

Most Wonderful Invention Ever Made in Power Farming Machinery

New Avery Gas Tractor and Self-lift Plow

You or Your Boy Can Run This Entire Outfit Alone

All you have to do is to run the Tractor and pull a cord at the ends. The Avery Self-lift Plow handles itself. Automatic Power lift and Self Drop. Plows raised by power from the Plow Wheels. No plowman needed. Saves wages and board of extra man. Saves hard, back-breaking work lifting and lowering plows by hand levers. Saves time at the ends.

This Avery Tractor Won't Pack Your Ground

Pulls 4 to 6 plows and weighs only about 11,000 pounds. It won't pack your ground. It doesn't waste Fuel. moving around useless dead weight. It travels over softer ground and you can get into the field earlier in the spring or after a rain.

The Simplest Gas Tractor Built

Easier to care for and fewer parts to wear or get out of order. Has the least gears and shaftings of any. No fan—the exhaust serves the purpose. Only one clutch for backing up, going ahead or belt driving. Two cylinder opposed motor—much simpler and fewer parts than a four cylinder motor and at the same time is perfectly balanced.

Runs With Practically No Vibration

Motor is double—perfectly balanced. Tractor runs with hardly any vibration even on heaviest pull. Motor is governed by a standard 2 inch Pickering Governor and runs as steady as a Steam Engine. Exhaust is regular and light.

Economical and Powerful

The Avery motor has proven to be unusually economical by actual test and there's no fuel wasted moving around useless dead weight.

This tractor pulls 4 to 5 plows in breaking and 5 to 6 in stubble. Drives any size Avery separator up to 32 x 54. Rated at 20 Traction and 35 Brake Horse Power.

Avery Self-lift Plow Saves Expense, Saves Hard Work, Saves Time, and Does a Better Job of Work

All you have to do is to guide the engine and at the end of the furrow pull a cord to engage a clutch on the plow. The plows are raised out of the ground by power taken from the plow wheels. When you start in again, pull the cord and they drop into the ground to the right depth.

You don't have to hire a plowman to help you. You don't have to board an extra man. This plow pays for itself in a short time by saving the expense of the extra man you have to hire when you use a hand lever plow. No hard work lifting and lowering plows by hand levers. No time lost at the ends slacking up or stopping to lift or lower plow—pull the cord and keep right on going. Does a clean even job at the ends. All the plows lift and lower in a straight line—one after the other.

THE ONLY REAL ONE-MAN FARMER'S PLOW OUTFIT

You can plow your ground with this outfit, then disc, pack and seed. Do it all alone. Prepare the ground in the way it ought to be done and at just the right time to raise the biggest crops. Do it at a whole lot less expense than with horses. Later on do your harvesting, threshing and fall plowing and haul your grain to market.

With the expense you save over using horses and the bigger crops you will raise by doing your work in the right way and at just the right time, you can pay for this Outfit and have it Earning you Big Money before you know it.
