

PRESIDENT AGAIN VETOES THE WOOL BILL AS TOO LOW

Chief Executive Declares the Bill Would, if Enacted into Law, Cause Irretrievable Injury to Producers and Manufacturers.

Washington, Aug. 10.—For the second time within a year President Taft vetoed a bill to revise the wool tariff, schedule K, of the Payne-Aldrich law.

With a message of disapproval the president returned to congress the bill evolved as a compromise between the house and senate, holding that its low rates would bring disaster to home industries.

He appealed to congress, however, not to adjourn until it had enacted a measure to "substantially reduce unnecessary existing duties" without destroying protection for the wool industry in the United States.

The president's disapproval of the wool bill is to be followed by similar vetoes of the steel and the cotton bill. The sugar bill is likely to be vetoed, as is the excise tax bill, the latter probably on the ground that the president believes it unconstitutional.

"I shall stand by my pledges to maintain a degree of protection necessary to offset the difference in cost of production here and abroad and will heartily approve of any bill reducing duties to this level," wrote Mr. Taft.

While the bill vetoed now and the one disapproved last year were identical in terms, the president's reasons differed. He vetoed the former bill because it had been framed before the tariff board's report—the latter because, he said, it had been framed with disregard for the board's findings.

"Most of the rates in the submitted bill," wrote the president, "are so low in themselves that if enacted into law the inevitable result would be irretrievable injury to the wool growing industry, the enforced idleness of much of our wool combing and spinning machinery and of thousands of looms and the consequent throwing out of employment thousands of workmen."

The bill sent to the White House imposed an ad valorem duty of 29 per cent on raw wool and on cloths of 49 per cent. Both rates, Mr. Taft held, were insufficient to protect the wool grower and the manufacturer.

It was predicted that the wool bill might be passed by the house over Mr. Taft's veto, but there was some doubt as to its fate in the senate. Republican leaders were inclined to believe that it would fall of passage there, as it did twelve months ago.

Social Events At Wimbledon

A. Y. MORE AND FAMILY WILL MAKE HOME IN FARGO IN FUTUR

(From Saturday's Daily.)

Mr. and Mrs. M. E. Coleman spent several days in the Twin Cities the first of the week.

Mrs. A. Y. More and family left for Fargo on Saturday morning. Mr. More's business keeps him there much of the time and the family have decided to make Fargo their home for the present. While the best wishes of their many friends go with them, yet each sustains a personal loss and the community loses one of its foremost citizens whose energy and enterprise have contributed incalculably to the up building of its institutions.

Mrs. W. B. Wanner entertained the Bridge Club in honor of Mrs. A. Y. More. Also Mrs. D. B. Berlin gave a high tea on Thursday afternoon in honor of Mrs. More.

Mr. and Mrs. Wood of Poughkeepsie, New York, were guests of Mr. and Mrs. Nicholas lagier at their summer home, recently.

Miss Maud Lannon of Valley City was the guest of Mrs. A. E. Denstedt the past week. She returned to her home on the 31st of July, accompanied by Mrs. Denstedt who will visit friends at that place for several days.

Mrs. Nichols Flagler entertained at luncheon for her guests Mrs. Wood and Mr. Joseph Flagler on Friday of last week, at Spiritwood Lake. Covers were laid for seventeen. A number of Wimbledon people being of the party. The delightful weather, the beautiful view of the lake, and a launch ride, combined to make the day a charming one.

Miss Emogene Berlin returned to the Valley City Normal after visiting friends over Sunday.

Among those who attended the State Fair at Fargo were D. B. Berlin, Mr. and Mrs. Clendenning and Mrs. T. A. More.

J. E. Fox and M. E. Coleman motored to Pingree to look over land they contemplate buying.

Johnston May Be Demented

FORMER TICKET AGENT HERE WILL BE EXAMINED FOR INSANITY

Grand Forks, Aug. 9.—Harold D. Johnston, who is now in the county jail on a charge of embezzling money from the Northern Pacific Railroad company, will be brought before the insanity board tomorrow morning. Johnston was short in his accounts at the Northern Pacific ticket office last year and was recently found at Detroit, Michigan, and Sheriff Benson brought him back Wednesday evening. The prisoner waived preliminary examination this morning in the justice court and was bound over to the district court. State's Attorney Burtness and Sheriff Benson thought that the man was demented and they summoned a physician, who found that he was undoubtedly insane. Johnston is in a very critical condition, claims the physician, and may die. He has no more pulse than a new born baby and is scarcely able to stand up. The authorities at Detroit say that he took his arrest very hard and failed rapidly afterwards. Johnson seems perfectly sane at times, but his mind starts to wander and he has many hallucinations. He has an idea that the officers are going to kill him. Johnston claimed that he has been working in the auditor's office of the Michigan Central railroad since leaving here last summer. When first arrested he denied the charge and then he broke down completely and began to pray. He asked that he be allowed to choose his own manner of death. He said that he wanted to be shot instead of being killed with a knife. All of these strange fancies were symptoms of his insanity.

RESOLUTION

WHEREAS, The City Council of the City of Valley City, North Dakota, at a regular meeting thereof, did heretofore deem it necessary to extend the city water mains on Sixth Avenue in said city, as hereinafter more specifically set forth, for the better fire protection of the residents of the water main district in which said extension is to be made, and did thereupon direct the City Engineer of the City of Valley City to prepare plans, specifications and estimates touching the extension of said water mains, beginning at the intersection of Sixth Avenue and Concklin Avenue, thence north on said Sixth Avenue to the intersection of said Sixth Avenue and Grant Avenue, a distance of 753 feet;

WHEREAS, The City Engineer did thereafter duly prepare and file with the City Auditor plans, specifications and estimates touching said proposed extension of said water mains upon said Streets and Avenues as aforesaid, which said plans, specifications and estimates are now on file in the office of the City Auditor of the City of Valley City; and

WHEREAS, The said City Council of said City of Valley City, the Mayor concurring therein, did after the filing of said report by the City Engineer in the office of the City Auditor of said City, by resolution duly approve said report as made and returned by said City Engineer;

NOW, THEREFORE, IT IS HEREBY RESOLVED, By the City Council of the City of Valley City, North Dakota, the Mayor and more than two-thirds of all its members elected, qualified and acting, concurring, and upon said plans, specifications and estimates and the report of the City Engineer of said City, as filed with the City Auditor, approved by the City Council in said matter, that the extension of said water mains of said City beginning at the intersection of Sixth Avenue and Concklin Avenue, thence north on said Sixth Avenue to the intersection of said Sixth Avenue and Grant Avenue in said City, is necessary to be done, according to plans and specifications of the City Engineer so on file with the City Auditor in said matter; and

IT IS FURTHER RESOLVED, That the expense thereof shall be defrayed by special assessment against the particular lots and parcels of land which will in the opinion of the "Special Assessment Commission" be especially benefited by the construction of the water mains aforesaid, and which lot or parcels of land are located in the water main district as heretofore by the City Council established, and in which said district the extension of said water mains is to be made and constructed; and

BE IT FURTHER RESOLVED, That at this resolution be published twice, once in each week for two, consecutive weeks, in the official newspaper of the City of Valley City, North Dakota, and that all persons interested be hereby requested and commanded to take notice accordingly.

Which resolution was at a regular meeting of said City Council of the City of Valley City, held at the Council Chambers of said City, on the 5th day of August, A. D. 1912, duly adopted.

L. S. PLATOU, Mayor.

Attest: M. J. BOYD, City Auditor. 8-9-d-15w.

KENSAL VISITOR.

Miss Jennette Carmody of Kensal, was the week end guest of Mrs. Chas. Bradley.

VISITING DAUGHTER.

Mr. and Mrs. John Campbell of the Merriam leave Tuesday evening for Valley City, N. D. to visit their daughter Mrs. Frank Walkin.—World Herald-Omaha.

MINNEAPOLIS VISITORS.

The Mises Florence and Marjorie McDonald and Miss Allister, of La-Moure left last evening for Minneapolis where they will spend a week visiting and shopping. The young ladies stopped enroute at Fargo and were the guests of Dr. and Mrs. Vidal on Monday.

FROM BISMARCK.

G. W. Wolbert, of Bismarck, was a city guest yesterday.

ON TENTH AVENUE.

Mr. and Mrs. I. Wold are moving into one of the Lavery houses on Tenth Avenue.

BOUGHT CONCRETE MIXER.

Contractor E. M. Lavery has purchased a new modern Continuous concrete mixer and is now able to handle concrete work in any quantity and on short notice.

FROM NOME.

Alfred Aamoth, autoed down from Nome yesterday and visited with his brother H. A. Aamoth.

TO ATTEND WEDDING.

Miss Georgia Henry left this evening for Mapleton where she will be one of the attendants at the wedding of Miss Elizabeth Pennebaker.

MOVING.

Mrs. T. Benson and family are moving this week into her residence on Eighth Avenue North.

SERVICES DISCONTINUED.

Services will be discontinued in All Saints Episcopal beginning next Sunday, until Sunday September 8th.

ENTERTAINED FOR SON.

Mrs. K. Taber entertained eight boys at a merry party for her small son, Master Lawrence, this afternoon in honor of his eighth birthday anniversary. Games and a general jolly time was had and the best kind of supper with a birthday cake completed the festivities.

'PRICES RIGHT' East Main St., Valley City

An Easy Way to Stop a Serious Waste

CAN you imagine the average housewife of the corn belt refusing to collect eggs because they were not worth as much as the hens? Yet in this same corn belt many corn growers waste every year almost as large a part of the corn crop as eggs are of the poultry business. The feeding value of corn stover, cut at the right time and properly cured, is about one-third of the total crop. If you have been letting this good fodder go to waste you should know that there is an easy way to save it. That way is to use an

IHC Corn Binder

Deering, McCormick, Milwaukee, or Osborne

The difficulty has been to harvest the corn at the right time, and quickly enough to retain all the good feeding value of the stalks and leaves. You can't always get extra help to harvest it quickly with corn knives. With an IHC corn binder you can harvest forty acres in seven days from the time the ears begin to glaze. Then, when the whole crop is run through an IHC husker and shredder—either Deering, McCormick, or Plano—you have secured as nearly all of your corn crop as could be harvested. Your corn is husked clean and you have besides a large quantity of nutritious roughage for the winter feeding of your stock. Also, there is no better, quicker, or cheaper way of cutting corn for ensilage than with an IHC corn binder.

See the IHC local dealer and have him show an IHC corn binder. He will give you full information and supply you with catalogues, or, write

International Harvester Company of America

(Incorporated) Fargo N. D. IHC Service Bureau

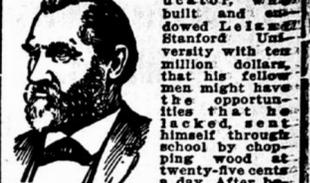

The purpose of this Bureau is to furnish, free of charge to all, the best information obtainable on better farming. If you have any worthy questions concerning soil, crops, land drainage, irrigation, fertilizers, etc., make your inquiries specific and send them to IHC Service Bureau, Harvester Building, Chicago, U.S.A.

AT LAKE BEMIDJII.

Mrs. Wylie Nelson left today for Lake Bemidjii, where she will spend a couple of weeks at the summer home of Mr. and Mrs. Van Syckle, of Grand Forks.

Stories of Success

LELAND STANFORD

This noted educator, who built and endowed Stanford University with ten million dollars, that his fellow men might have the opportunities that he lacked, followed a path of success through school by chopping wood at twenty-five cents a day. After being admitted to the bar he suddenly determined to follow the popular trail to California, and in ten years became governor of the Golden State.

The surest way not to fail is a determination to succeed. Leland Stanford might have remained with the rest of the unknown wood-choppers had he not been fired with energy and ambition. He seized every opportunity and depended on concentration and determination to push him through. He saved every dollar and continually applied his capital to investment. Money gives power, and money saved is the first round on the ladder to success. The man who perseveres and saves is the best equipped to win out. One dollar opens a savings account in this bank.

Startling Silo Sensation! New Saginaw Feature

Anchoring the base of stave silos as the giant roots anchor for centuries the great oak—the final step in making complete the stave silo.

Eventually all silo users will recognize the fact that the stave silo keeps silage perfectly; and to overcome the last objection, the fear of the stave silo blowing down, and to make an even better and stronger silo, we have been eagerly searching for new ideas. Many years ago we developed the Saginaw All-Steel Door Frame, adding convenience, solidity and great strength to the entire structure.

The same enterprise, together with keen foresight, developed in 1911, the Saginaw Inner Anchoring Hoop

one of the great successes in modern silo construction. And now—1912—with all wondering what possibly could be added to the Saginaw Silo, our engineering department has created and proved through exhaustive tests, a device wonderfully effective and remarkably simple in design and construction, and like all great inventions, "It's a wonder it wasn't thought of before." This invention will be known to the world as

The Saginaw Base Anchor

Like all important Silo improvements you get the Base Anchor only in the Saginaw. We will be glad to tell you more about this wonderful improvement.

We have a new book showing dozens of interesting views of our four large plants. This new book, entitled "The Building of a Silo", also contains very recent and complete information on silage. We have a copy for you. Write for it—or better, come in and get your Book and we'll talk it over.
