

ARE YOU GOING TO BECOME ONE OF THE HUSTLING LIVE WIRES?

This Is To Be a Small, Energetic Organization Within the Commercial Club, "Getters" In the Campaign for Factories.

Impetus given the development of the Northwest by the bumper crops is becoming noticeable in all parts of North Dakota. Commercial clubs are organizing or reorganizing with an awakening spirit and more than one commercial organization, with the hearty co-operation of business men, is laying plans to place its community to the front in the rapid development that is transforming the Northwest.

The latent wealth of the prairies has been uncovered and the humming threshers are pouring out the little nuggets of gold. The attention of financiers, men with money to invest, is centered upon the Northwest as at no time since the era of immigration to the Dakotas nearly a generation ago. Then they were financing farming, now they look to financing manufacturing industries, the sequence of agricultural thrift and production.

with persistency, determination and pugnacious activity if necessary.

Call for Volunteers.

A call is issued for "Live Wires." Those who wish to volunteer their services must be men full of vigor, willing to cast all personal considerations aside for the common good and upbuilding of Valley City. It costs nothing to join, costs nothing to be a member. But the qualifications are: A get-together spirit, energy, determination, irrepressible ambition and an abundance of "stick to it."

The temporary recruiting office is the Times-Record and volunteers are requested to call in person or telephone their names at once. The names of recruits will be published and added as the list grows. The muster rolls are now open. Are you a "Live Wire" or willing to become one?

Ward county last year bonded the county for \$50,000 to buy seed corn for the farmers. Now the county is having trouble collecting only one third of the amount having been returned.

Valley City Has Advantage.

Valley City has an advantageous situation for becoming a manufacturing city. It has east and west, north and south transportation facilities for distribution. The lay of the land is admirable for factory sites. There are no manufacturing cities to speak of between the Twin Cities and the Pacific Coast. Factories must necessarily fill in this wide gap which the increasing population demands. Valley City has a centralized advantage in becoming a manufacturing and distributing point.

Population and payrolls make a city, and factories make population and payrolls. A millionaire spends little more with local business houses than an ordinary, well-paid factory worker, and of times not so much, as he and his family take long summer vacations and avoid harsh winters by living in the south. The factory worker is always with us. He earns his money in the city and spends it in the city, and the millionaire is content to have his money invested where workers are earning it and it brings returns.

City of Payrolls.

To the end that Valley City may have increased population and increased payrolls, a smoke stack campaign has been started and the aid and co-operation of every business man and all others interested in the building up of this city is asked by the Commercial club. In connection with this campaign a "live wire" organization working within the Commercial club, will be the "live wires" of the movement. It will be the duty of "Live Wires" to interest capital in factory, industrial and commercial investments, to meet strangers coming to the city looking for investments and give them a welcome, to get out and hustle for new business for the city, to continue the smoke stack campaign

Steal Booze Out Of Magistrate's Office

CONFISCATED LIQUID VANISHES WHILE DEVOTED CITIZENS ARE AT CHURCH

Carrington, N. D., Sept. 21.—Police Magistrate Pryor's office was broken into Sunday evening and eleven pints of whiskey stolen. Six pints were left. The booze taken was part of twenty-five pints confiscated from a transient here last Thursday afternoon. After the man had been arrested with the booze in his possession, he was taken to Mr. Pryor's court for examination. There he put up the story that could not be contradicted and was allowed to go minus his booze. The man under arrest claimed that he and two or three others at New Rockford had ordered the consignment and he had come to Carrington to get it from the express office. When he was arrested he was in the act of boarding a north bound passenger for New Rockford and had not sold any of the stuff here. Hence he could not be held on the bootlegging charge.

The whisky was retained by the authorities, however, and reposed peacefully until the raid of Sunday night.

Valley City Boasts a Hard Coal Croesus

EARL I. BEST ADVISED BY WIRE THAT HE INHERITS 650 TONS OF NUGGETS.

Earl I. Best, of the Earl I. Best Lumber Company, became the most envied man in North Dakota this afternoon, and will be known now as the Croesus of the hard coal business. He landed a shipment of 650 tons of the Pennsylvania nuggets! A whole train load!

Mr. Best had saved 50 tons in the bins as a reserve for the cold days when the hard coal famine will be at its worst, with the intention of parceling it out in small lots to shivering patrons in Valley City. Like all other dealers in the city he had given up hopes of getting more hard coal, turned down orders, and resigned himself to fate.

This afternoon he received a telegram from the Lehigh Valley Coal Sales Company, telling him that his negotiations for 650 tons of the precious fuel had been successful, that two car loads were on the way and the remainder would follow as fast as it could be shipped.

Mr. Best rubbed his eyes and reread the telegram. Then he passed it to friends to read to ascertain if he were under a delusion. But the telegram read right, and with a whoop, Mr. Best rushed out and began running lines for the construction of temporary sheds to store the coal when it arrives. How he landed the shipment he does not know, or, at least, won't tell.

Dr. Hartman Answers Questions About The Revised Pe-ru-na

S. B. HARTMAN, M. D.

In response to a great many queries I wish to make public statement concerning the sale of Pe-ru-na.

No, we are not selling as much Pe-ru-na as we used to. The reason for this is the change in the formula of Pe-ru-na.

The patent medicine business is very peculiar and particular. A person who has been in the habit of taking patent medicine will notice very quickly the slightest alteration in color, taste or effect. It does not look as it used to, or smell as it used to, or have exactly the same taste as it used to. It does not feel exactly the same in the stomach as before. The medicine will be promptly returned to the drug store and a new bottle demanded.

All this I knew before I changed the formula of Pe-ru-na, which I did six

years ago, but did not realize the difficulty of overcoming the people's notions on this subject.

I made a change in the formula of Pe-ru-na. Quite a radical change. A change that altered the color and the taste and somewhat the medicinal effect of Pe-ru-na. I did this believing it was the best thing to do under the circumstances.

Immediately the change appeared, the people began to complain of Pe-ru-na. They generally thought the druggist was to blame, that their bottle of Pe-ru-na had been tampered with. This made bad feelings between the users of Pe-ru-na and the druggists. The druggists in some cases became irritated and angered and made complaint to the wholesalers and manufacturers. Thus the trade was temporarily in an uproar.

After a year of explanation the trade quieted down and the new Pe-ru-na took its place in the drug stores as a popular household remedy. And yet it has not attained the popularity that the other Pe-ru-na had. Changing the formula of Pe-ru-na was equivalent to introducing a new medicine into the drug trade, an extremely difficult thing to do now-a-days.

Pe-ru-na as it is made today is a very excellent remedy for catarrh and general catarrhal ailments. It is for sale in all drug stores and has a slight laxative effect, very much needed in these days. It seemed to me that it was in many ways a better remedy than before. Yet in spite of all explanations there is a considerable demand for the old Pe-ru-na as it used to be made.

I have authorized the formation of a company to manufacture it, under the trade name of Ka-tar-no. The Ka-tar-no Co. is located in Columbus, Ohio, and stands ready to supply the trade with the old-time formula of Pe-ru-na under the name of Ka-tar-no. Send for free booklet. Address Ka-tar-no Co., Columbus, Ohio.
