PROFESSOR WISE SAYS.

Why is a Silo? A Silo is a large, cylindrical shaped container of Contentment for milk cows and is the biggest known producer of wealth for the cow's owner. It has got mines and Florida orange groves backed clear off the platform when it comes to paying the dividends.

Well fed cows are happy and none but satisfied cows give the most and best milk. A cow is like a man, if she is sore about something, she will lay down on the job.

The sparse, dry pasturage of North Dakota alone will not produce the essentials of food necessary to generate the best supply of milk, but feed cows ensilage for a month and note the change. There is no argument necessary as to the value of silage feeding and at the price of the Wisconsin silo you should have one.

Place 2x4 studs in a circle and nail resawn boards inside and out, bent horizontally against the studs. This is the silo they prefer in Wisconsin. It gives an air space, keeping the contents sweet and is protection against frost. The air space is the thing.

This silo is easy to build. All you need is a plan and the Rogers-Jeffrey Lumber Company will provide you with a blue print. The rest is easy. We will make you smile at the low cost of this silo as compared to any patent one. Note this: this is the CHEAPEST SILO IN THE WORLD.

See us for details of the Wisconsin Silo, at the Place of Quality Goods. We will provide a plan and list of material to build this great generator of Milk, Butter and Dollars. Rogers-Jeffrey Lumber Co. 3-26-14w

"QUO VADIS" IS REMARKABLE FILM

There are a few things which stand out from the commonplace, towering above and beyond the ordinary. Of this type is the thrilling pictured story of Quo Vadis which Manager Treat has secured for his patrons at the Bijou.

Yesterday a special program of this remarkable picture was given for the benefit of the press and to make a trial run of the reel. The newspaper men of the city and their families and other friends were invited as special guests and it was certainly an enjoyable, instructive and entertaining "treat."

The reels sent to Manager Treat are new, direct from the factory, and yesterday was the first time they had been run since their factory test. As a result, they are beautifully clear and every detail stands out with remarkable distinctness.

It is astonishing to the average person to know how the companies that produce these masterpieces gather such great crowds as are depicted in the Roman arenas, and the remarkable wild animal scenes are also worthy of special comment. The story is well told and these are pictures that every child as well as every adult in the city may see with profit.—Fargo Forum.

FRANK PLOYHAR DONNING WAR PAINT

Hon. Frank Ployhar admitted this morning that he had arrived very close to the time when he would make his formal announcement as a candidate to succeed himself in the state legislature. Frank came very close to being elected speaker of the house last session and feels that he would like to go back in order to take part in framing some new proposed laws in which he is interested. Mr. Ployhar is a fearless fighter and whether or not we all agree with his political policies we must admit he has not been afraid to express his convictions in the open.

NORMALONIANS TO MAKE CONCERT TOUR ON SOO

A fine ten pound boy arrived at the I. J. Moe home Monday morning and gives every evidence of his intentions to stay. Judge Moe says that he has all of the dignity required for judicial honors and that he expects him to make good along that line, as soon as he has the age. Mother and boy doing nicely.

Valley City has suffered one of the most disagreeable storms of the winter for the past twenty-four hours. The snow that fell yesterday was damp and a heavy wind caused it to drift making it difficult to get about and at the same time it was warm enough so that the snow melted whenever it touched a pedestrian.

LOOKS LIKE BURKE VICTORY IN S. D.

The latest returns from South Dakota seem to confirm the earlier reports of a complete "stand pat" victory in that state. Burke claims the nomination by a wide margin. The claim is also made that Henry B. Anderson has been successful in the contest.

Special to the Times Record:

Later—The nomination of Burke is conceded by a majority of from five to seven thousand. Byrne seems to be safely in the lead for governor with the balance of the ticket in doubt.

"QUO VADIS" COMING TO REX ON MONDAY

"Quo Vadis," that marvelous photo drama spectacle that has made the name of the producer, Mr. George Kleine, already famous on this continent, and which has thrilled vast audiences week after week in New York, Chicago, Boston and Philadelphia and various other cities, is announced at the Rex Monday, March 30th for an engagement of one day with matinee every day. That a rare treat is in store for local amusement seekers is a foregone conclusion as such wonderful patronage and praise that has been bestowed upon this attraction cannot be without merit.

Many ministers and priests have been noticeable in the audiences particularly in New York and Chicago, and all have given the entertainment their unqualified approval and endorsement. Some of the pictures are more than inspiring and imbue the spectator with an unbounded reverence for things that are sacred and spiritual. According to all accounts, one of the most striking figures among the great list of actors is the character Pete. It would be hard to find another player who so perfectly realizes the general conception of this noble man. The features of the actor are perfect for the part and could not have been better had they been chiseled out of marble or painted specially for the production. His acting is at all times in keeping with the beauty of the character and many critics have pronounced the picture where he is preaching to the Christians in the cave the most artistic and inspiring of the whole wonderful group. And certainly no scene ever pictured or portrayed upon the stage is more impressive or carries stronger weight for good than that incident where the figure of Christ appears to Peter and commands him to return to Rome. It is a splendid specimen of dissolving photography and only one of a remarkable group. In fact, it is said, there are so many great scenes in this glorious photo drama production of "Quo Vadis" it is difficult to pick out any one to praise more than the other.

LINCOLN SCHOOL.

The children in the 2nd grade dramatized a story from their language work for the mothers at the meeting of the Lincoln School Circle. It was not "show work" but simply regular class work and was very much appreciated by the ladies.

The 4th grade had a candy sale last Thursday at which they made \$5.80. This money is to be used for another picture for the room.

The 7th grade have the flag this week for the best attendance and punctuality.

EVANGELISTIC MEETINGS CLOSED TUESDAY EVENING

GERMAN DAY AT SACRED HEART CHURCH.

The German Catholics of this community and vicinity celebrated German Day at the local Catholic church this morning. The services were exceptionally grand and a large number of people were present.

The order of the services of the German Mass was: Father Kleidon, celebrant; Father O'Beirne of Valley City, deacon; Father Schimmel of Litchville sub-deacon.

Father Schimmel spoke in English and in glowing terms pictured the influence of the German people in the United States in shaping the destinies of the Republic, illustrating his main argument by apt references to both the ecclesiastical and civil history of the country. Their fidelity to the Christian ideals of education was second to their all absorbing and effective endeavors towards the creation and maintenance of a truly Christian community.

Father Kleidon gave the German sermon, giving the history of the missionary career of St. Boniface, the Apostle of the Germans.

In beautiful and choice words he told how St. Boniface left England in order to convert his German cousins to the Christian faith.

The music was most beautifully rendered by the Catholic choir of Sanborn. The church was tastefully decorated, Sweet red roses adorned the altar, the red rose being the National flower of Germany. The Germans of this locality will long remember German Day in Sanborn.—Sanborn Enterprise.

BURNED IN DRUG EXPLOSION WEDNESDAY

Yesterday noon while compounding a prescription T. L. Larson of the Rudolf Pharmacy was badly burned by an explosion which was caused by the drugs he was using. His face and eyes suffered most. He is confined to the house today and may not be out for several days. The drugs he was using were not supposed to be of a particularly dangerous nature and therefore Mr. Larson was not using as much precaution as he might otherwise have done. His friends were greatly alarmed at first for the safety of his eyesight but all danger has passed at this time.

HIGH INTEREST RATES.

The Fargo Forum deprecates the high rate of interest and thinks 12 per cent on real estate altogether too high. The Forum must have some rather hazy information as to interest rates in this state. Few banks are charging as high a rate as 12 per cent and there is an unlimited supply of money available for real estate loans and from 5 to 9 per cent which seems to be the highest rate except in cases where perhaps the security is very poor as on second mortgages.

This is a matter that ought not to be handled carelessly as many prospective settlers will consider interest rates with other matter before coming to the state. Interest rates here are not alarming excepting in a few isolated cases. Money is being secured in Valley City on city property at as low a rate as 7 per cent and on farm lands at about the same rate. In the western part of the state where it is less developed the rate is somewhat higher perhaps, but that is caused largely by the loan agents who exact a heavy commission. Laws limiting the interest rate are needed and should be enacted but in urging the law it will be well to keep within the confines of conditions as they exist, lest the emigration movement receive a set-back.

RITCHIE SCHOOL.

Darrell Sells dropped from the 4th grade last week.

Teidy Anderson has returned to the 8th grade.

On Thursday the Ritchie school Parents and Teachers Circle met in the Domestic Science room. There was a good attendance and a very enthusiastic meeting. Mrs. M. P. Krogh gave an excellent paper upon the subject "How Can Parents Help Their Children's Teachers?" This paper was ably discussed by Miss Helen Best and others. Supt. G. W. Hanna was present and gave some helpful suggestions also. The next meeting will be in the evening and all fathers and mothers are invited.

"Co-operation of Christian Bodies" in Valley City Marked by Good Results in Spiritual Interest.

EVANGELIST LEAVES TODAY

The Union Evangelistic Meetings which have been running for three weeks in our city came to a close last night. Notwithstanding the inclement weather a good crowd was present to hear and bid the workers goodbye. Dr. Wright spoke last night on the two aspects of the Christian life, the individual and the social. He urged that all the Christians of the city strive to preserve the spirit of co-operation begun in these meetings, and together seek to render the larger service that here as elsewhere is needed. At the close of the sermon both Mr. Wright and Mr. Rines the singer expressed their appreciation of the kindly treatment and assistance they had received from the people. Mr. Rines deplored the fact that he had been almost completely incapacitated since coming here, because of the grippe, thus practically preventing him from being of much service. Among other things, Mr. Wright stated that of all the union meetings he had ever been in, and he has assisted in many, never has he before been where there was not to be found the least indication that one minister or people was trying to selfishly appropriate the benefits of the work. He stated that in no instance in these meetings had he found anything that would even provoke a suspicion, that the men in and behind it had any object in mind but the building up of the Kingdom of the Master in Valley City.

While the number who have definitely set out upon the Christian life are not as numerous as had been hoped, still these meetings have made for good. It is never wise to count converts, and gauge success in spiritual and moral effort this way. Man's business is to sow, and good sowing has been done with much promise of a worthy harvest. Not the least benefit is to be found in the general interest that is generated in good things and unselfish spirit shown by the workers. Judged by this standard the Union meetings have accomplished what has never before been done in Valley City. They have shown to the churches and to the public that Christian bodies can and ought to co-operate, and there are some reasons to believe that the future will see a larger co-operation in the way of social service, and consequently better and more individual Christians.

All the expense involved in the enterprise was generously provided by the congregations, and the committee in charge last night again expressed their appreciation of the response that has been made to their appeal.

Mr. Wright left this morning on the early Soo train for his home in Franklin, Indiana. Mr. Rines and his wife departed for Wahpeton this afternoon, where they will engage in another meeting.

SARAH MILDRED WILMER ONE OF FINEST PROGRAMS OF YEARS

The reading, "The Sign of the Cross" by Sarah Maud Wilmer, which was given Thursday evening at the Armory was one of the finest programs given in Valley City this year. The Armory was crowded to its fullest extent and every one of the immense audience was well pleased with Miss Wilmer who has a delightful personality. In order that every one might have the opportunity of hearing this splendid reading the Lecture Association very kindly reduced the single admission tickets to a much lower price and every one appreciated this kindness.
