinson, N. D. says: "I was so bad off with kidney trouble that I could hardly get up when I was seated. My back felt as though it were breaking in two and I was nearly helpless. Doan's Kidney Pills cured me."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that cured Mrs. Fish. Foster Milburn Co., Props., Buffalo, N. Y.

CHRONICLE WANTS

"The Want Ad" way of finding the best investment for those idle dollars. Read the rates carefully before making in your orders which must be accompanied by the cash. BIBLE, 336 YEARS OLD, IS POSSESSION OF FARGO MAN

A Bible translated from the original language by Kristian Pederson, corrected by Palladius and others, and known as "Christian the Third's Bible," is the oldest translation of the Bible in the Norwegian language in North Dakota.

The edition, which was printed in Copenhagen by Ludowich Dietz in 1550, and is in good state of preservation despite its age of 366 years, belongs to Olaf Fjelde, son of Dr. Herman Fjelde of this city. It is a complete bible with the old and new testaments and also the canon No. 2 as the books of the Maccabees.

The next oldest Bible in North Dakota is printed in the English language and is said to be at Valley City. The edition dates back to 1586.

PARSONS MACHINE SHOP.

Our Auto man is an expert, Our machinist can't be beat; Our welder and our wood man Are rather short but neat. Our latheman is some turner— He handles the new machine Which rebore out all cylinders. ESTRAYED OR STOLEN: From my farm 11 miles north of Beach; Bay mare, 7 years old, weight 1050, branded circle bar on

NOW IS THE TIME TO KILL THE GOPHERS.

Gophers do their greatest damage in the early spring when the seeds first send up the green shoots. Then Mr. Gopher is ravenous after his long winter fast. He is ready to eat everything in sight. The young grain he destroys would bear a lot of grain if it were allowed to mature, but that don't have any weight with Mr. Gopher.

Hungry as he is when he comes out of his winter quarters, it is hard to get him to eat anything. He is not extremely fond of that's why it is so hard to get the gopher to eat grain poisoned with strychnine. It is bitter and the gopher will not eat enough of it to kill him. There is an abundance of the good green food he loves so why should he eat bitter grain? But he'll eat Kill-Em-Quick any time he is out of his hole.

There is a deadly poison that he will eat. In fact he likes it even better than the fresh green shoots. It is "Kill-Em-Quick" Gopher poison. It has an intensely sweet taste and a strong, sweet odor that attracts the gopher irresistibly. The sweet taste pleases the gopher and he always eats. If the tiniest particle of this poison ever enters his mouth, he's a dead gopher.

"Kill-Em-Quick" is guaranteed by the makers to kill all the gophers for 1 cent an acre; if it fails, the purchase price will be refunded. But it never fails. It is easy and safe to use; no danger in handling. Use "Kill-Em-Quick." For Sale in Beach by Louis Harth. Adv.

HOW TO GET THIS \$2.25 ALUMINUM GRIDDLE AT A SAVING OF \$1.40

Get 50 cents worth of Karo from your grocer, and send the labels to us together with 85 cents and we'll send you this \$2.25 Solid Aluminum Griddle by prepaid parcel post.

HERE is a clean cash saving of \$1.40—and thousands of housewives have already taken advantage of this remarkable chance to get an aluminum griddle for less than the wholesale price.

This Aluminum Griddle needs no greasing. It doesn't chip or rust. It heats uniformly over entire baking surface—doesn't burn the cakes in one spot and leave them underdone in another. It doesn't smoke up the kitchen—and the cakes are more digestible than when fried in grease.

At great expense we are seeking to place a Karo Aluminum Griddle in the homes of all Karo users, so that Karo—the famous spread for griddle cakes and waffles—may be served on the most deliciously baked cakes that can be made.

You know Karo, of course. Nearly everybody does—65,000,000 cans sold last year alone. And you doubtless know the wonderful cleanliness and durability of Aluminum ware.

If you are a Karo user already then you know all about this wonderful syrup—you know how fine it is as a spread for bread; how delicious it is with griddle cakes, waffles, hot biscuits and corn bread.

Get 50 cents worth of Karo from your grocer at once, and send the labels and 85 cents (P. O. money order or stamps) to us and get one of these Aluminum Griddles by prepaid parcel post.

Remember that our supply is going fast—so get your Karo today. We will also send you free one of the famous Corn Products Cook Books.
