

## Barnes County Farmer Shows Fine Beets

A PRACTICAL DEMONSTRATION SHOWS SUGAR BEETS CAN BE GROWN PROFITABLY.

(From Monday's Daily)

C. J. Lee was displaying this morning some of the finest samples of sugar beets shown in the city this year. The beets were grown on his Cuba farm near this city, and rival in size and quality beets grown in the heart of the beet sugar country of Montana or California.

In size the beets weigh from two and one quarter pounds to five pounds. Mr. Lee has received a request from Prof. J. W. Ince, of the department of chemistry of the state agricultural college to send him the samples, as the A. C. is making tests for sugar with beets from a number of fields in the state. A test made of beets grown by Prof. James of the State Normal school showed 16 per cent of sugar, but Mr. Lee's beets, it is expected, will show even a higher percentage.

The following dispatch from Mason City, Iowa, shows the views of experts on the possibility of growing beets in the northwest:

"Those who have studied the beet sugar situation in the northwest are confident that some day the manufacture of beet sugar in the north will be as much of a commercial factor as the manufacture of cane sugar in the south.

Investors in beet sugar plants are not crying for high tariff, but they want definite legislation so they can proceed upon settled principles. Iowa has only one sugar factory, and that is located at Waverly and is owned by the American Sugar Refining company. Minnesota has one factory, located at Chaska, and there are a score of cities and towns in the two states clamoring for a plant. Clear Lake, Osage and Emmetsburg, all in Iowa, want factories. In the Chaska territory, Winnebago wants one, so does Albert Lea and Mankato. But the sugar men say they cannot now give encouragement until there is a fixed and settled tariff policy.

The plant at Waverly cost approximately \$600,000. It was built in 1907, and the upkeep has been heavy. This factory this fall and early winter will handle 45,000 tons of beets and convert them into about 4,000 tons of sugar. The entire output has been sold, much of it being purchased by the state board of control.

"Sugar beets can be raised with good profit. It cost about \$16 an acre to buy the seed, plant, care for and harvest the crop. This is done largely by Russians. The average yield is from ten to twenty tons an acre, and the price is fixed at \$5 a ton at the point of delivery. Some farmers this year have netted \$30 an acre on their land."

### MORE PRIZES FOR BEST N. W. PRODUCTS

L. W. Hill, Chairman of the Board of Directors of the Great Northern road, has just announced that he will give a \$200 silver trophy cup for the best bushel of potatoes grown in the Northwest and exhibited at the Northwestern Products Exposition in Minneapolis in November; also that he will give a cup of similar value for the best collection of alfalfa products showing the most varied use which can be made of the plant as food for men or beasts.

Howard Elliott, president of the Northern Pacific road has announced that besides paying \$100 in gold for the best ten boxes of apples exhibited at the exposition he will give a silver trophy cup similar to that offered by Mr. Hill, for the best bushel of dent corn grown in the six states along the lines of the Northern Pacific and another trophy cup for the best collection of forage crops produced in the seven states.

Mr. Hill's offers are open to anyone in Minnesota, the Dakotas, Montana, Idaho, Washington and Oregon. Mr. Elliott's offers are limited for exhibitors in Northern Pacific territory.

Fifty dollars in gold will be paid by the Midland Linseed Products Company of Minneapolis for the best bushel of flax grown in the American Northwest and exhibited at the "land show" in Minneapolis.

The exposition management is offering the \$5,000 Big Four Thirty Gas tractor and plows for the best five bushels of wheat exhibited in Minneapolis.

(From Monday's Daily)

Mrs. Jacob Faust will entertain the members of the Ladies Aid society at her home on Thursday, October 31.

Mrs. Herman Winterer entertained at a dinner party this evening for Mrs. Laura Bassett. The appointments were perfect in every detail, and covers were laid for twelve. Mrs. Bassett expects to leave for Los Angeles Wednesday morning.

## NO ONE STRONGER THAN HIS STOMACH.

The celebrated Dr. Abernethy of London was firmly of the opinion that disorders of the stomach were the most prolific source of human ailments in general. A recent medical writer says: "every feeling, emotion and affection reports at the stomach (through the system of nerves) and the stomach is affected accordingly. It is the vital center of the body." He continues, "so we may be said to live (through) the stomach." He goes on to show that the stomach is the vital center of the body. For weak stomachs and the consequent indigestion or dyspepsia, and the multitude of various diseases which result therefrom, no medicine can be better suited as a curative agent than

Mrs. MURKEN.

### Dr. Pierce's Golden Medical Discovery.

"Several months ago I suffered from a severe pain right under the breast-bone," writes Mrs. G. M. MURKEN, of Corona, Calif. "I had suffered from it, off and on, for several years. I also suffered from heart-burn, did not know what was the matter with me. I tried several medicines but they did me no good. Finally, I was told it was my liver. I did not dare to eat as it made me worse. When I was allowed anything it seemed that I would faint—it hurt so. I grew very thin and weak from not eating. Was glad to take Dr. Pierce's Golden Medical Discovery. I took five bottles of it, and could feel myself getting better from the first dose. I could eat a little without pain and grew strong fast. Today I am strong and well and can do a big day's work with ease. Can eat everything and have put on flesh wonderfully. I will say to all sufferers write to Dr. Pierce. He has my undying gratitude."

## Land Bought for Brick and Tile Factory

THE BRICK AND TILE FACTORY WILL BE LOCATED INSIDE CORPORATION LIMITS ON EAST SIDE

The brick and tile plant for Valley City is now an assured fact. At the time of going to press last week a deal was practically closed for what is known as the Algeo land, lying east of the Times-Record office on Main street, about ten minutes walk from the central part of town.

The tract of land which was bought by the company that will be incorporated under the name of the Valley City Brick and Tile Company contains about 35 acres and takes in a large hill on the south side of the road. The plant will be of an entirely new and modern pattern of a special design which has only recently been patented and which is known as continuous kilns.

There will be several kilns, each 125 feet in length and 16 feet wide. These are constructed in such a manner that the fire is never allowed to go out and all smoke and gas consumed in heating the product. An amount is placed in the kiln each day equal to what is taken out and the total output will be at least 75 per cent larger for the money invested than in the old fashioned oven of kiln. The company will manufacture bricks, hollow building ware and also drained tile should there be a demand for it.

The clay makes a very light colored brick that can be colored or modeled as desired for making pressed brick or fancy brick of any kind. In the process, the shale will be taken into the house, ground by special machinery recently patented for that purpose, and will be put through the various processes until it finally comes out a finished article.

The work will start at once on the plant as soon as the architect has completed the plans and it is expected to have it completed and in operation some time in March. It will take about 150 men to operate the plant in normal capacity and it will be in operation the year round as the material can be dug at any time, and stored in the building to be used in the severe weather when it will be impossible to work out of doors.

The company that are promoting this enterprise consists of S. L. Davidson, A. R. Robertson, who installed the electric light plant here several years ago and C. E. Hickman, a clay and brick expert all of St. Paul, Minn. These men will all be actually engaged in completing the work here and at least one of them will probably make this his permanent home. These gentlemen have all been engaged in the brick and tile business and come to Valley City highly recommended business men.

This factory is going to be a very valuable acquisition as it will bring to Valley City at least thirty or forty additional families and since there is no brick factories in the country near here, it does not seem unreasonable to suppose that the factory will be unable to supply the demands from the start.

The old Kindred hotel was built from the brick made from the same material that will be used, but at a time when the nature of the material was not well understood and with machinery that was not adapted to handling this kind of material.

There appears a disposition on the part of many to criticize the girl of the period for her eccentricities in her dress, but do her critics realize the peculiar position in which she finds herself? Her mother, doubtless, has taught her that her principal business in life is to attract mankind, in order to do this she, naturally, proceeds along the lines of least resistance, or, to use a common expression, she travels on her shape." One must admire her courageous frankness, for evidently she had nothing to conceal. Perhaps some day the girl will realize that the kind of a chap who is attracted by the present display of curves and angles isn't worth having and that to secure the respect and admiration of the worthy man she will have to pay some attention to the artistic drappings of a former era.—Ex.

(From Monday's Daily)

The members of the Womans' club entertained at a perfectly appointed dinner this evening at the home of Mrs. Otto Zetterberg. The long table was handsome with its cut glass and snowy linen and was centered with a mound of shaggy yellow chrysanthemums, the place cards were hand-painted original designs and an elaborate course menu was served. Covers were laid for Dr. and Mrs. Van Houten, Messrs. and Mesdames James Grady, W. D. Jeffrey, W. L. Myer, W. A. Gordon, J. E. Jones, J. D. Gray, Otto Zetterberg; Beecher Cox, Mr. Fridd, and Mr. and Mrs. W. W. Smith.

This afternoon Mrs. H. A. Presler and Mrs. Dr. W. Palmer were charming hostesses at a Halloween party to twenty-five of their friends at the home of Mrs. Presler. Halloween stunts were enjoyed and the place cards and the menu at the luncheon concluding were carried out in every detail of witches' night suggestions. The out of town guests were Mrs. Morris Wright, of Bozeman, Mont., and Mrs. Olaf Olson, of St. Paul.

**COMING TO VALLEY CITY WILL BE AT Hotel Rudolf Wednesday, Nov. 17**

## DR. REA & CO.

Experienced Specialist One Day Only

Hours: 9 a. m. to 5 p. m. Returning Every Four Weeks

WILL BE AT RUDOLF HOTEL

One of the most successful and reliable specialists in the profession.

Licensed by the state for the treatment of special and chronic diseases.

Treats with wonderful success all chronic diseases of men, women and children because of his experience in hospitals and specialty work.

Specialize in deformities in children, bed-wetting, slow growth in children, and children's diseases.

All diseases of the skin, such as eczema, rashes, liver spots, facial blemishes, treated with the plastic surgery process.

Blood diseases, abscesses, open sores, enlarged joints, swelling of the limbs, bad circulation, cold hands and feet, heart diseases of the various kinds, treated with success.

Diseases of the stomach, indigestion, liver, kidney, bladder, rheumatism, neuralgia, nervous debility and secret diseases of men and women, all treated with gratifying success.

By their developed system no more operations for gall-stones, appendicitis, and goitre. Tubercular glands, piles, rupture, cancer, tumor, treated by the hypodermic injection method. Very little pain, no loss of time.

Consumption, catarrh, and bronchitis treated successfully by means of air, diet hygiene and medicine.

Dr. Rea & Co. are noted for their honesty in dealing with their patients and their helpful advice. They offer unusual opportunities to those who are sick and want to get well.

Consultation and examination to those interested, \$1.00. DR. REA & CO. Century building, Minneapolis, Minn.

## Hold-Up Men Rob Pool Room in Leal

BANDITS HOLD POOL ROOM HARBOR AT POINT OF GUNS FOR TWENTY MINUTES.

Leal, N. D., Oct. 26.—(Special)—Two bold bad bandits held up and robbed twenty men and boys, gathered in a pool room in Leal Thursday evening, relieving them of in the neighborhood of \$150.00, as near as could be ascertained. It is said that several hundred brass chips were also confiscated.

Pool and card games were in full blast when the robbers entered the room, and commanded the occupants to "throw up their hands" and line themselves up against the wall, while one of the bandits relieved them of their "kale." No masks were worn by the visitors, and good descriptions of them were obtained. One man was of medium height, dark complexion and wore a black overcoat. The other man was tall, light complexion, and wore no overcoat.

After keeping their victims against the wall for twenty minutes with their hands extended above their heads, the hold ups ran for two freight trains which were standing in the yards, and about to leave, and boarded them. No trace of them has been found since that time.

### CORRUPT PRACTICES ACT.

The first case in court in the northwest involving this law was held in Minneapolis last week. Candidate Nimocks was charged with having spent more than the amount limited by law. It was shown that more money was actually spent than the limit, but it was done by friends of the candidate, and the court decided that he could not be held responsible for it.

O. P. N. ANDERSON, Starkweather, N. D. Republican Candidate for Railroad Commissioner.

### NOTICE OF SPECIAL ELECTION FOR ISSUING BONDS FOR CONSTRUCTION OF TRUNK SEWER.

NOTICE IS HEREBY GIVEN, That at the general election to be held in the City of Valley City, Barnes County, North Dakota, on Tuesday, the 5th day of November, 1912, at the following polling places in the various wards of said city, to-wit:

First Ward, City Light & Power House;

Second Ward, City Hall.

Third Ward, in office of Barnes County Abstract Co. in the basement of the American National Bank Building.

Fourth Ward, in the County Commissioners' room at the court house of Barnes County.

There will be submitted to the qualified electors of the said city the proposition of whether said city shall issue and sell its bonds in the sum of \$50,000.00 in denominations of

**A WINTER COAT**  
not only keeps cold out, but conserves body-warmth; body-fat serves the same purpose, it enables us to resist unsettled elements and serves as the great source of our body-heat. Greater body-warmth means richer blood, more fat, not obesity but fat which the body consumes for warmth, vitality, resistance-power—as a furnace consumes coal for heat—**Scott's Emulsion does this.**

A teaspoonful after each meal makes body-warmth—healthy, active blood—sharpens the appetite and makes all good food go gold.

It drives out and keeps out cold by raising endurance-power and creating strength.

## Statement of Principles

By ANDREW A. BRUCE, Candidate for Supreme Court Judge.

The judge should be a servant rather than a master and should himself obey the law. He should not attempt to change the work of the centuries in a single day, nor should he override the will of the sovereign people. It is his duty principally to interpret and to enforce the law. It is for the people themselves to change that law and to legislate. Many reforms therefore in the law must and should come from the voters themselves. Otherwise the judge would be putting himself above the legislature and above the sovereign people. He might think that to be a reform which the people themselves would consider to be otherwise and to be a step backwards. As an associate editor of the Central Law Journal, as a lecturer and as a writer, as a practicing lawyer, and as a judge, I have always, and during many years, fought for the reformation of our laws, the simplification

of our practice and the lessening of the expenses and delays of litigation. I have always sought to make the law more democratic and more humane. My record is open to the public. It can be found in the printed pages of the magazines and the newspapers, in the journals of the legislative assemblies of Illinois, Wisconsin and North Dakota, in the records of both the state and the national bar associations, in the reports of the national commission on uniform state laws, and in the improved condition of the lives of thousands of men and women and children. I will always work for these reforms whether upon the bench or off it. I believe that these reforms can be brought about by a wise co-operation on the part of both the courts and the legislature. I will work for them.

Respectfully yours,  
ANDREW A. BRUCE.

\$1000.00 each, to mature as follows, to-wit:

\$15,000.00 thereof in ten years from date of issue;

\$15,000.00 thereof in fifteen years from date of issue, and \$20,000.00 thereof in twenty years from date of issue, and to bear interest at the rate of four per cent per annum, payable semi-annually, for the sole purpose of defraying the cost of building and constructing a trunk sewer system in the said city of Valley City, that will carry all sewerage of said city to empty into the Sheyenne river below the rapids in said river, which more fully appears from the resolution adopted by the city council in said matter and which is published with this notice.

Notice is further given that plans and specifications, giving minute description of the said trunk sewer, are on file in the office of the city auditor of said city.

Dated this 15th day of October, 1912.

M. J. BOYD,  
City Auditor.

### RESOLUTION.

Resolution for the Purpose of Calling an Election and Voting upon the Issuing of Bonds for the Construction of a Trunk Sewer.

WHEREAS, a committee having been appointed by the city council to investigate the necessity for constructing a trunk sewer for the city of Valley City, and said committee having made its report declaring that a trunk sewer is needed and necessary to maintain sanitary conditions in Valley City, and the same having been filed and approved by the city council; and the city council having instructed the city engineer to prepare plans and specifications for the construction of a trunk sewer for the said city, and these plans and specifications having been by resolution adopted, and the plans and specifications of the city engineer specifically describing the trunk sewerage system, and which said plans and specifications are on file in the office of the city auditor of said city of Valley City; and,

WHEREAS, it is necessary in order to construct the said sewerage system to issue bonds for the payment thereof, except the cost of constructing the ten inch and twelve inch lateral

sewers, that are specifically described in the plans and specifications of the city engineer on file herein, may be charged to the abutting property owners benefited thereby;

NOW, THEREFORE, Be it resolved by the mayor and city council of the city of Valley City:

That at the general election to be held on Tuesday, the 5th day of November, 1912, in the city of Valley City, there shall be submitted to the legal voters of said city, the question of whether or not \$50,000.00 in bonds of said city, in denominations of \$1,000.00 each to mature as follows, to-wit:

\$15,000.00 thereof in ten years from the date of issue;

\$15,000.00 thereof in fifteen years from the date of issue; and \$20,000.00 thereof in twenty years from the date of issue, and to bear interest at the rate of four per cent per annum, payable semi-annually, shall be issued by the said city of Valley City, for the sole purpose of defraying the cost of building and constructing a trunk sewer system in the said city of Valley City, except the ten inch and twelve inch lateral sewers hereinbefore mentioned, the expense of which shall be assessed to the property benefited thereby, for the purpose of carrying all sewerage of the said city of Valley City to empty into the Sheyenne river below the rapids in said river.

That the city auditor be and he is hereby directed to have printed on a ballot provided for that purpose at the said general election the following:

"For issuing bonds for the construction of a trunk sewerage system." and "Against issuing bonds for the construction of a trunk sewerage system."

That the city auditor be and he is hereby directed to give legal notice that such question will be submitted to the legal voters of the city of Valley City at the said general election, by the publication of this resolution in the official newspaper of the city of Valley City, and in the North Dakota Patriot for at least fifteen days next preceding the said general election, as by law required.

Approved October 15th, 1912.

L. S. PLATOU,  
Mayor.

Attest: M. J. BOYD,  
City Auditor.
