

LINCOLN'S STATUE READY FOR JUDGES' INSPECTION

Valley City Boy In Chicago Has Great Undertaking Well Along Toward Completion.

PREPARATIONS UNDER WAY

North Dakota's gift to Norway on the occasion of the centennial celebration this year, a bust of Lincoln, is nearly completed, and word comes from the sculptor, Paul Fjelde, that the time has arrived when Lorado Taft, and Judge C. F. Amidon must pass judgment on his work, whether or not it is a true likeness of the great emancipator. These two men were appointed to decide on the merits of this sculpture after its completion before the bronze cast is made.

Inscriptive panels to go with this bust have already been completed by Mr. Fjelde and it is believed that these will be cast on bronze before the bust. The pedestal will be finished in Norway from Norwegian granite and will cost 3,100 crowns, the money having been forwarded for this work by Editor Thorsen of Normanden, at Grand Forks. This money was forwarded by W. Morgenjerne, secretary of the Nordmands Forbundet at Christiania, and he will have charge of the purchase of the pedestal.

Erick Gude, a Norwegian architect, will design the pedestal and deliver it to the place where the bust will be erected in Christiania. Gude furnished the Bastastone of Bjornson for the Agricultural college campus and which is occupying a prominent place there.

Newspapers and periodicals of Norway are making extensive mention of this gift by North Dakota. The fact that the bust is the work of a boy of this state and he a descendent of Norway himself is a matter of much pride to that country. Its strictly North Dakota origin is the subject of much favorable comment all over the country and it is certain to arouse much interest among the people of the mother country this summer.

Governor Hanna on behalf of North Dakota will present this gift to the Norwegian people with impressive ceremonies July 4, at which time it will be unveiled. An exhibition will be held in Christiania this summer and it is expected that most of the people of this country will visit the capital city in course of the season. North Dakota's gift to Norway has been extensively written up in the papers of the country and every one has read about it. The people at home will be anxious to see the likeness of the man whose character they love and the work of one of their descendants, and the bust will be a center of interest to the thousands of visitors.

Paul Fjelde, is now in Chicago putting the finishing touches to his work and it is expected that the judges will pass upon it in a short time. It will then be cast in bronze, after which it will be shipped to the Norwegian capital. Fjelde's home is here in Valley City. His fame as a sculptor is rising and the people of the state are expecting great things from its native son.

NOTICE TO CREDITORS.

In the matter of the estate of Peter Wyckoff, Deceased. Notice is hereby given by the undersigned, A. P. Paulson, Administrator of the Estate of Peter Wyckoff, late of the town of Utrecht, in the County of Kings and State of New York, deceased, to the creditors of, and all persons having claims against, said deceased, to exhibit them with the necessary vouchers, within four months after the first publication of this notice, to said Administrator, at his office, in the City of Valley City, in said Barnes County.

Dated March 27th, A. D. 1914.
A. P. PAULSON,
Administrator with the will annexed.

Professor Wise Writes Billy

Dear Billy:— You are beginning to show signs of real farming ability. I was getting discouraged. The silo idea is by no means new, but it is as good as new nevertheless.

Ensilage as a stock food has been used for 30 years or more in eastern states and has always been the source of more coin for the owner than any other investment a farmer ever made. I have noticed that as soon as a farmer acquires a silo, that he begins to be effected with the germ of Prosperity.

This epidemic often effects a whole community and land gets so blamed high priced that nobody but Croesus could buy a farm and move in. The boys though, who own the land, bought it years ago like you did with a strong back and about \$48.75 down. Now they buy Holstein cattle and more silos and have electric washing machines in the house. I know all about the Wisconsin Silo and it can't be beat. If the Rogers Jeffrey Lumber Co., will give you a plan of one, showing you how to build it, I'd spit on my hands and go to it like John Olson did. Put in about twelve acres of corn this spring to fill it and you'll soon have a "half-nelson" hold on Brother Debt and get yourself married.

Your Aff. Father,
PROFESSOR WISE.
P. S. See the R. J. L. Co., about some oak wagon material. It's about time. And don't overlook that good old fashioned rough pine fencing.

A Word To Farmers In Spiritwood Territory

What are your building plans for this spring? Are you going to make any improvements in the home or in the barn? Are you going to do any new building? I just want to remind you that spring is advancing very rapidly and soon your rush will be on. If you possibly can take the time this week or next come in and talk over with me the plans that you have in mind and let me show you some lumber with which to do the work. I have an excellent stock of most of it bran new, all thoroughly dry and the prices and terms that I'll quote on your requirements will be entirely satisfactory, I'll assure you.

R. E. DRESSER, Agent.

At Gorman and Eckelson

If you are going to market any more grain this spring why not bring it in right away and have it out of the way before seeding. Prices are good but if you want to store we have room for it here. Come this week if possible.

E. K. PERRIN, Agent at Gorman
IRA CHAPMAN, Agent at Eckelson

I Have the Following Lands for Sale

The SE 1/4 section 10-140-56.
The SW 1/4 section 11-140-56, 320 acres under cultivation, house, barn and granary.
The north half section 23-140-56, less R. R. right-of-way, some 300 acres, all under cultivation, machine shed and well.
222 acres lying south of N. P. Ry. in section 21-140-56, all under cultivation.
NE 1/4 of section 4-139-56, 100 acres cultivated, balance in hay.
If You Want a Snap in Farm Lands See Me About Them
W. W. Smith, Valley City, N. D.

Baking Powder Biscuits

Light as a Feather
By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

Baking Powder Biscuits made by this recipe are so far ahead of ordinary baking powder biscuits that, if once tried, you will never use any other recipe. Try it the next time you run short of bread. Save this recipe.

K C Baking Powder Biscuits
Three cups flour; 1/2 to 3/4 cup shortening; 3 level teaspoonfuls K C Baking Powder; about 1 cup milk or water; 1 teaspoonful salt.

Sift three times, the flour, salt and baking powder. Work into the flour the shortening, using lard or butter for shortening. Then mix to a very soft dough with the milk. The softer the biscuit enters the oven, the lighter it comes out. Never knead baking powder biscuits; press the dough into shape and roll lightly. Cut in small shapes and bake on a sheet or very shallow pan in a hot oven. In placing biscuits in the pans place well apart, not allowing edges to touch. Small biscuits are better than large ones. Large biscuits do not have the proper amount of time to raise and bake.

Have you seen the new K C Cook's Book? Brimful of appetizing recipes that simply must be successful every time! The few simple directions are carefully followed. You would gladly pay 50 cents for this valuable book, yet we send it absolutely free upon receipt of the colored certificate packed in every 25-cent can of K C Baking Powder. JAMES MFG. CO., Chicago. Small cans do not have Cook's Book certificates.

FORMER VALLEY CITY PEOPLE HAVE VERY PECULIAR EXPERIENCE

Under a Mandan date of March 29 appears the following concerning one of Valley City's early citizens, Dr. Henry W. Coe, the owner of the first newspaper published in Valley City—The Northern Pacific Times—now The Times-Record:

"Dr. and Mrs. H. W. Coe, recently divorced and were former residents of this place, recently figured in a peculiar situation in Washington. They have been residents of Portland, Ore. many years. In addition to his numerous other enterprises the doctor conducted a sanitarium and cared for the Alaska insane at so much per month. He went to Washington to bid on the contract again and won. One of his competitive bidders was his former wife, who was divorced a few months ago. Her bid was in her own name instead of that of a sanitarium and was not considered for that reason. During their stay each had a suite of rooms at the same hotel. Mrs. Coe became ill and sent for her former husband to prescribe for her. He looked after her till she recovered, escorted her to the depot, purchased a ticket for her to Portland, placed her on the train and remained over several days to close his contract."—Patriot.

FROM SATURDAY'S DAILY

SATURDAY, APRIL 4, 1914.

Wm. Schwehr of Cuba spent yesterday in town. Mr. Schwehr is one of the substantial farmers of the county and is making the final preparations to begin the spring work.

Supt. Minnie J. Nielson went to Eckelson this morning where she will visit the schools for the day.

Prof. J. B. Myers left this morning for Bismarck, where he will be for several days.

R. S. Henderson of Dazey is spending the day in the city attending to matters of business.

The White Bros. are shipping one of their fine horses to Mr. John W. Millions, who lives at Waskada, Man.

Eugene H. McFarland, architect of El Paso, Texas, arrived in the city this morning to spend a short vacation with his parents, Pres. and Mrs. Geo. A. McFarland.

Gus Anderson who is principal of schools at Bowman, arrived in the city last evening and spent a few hours between trains at his home here. He returned this morning.

Mr. and Mrs. J. H. Buckles of Duluth are Valley City callers in the city today on their way west.

Leah A. Shields of Rogers, A. Oglesby of Leal, Martin Conlon of Leal, and Chas. Pesek of Oriska are transacting business in the city this week.

Miss Emma Krebs of Jamestown was in Valley City yesterday between trains shopping at the various stores. She returned last evening.

Miss Alice Clarke, who is a teacher in the Dazey public school stopped off in Valley City and spent the evening visiting with Miss Madge Jacobs. She went west this morning to Buchanan where she will spend the Easter vacation.

Mrs. T. H. Thillmony of Oriska came down this morning and is spending the day shopping and visiting friends.

F. W. Buck and J. Lofteur of Fargo, and Thomas Comotly of Havre, Mont., are among the visitors in the city today. They are registered at the Kindred and Rudolf hotels.

The large tarantula, captured at the Stern Brothers' confectionery store a few days ago, has been turned over to Miss Laura L. Perrine, curator of the museum at the State Normal school here. The big "bug" has been placed in an alcohol bath and makes a valuable addition to the many specimens now on exhibition in the museum.

Sid Ellis has always been considered more or less of a Republican, having come from good old Michigan stock, where they raise Republicans, but the rumor that he has gone Democratic seems to be substantiated by his appearance on the streets yesterday driving a pair of Democratic emblems.

Ralph Bailey of Backus, Minn., arrived in Valley City, Thursday evening and will spend Easter vacation with his parents, Mr. and Mrs. Robert Bailey of Third avenue.

Among those registered at the Kindred yesterday from different parts of the state were: J. J. Larson of Dickinson, Frank Hall of Devils Lake, W. Irysh of Bismarck, W. W. McDermott and M. A. Aved of Fargo, J. F. Kennedy of Jamestown.

J. H. Nagel of Forbes is in town, called here by the serious illness of his mother. He reports business in Dickey county booming and himself and wife in excellent health. Mr. Nagel may remain over Sunday although he expected to return this evening when he arrived.

R. E. Akeley, G. H. Sheidt of Fargo, Will H. Wrighter of Woolworth, J. N. Lydon of Jamestown, C. B. Gardner of New Rockford, F. O. Oren and Sam P. Christianson of Bismarck, F. J. Story of Enderlin, Aug. A. Doener of Larimore and John Mihill of Kensal, were guests at the Rudolf yesterday.

Mis Lulu Gardiner, who for some time was employed in the office of the Valley City Grocery Co., was married last Saturday at her home in Claremont, Minn., to L. A. Wells, of Mankato, Minn. Mr. and Mrs. Wells left for an extended wedding trip to New York and other eastern points and on their return will be at home in Mankato.

The contract for the construction of the new federal building for Williston has been let according to word received from P. D. Norton. The new building will cost \$82,828.

C. A. Olson of the Valley City Furniture Co., was called to Cooperstown this morning to take care of the body of Oliver Larson, who died there this morning. The young man who died is the son of Albert Larson, a prominent merchant of that place.

The Sorosis club will meet next Monday afternoon at 3 o'clock at the home of Mrs. W. D. Jeffrey, on Eighth and Tracy avenues.

Hollister's Rocky Mountain Tea is nature's own tonic, purely vegetable. Its use is not followed by dehydrating after effects. Safe and sure, try it for debility, anaemia, poor appetite, spring tiredness. Tea or Tablets 25c. City Drug Co.

TO MARRY COUPLES FREE.

One of the New Social Plans of Trinity Church in Chicago.

Chicago.—Marriage ceremonies for which no fee will be accepted is one of the innovations which will be inaugurated at Trinity Episcopal church in case a fund of \$10,000 a year can be raised to make possible the extension of the church's activities.

"We wish to make historic Trinity something like the Little Church Around the Corner in New York," declared Andrew R. Sheriff, chairman of the campaign committee. "It is proposed to have a clergyman in attendance at all hours of the day and night to offer spiritual consolation, perform baptisms and marriage ceremonies and attend to the physical needs of the poor. An after midnight service on Sunday mornings for actors, newspaper people and those detained downtown late is also probable, while the social center work of the church will be greatly extended."

At one time Trinity church had eighteen multimillionaires as members of its congregation. Many of the wealthy members have moved away, making the task of maintaining the church a serious problem.

"SABLES" OF RABBIT SKINS.

America Sends Many Pelts to Paris Every Year.

Spokane, Wash.—Local postoffice employees who loaded and unloaded four wagon loads of rabbit pelts consigned to Paris believe they have discovered the source of some of the "sable" furs of the world's fashion center.

Homer Elwell, superintendent of the railway mails, was astonished not long ago when the postmaster at Chewelah wired him that sixty big mail pouches would be required to ship a consignment of rabbit skins to Paris. While Mr. Elwell considered the request a joke, he finally sent the pouches.

Railway mail clerks declared that they had been receiving small shipments of the pelts for several weeks.

The latest shipment is said to have been made by a Mr. Oppenheimer, a buyer. The parcel post rules provide dried pelts may be sent through the mails.

Insulated Wires.

To keep electricity in the wires, to prevent it from escaping, which it is always trying to do, the wires have to be banded up in some substance through which the electricity cannot penetrate. This is called insulation. A wire is said to be insulated when it is wrapped in nonconducting covers. Dry hair is the best material; next rank glass, mica, porcelain, rubber, lava, oils, silk, cotton, etc. The wires used about ordinary buildings are insulated with rubber, oils, varnish and dry cloth. Some of the smaller wires, for electric bells, etc., are merely covered with closely woven silk or cotton threads. The best known conductor of electricity is silver, but it is too costly to be used commercially. Copper ranks next and is generally used for electric wiring.—New York World.

"How are you getting on at your new place?" asked a lady of a girl whom she had recommended for a situation.

"Very well, thank you," answered the girl. "I'm glad to hear it," said the lady. "Your employer is a very nice person, and you cannot do too much for her."

"I don't mean to, ma'am," was the innocent reply.—London Answers.

Out of His Mouth.

His youngest grandchild had managed to get possession of a primer and was trying to eat it.

"Pardon me for taking the words out of your mouth, little one," said the professor, hastily interposing.—Chicago Tribune.

MIDSHIPMEN WILL TAKE UP DEBATING

Daniels' Suggestion to Be Carried Out by Captain Fullam.

Annapolis, Md.—Captain William F. Fullam, superintendent of the Naval Academy, has taken up the suggestion of the secretary of the navy that the midshipmen of the first class engage in debates on current subjects to improve their acquaintance with the news of the day and to increase their ability to think and talk on their feet. He has had several consultations with members of the department of English and other instructors and officers and will endeavor to fit something along this line into the already rather crowded curriculum of the first class.

The need for special training of the midshipmen along the lines of writing and speaking on the topics of the day has been recognized, and much has been done to further it. The practice of having the first class men respond to toasts was started more than a year ago by Captain Gibbons, then superintendent, and is carried on with much success. A period of an hour and a half or two hours is devoted to this every week, one midshipman acting as toastmaster, others responding to set toasts or making extemporaneous remarks on each occasion. In this way each member of the graduating class has the opportunity of speaking several times during the year. Members of the English department are always present as critics.

WHISTLE HYMNS IN CHURCH.

Boy Chorus of Fifty Helps to "Humanize" Service.

Philadelphia.—A chorus of fifty boys, after considerable training with no small amount of patience, whistled the hymn tunes in the services of the Calvary Reformed church here. The girls carried the hymn with their soprano voices, and the effect is said to have been rather startling.

Another innovation in the movement for "humanizing" such services was the "all girl" service in the same church preceding the whistling.

Unjoins Shoulder Twelve Times.

Philadelphia.—For the twelfth time within a year William Symonds, thirty years old, a driver, applied for treatment at a hospital suffering from a dislocated shoulder blade. Since the first injury the bone has dropped from its socket every time the victim gives his arm a slight wrench.

Besides his first child, Susanna, Shakespeare's only other children were a boy and a girl, twins, born in 1585. Susanna married a Dr. Hall, a Stratford physician, in 1607, was left a widow in 1635 and died in 1640. She had only one child, a daughter, who though twice married, left no children. Of the twins, the boy, named Hamnet, died at the age of eleven, and the girl, Judith, married Thomas Quincy and had three sons, who all died childless.

This is a Fact.

"When a man loves a girl in a novel he raves about her through forty chapters. In real life he never mentions her name."

"What's the application?"

"Merely that realism in a love story is not possible."—St. Louis Republic.

Its Kind.

"Why do you call that piano manufacturer's business an infant industry?"

"Because he manufactures baby grand pianos."—Baltimore American.

International Harvester Oil and Gas Engines

BUY an International Harvester engine, take care of it as any machine should be cared for and a dozen years or more from now it will still be working for you.

It will save you and your family endless hours of hard labor in pumping, sawing, grinding, spraying, running separator, etc.

Buy an I H C engine. They last longer, burn less fuel, are simpler, and give you most power. Here are a few of the reasons: Offset cylinder heads, large valves, accurately ground piston and rings, heavy drop forged crank shafts and connecting rods, etc. Best material and construction mean the best engine. I H C engines are built in all styles, and in all sizes from 1 to 50-H.P. They operate on low and high grade fuels.

Not every local dealer handles I H C engines. The one who does is a good man to know. If you do not know who he is, we will tell you when you write us for catalogues.
