Banker Tracy Sees Great Prosperity Ahead

WELL KNOWN FINANCIER TELLS TIMES-RECORD MAN THE CAUSES OF SLOW COLLECTIONS AND PREDICTS GOOD TIMES.

Banker John Tracy in speaking of the general conditions in the county today stated that collections were very slow this fall and gave as a reason the good weather for doing fall work and extremely poor roads for moving grain and also thinks that the drop of 5 cents in wheat may have caused many to hesitate to sell. With wheat selling at from 77 to 80 cents he does not think the farmers will sell unless forced to do so by extreme need of money.
In speaking of the crop this year he expressed the belief that when expenses are paid there will be very little surplus left but thinks with the increasing dairy business and growing herds of cattle and hogs there is great prosperity in store for the farmers of the state.
Mr. Tracy is greatly interested in the better farming movement and is one of four who gave fifty dollars each this summer as premiums to be offered on a literary contest, confined entirely to better farming methods, which brought out some interesting stories that are opening the eyes of those who have so freely predicted in years past that Barnes county and the rest of the state could not raise corn and fruit. These writers found canning factories in the state operating on North Dakota grown ripe tomatoes, big orchards and strawberry beds that raised better than \$400 worth of strawberries per acre.

Elmer Wicks has moved from the Sid Ellis farm and is now located on the Anton Kjelland farm which he bought recently.

The Literary Society met for the first time last Friday night.

Mrs. Evans, a visitor of Mr. and Mrs. Stillings for the past week returned Sunday to her home in Washington.

George Hager and Bert Harris were seen in Valley City Saturday. Bad roads and bad weather allowed only Mrs. Mortenson and Mrs. Hansen of Green to accept Mrs. Frank White's invitation to her home last Monday. Mrs. White invited all women of the Farmers' Club.

At the meeting of the officers of the Pioneer Club which was held last week in the offices of the president, D. W. Clark, it was decided to hold the mid-winter meeting on the 14th of November. At this time there will be the annual election of officers and the afternoon will be given over to this and other business and short talks given by members of the Pioneer Club. In the evening a substantial supper will be served by the members of the Women's relief Corps after which a musical program will be given in the Armory and the general festivities will end with a big dance. Everything will be done by those in charge to make this meeting as good or better than the others which have been held here and it is hoped that the weather will be such at that time that all members of the club from around the country will be able to get to town to take part in this big meeting.

Final arrangements are being made now for the Barnes County Corn Show and those in charge Edwin Mayland, Miss Minnie Nielson, Otta Zetterberg and O. A. Barton are united in promising one of the best exhibits ever shown in this or any other county. The dates decided upon are Nov. 20 to 23 and the place of holding the show will be up stairs in the city hall.
Corn will receive perhaps more attention than any other crop but forage crops will be one of the exhibits that will be given particular attention and it is expected that there will be some samples of alfalfa that will be worth going a long way to see.
There will also be a school children's exhibit consisting of corn, potatoes, chickens, bread and butter. The

children's exhibits are always good and this year those who are in a position to know say that there will be some unusually attractive community displays contesting for the liberal premiums that are to be offered.

The smaller towns of the country are all holding shows and offering premiums for the choicest displays and after these shows have been held the best from each show will be entered at Valley City for the larger prizes that are being offered here. The complete program and more of the details will appear from time to time in the press of the county and it is hoped that a very successful show will be the result of the efforts of the committee and business men who are doing the work and engineering the enterprise.
