The annual meeting of the shareholders of the First National Bank of Valley City, North Dakota, for the election of directors for the ensuing year and for the transaction of such other business as may come before them, will be held at their banking rooms between the hours of 2 and 4 o'clock p. m., Tuesday, January 13, 1914.
JOHN TRACY, Cashier
12-11-5tw.

Charlton Andrews has returned from a vacation trip to Philadelphia and New York. Mr. Andrews' play, "His Majesty the Fool," has had a successful run at the Philadelphia Little Theatre and stands an excellent chance of being produced in New York next season. Mrs. Andrews, who accompanied the professor to the east, will remain for several weeks longer in Indiana, where she is helping to care for her mother, whose condition is still serious.

used when attacked by a Cough prevents dangerous bronchial and pulmonary ailments such as Croup, Asthma, etc.
Contains no harmful drugs. 25c., 50c. and \$1.00 Bottles.
DAVIS & LAWRENCE CO. New York.

New Machine at Rex Proves Convenient

Patrons of the Rex are greatly pleased with the new arrangements whereby there is no delay in changing reels. When one reel is completed the next one starts without a break. This is made possible by the addition of the

newly installed projector which was installed Xmas. The double equipment represents a heavy investment, but is in line with the policy of the house to give the best regardless of cost.

THE "SHOP OCULIST"

The "Shop Oculist" is an established institution in most shops and factories. He is a workman who has had considerable experience in removing cinders, emery, etc., from the eyes of his fellow employees. He usually has a steady hand and a good eye, and has two or three instruments and a magnifying glass with which to remove the foreign body. These tools are hardly ever clean, and he himself makes no pretense at being surgically clean. He gets the patient in a strong light, and picks and scrapes the delicate tissue of the eye until he dislodges the little particle. At least, he tries to dislodge it, and usually succeeds, but almost invariably leaves behind much scratched and roughened tissue. As a rule, the eye gets well, for a strong man can withstand much physical misfortune, but even if he gets well, the unnecessary scraping leaves a scar, usually in the center of the eye, which more or less permanently interferes with vision. Frequently the dirty and unskilled manipulations of the "shop oculist" produces an infection or poisoning of the eye, and pus forms and the eye becomes lost or badly damaged, and the other eye even may be lost from sympathetic inflammation. The "shop oculist" is responsible for many eyes that are lost by improper treatment directly after a slight injury.

TO DEVILS LAKE.

E. A. Greenwood, the "cow man" spent the fore part of the week at Devils Lake on some herd record work. He states that the farmers up there are taking hold of the dairy business vigorously. On the way back he made a stop at Fargo and discovered that three healthy creameries are at work, all doing a good business. He is also in receipt of a letter from Litchville which states that a creamery is about to be built there. He will go over Friday.

ABRAHAM LINCOLN.

Abraham Lincoln never said "Hello Central" never dodged an automobile never held a strap in a trolley car, never pushed a button for a light, never heard a phonograph and never posed for a motion picture, and yet Abraham Lincoln died only forty-eight years ago.—Exchange.

No he never did but he lived when the social standing of women were judged largely by their modesty in dress, when children were educated to speak respectfully to their elders, when extravagances was well nigh a crime, when preachers were teachers rather than social leaders, when a spelling school took the place of the grand opera, when mothers were home makers, when books and papers that did not deal with sexual matters were saleable and yet he died only forty-eight years ago.

FROM A BACHELOR.

C. E. Greenwood of Nome says in his last Tribune that there may be women like those on a magazine cover but there are none like those shown in Corset advertisements.

Making the Little Farm Pay
By C. C. BOWSFIELD

SMALL fruits pay well and afford great pleasure to the family on a little farm. They are ideal products where the place is small and situated near a city, so that they may be sold to families or hotels and restaurants. Much waste and loss of profit will be avoided by delivering to private customers.

An advantage in raising berries comes from the quick growth as well as from the small acreage required. It takes only a year to get started with small fruits. They can be grown in an orchard and will return a large amount of money in the years when peach and apple trees are coming to maturity. The more this orchard ground is stirred the better, and the cultivation of berries is of actual benefit to the large fruits. A fair yield of strawberries will bring \$200 to \$300 an acre, according to market conditions. Raspberries return 30 to 50 per cent less.

Small fruit requires a rich, well drained soil. A light, deep loam is best, and an abundance of well rotted barnyard fertilizer should be plowed in. Soggy land is not favorable to any kind of fruits, but nevertheless moisture is needed, and unless rain is plentiful it will pay to carry water or convey it by means of hose.

Plant at the proper time in hills or hedges and keep the soil loose with hoe or cultivator. Pinch off all blossoms the first season. Mulch with straw and manure in the fall. Strawberries are hardy and prolific, but skilled attention will pay in extent and quality of production. With a view to successful marketing both early and late varieties should be cultivated.

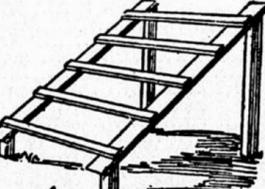

Raspberries are next in importance. There is not so much tedious work connected with growing raspberries as strawberries, and the profits are not quite so large. Set the plants in the spring in rows six feet apart and three feet apart in the rows. This gives plenty of room for cultivating, which must be done thoroughly throughout the growing season. Some experts do not stake raspberries, as is the custom with most growers. When the tips are about two feet high they are pinched back. This causes laterals to be sent out along the stems. In the spring at trimming time these laterals are cut back so as to leave about six inches, and they hold up all the berries they can properly mature.

The red varieties do not need the summer pruning, but are pruned back to about eighteen inches in the spring. Currants and gooseberries require almost the same treatment and can be considered together. One or two year old plants are best and should be set in rows four feet apart each way so that they may be cultivated both ways. This method insures thorough and easy cultivation. They should be cultivated frequently so as to have a good soil mulch during the growing season. It is best to grow the plants in bush form and trim out very little, only the surplus and deadwood.

It is very important to kill all currant worms with some poisonous spray as soon as they appear. If this is neglected the bushes will soon be destroyed.

When a producer has established a reputation for having a good quality of fruit and giving full measure there will be no difficulty in securing customers. If the product exceeds the demand of private patrons it is always possible to ship to stores or commission houses. Bear in mind, however, that the selling end of the business is important and try to arrange in advance for private customers or retail merchants to take the whole output.

Convenient Chicken Roast.

Select two four inch pieces six feet long. Lay them parallel and nail five crosspieces, three feet long and three inches wide, to these. The legs may be made of 2 by 4 stuff the desired length. By means of long spikes secure them to the parallel pieces. Place this in roosting quarters for chickens and they will soon be perching upon it at night.—Iowa Homestead.

PLANT TREES!

When we plant a tree we are doing what we can to make our planet a more wholesome and happier dwelling place for those who come after us, if not for ourselves.—Oliver Wendell Holmes.

Fall Plowing Kills Cutworms.

Fall plowing of field areas will often be of service in controlling cutworms that are affecting field crops.

MARSH TWP. ADDS NEW MEMBERS TO PROSPEROUS FARMERS CLUB

Getchell Prairie Has a Christmas Tree, With Clever Acting by Santa Claus and a Colored Man

CHEER UP WINTER IS HERE.
No longer any occasion to complain winter is here in real earnest. The spell is broken and those who feared that we might have a continuation of the tropical weather, may lay aside all fear and prepare to visit the coal bin with increasing frequency. The change has been under way for a couple of days and this morning the early risers discovered that real winter had arrived. Still reports from parts of the east and west brings the news that storms and bad weather prevail and everything indicates that we still have the best of the weather, and why not, has not the weather man always done well by us?

Valley City a Musical Center

Another evidence that Valley City is a musical center is seen by the representative who have been admitted to membership in the musical organizations at our State University. Loyd Witter has been admitted to the bass section of the men's club, an honor greatly coveted at college. From many applicants thirty-two young men are chosen. Each year about twenty-four men are taken on the spring tour. This year the trip will include ten cities in the state of North Dakota and several cities in Minnesota including appearances in Minneapolis and St. Paul. The club appeared here four years ago and last year giving the greatest satisfaction. The reputation of the club is equal to that of any of the Glee clubs from larger universities.

The club is under the leadership of William W. Norton, a brother of Miss Susan W. Norton of the Normal. We know of his superior work thru the appearance of his Chautauqua orchestra last summer as well as the appearance of the Grand Forks Symphony orchestra two years ago and the various concerts by the University Glee club. An effort is being made to have Valley City again included in the itinerary of the club.

Dakota Man Charged With Embezzlement

Wahpeton, Jan. 2.—The preliminary hearing in the case of the state vs. Frank Henderson, accused of embezzlement, was held here on Tuesday and Wednesday of this week, before Rev. Wm. Edwards of Christine, justice of the peace of Richland county.

Henderson, who was auditor and superintendent of the Fairmount & Veblen R. R. Co., was arrested in December, after an accountant had investigated his books, and he is charged with having embezzled about \$4,000 of the company's money.

The hearing was mostly taken up with arguments of the opposing lawyers in the case, and the case was adjourned to Jan. 6. During the interval a careful accounting will be made of the books, to determine if the charges made can be substantiated.

It is said that Henderson will bring suit for \$50,000 damages for malicious prosecution, but this is not established. The railroad of which Henderson was chief official was built last summer, being promoted by Julius Rosholt, formerly of Mayville, and now of Minneapolis. He is president of the company. The road is forty-five miles long, and Henderson handled practically all its cash, as auditor and superintendent. Henderson was formerly of Jamestown.

There is much interest in the case and the developments are being watched closely. The attorneys for the prosecution are State's Atty. C. J. Kachelhoffer, Purcell & Divet of Wahpeton, and Judge W. S. Lauder of Wahpeton. The defense is represented by C. E. Wolfe of Wahpeton, Geo. W. Thorpe of Jamestown, and Cary & Cary of Minneapolis.

Canada Hard Up.
The United States is not the only country that is seeing hard times. At Moose Jaw, a city of only a few thousand population, the city officials have established a "soup house" to feed the unemployed. That such an institution should be established in a city the size of Moose Jaw speaks louder than words of the condition of the Canadian northwest.

Getchell Prairie, N. D., January 2.—The Christmas tree and program at the church were enjoyed by a large crowd. The program consisted of a few songs, recitations and three short plays. The pupils of our school are becoming very good actors and their teachers may well be proud of the result of their training. All did so well that it would be unfair to make special mention of a few, so we will speak of only two stars. Andrey Holcombe as Santa Claus made a decided hit, and Bernard Gotberg as the colored man quite won the hearts of his audience by his clever acting and pleasing voice. The men of the church presented a very fine fur robe and blanket to their pastor, Mr. Farrar. Mrs. Farrar was also remembered with a useful and appropriate gift from the ladies' society.

Miss Helen Rand is spending her vacation with friends in Fargo. We are glad to report that Mrs. Charles Whitcher and Miss Edna have about recovered their usual health. Feeling sure that we have the most faithful and accommodating mail carrier in the state, the people along his route showed their appreciation of his services by making Mr. Dayton a Christmas gift of twenty eight dollars.

The Fred Johnson home had a narrow escape from fire last week. Matches and mice was believed to be the cause, but the fire was discovered in time to prevent any serious damage.

The Society and club will meet at the J. H. Whitcher home on New Year's day. Mr. and Mrs. Mayland are expecting to be present and will appear on the program.

MARSH TOWNSHIP.

Marsh Township, Jan. 2.—Mrs. and Mrs. Oscar Olson, who reside on the John Holzeman farm are the proud parents of a baby girl who arrived several weeks ago. Axel Nelson and John Gartland recently sold several head of young stock to Mr. Algeo who took them to his farm southwest of Valley City. At the Farmers' club meeting held at the home of John McIntyre three new members were added and a social good time was enjoyed by those present. Next meeting will take place on the 8th of January at the Gartland home. Everybody welcome. Ed. R. King and John McIntyre together with several others from the neighborhood formed a hunting party Wednesday of last week to track down a wolf that Mr. King had seen and after a lively hunt the wolf was finally shot and killed. Mike Rohers from Kathryn was visiting in the neighborhood several days last week calling on his many friends here. Ernest Benson who was expected home for the holidays after spending the past two years in Montana arrived in Valley City recently on his way to Fargo where he is seeking medical aid for some trouble with his eyes. We all hope it is nothing serious and that he will be able to come home soon. Mr. and Mrs. J. Moom from Buffalo, N. D., were visitors at the home of Mrs. Ellen Fagerstrom several days this week. Miss Amelia Simenson from Valley City visited with her sister Mrs. Carl Brown a couple of days returning home on Sunday. Several of the young people of this neighborhood were very pleasantly entertained at the home of Mr. and Mrs. Theodore Olstad of Valley City on Sun day evening. Mr. and Mrs. J. Moom, Mrs. Ellen Fagerstrom and son, Edwin visited at the Gartland home on Monday afternoon. We had no snow for sleighing this Christmas but the skating has been fine along the Sheyenne this holiday season and all who can skate are often seen hiking down to the river. A happy New Year to all the readers of the Times Record and all the correspondents, the editor and entire working force of this paper. Wm. Bublitz who has been visiting his parents, Rev. and Mrs. Bublitz during vacation left this morning to resume his duties as principle of schools at Pekin this state.
