SMITH ADMITS VIOLATING PROHIBITION LAW

Doing Wholesale Business for Week But Officers Got Him Yesterday "With the Goods"

HE WILL PLEAD GUILTY

WEDNESDAY, APRIL 29, 1914.

Joseph Smith admitted in Judge Moes' court this morning that he had sold 26 to 30 quarts of whiskey since last Thursday, when brought before Judge Moes this morning. He told an interesting story of shipping in wine from Moorhead, in quantities and pickin' up bottles in the allies and filling them and selling them to the thirsty underworld.

States' Attorney Engbert and other officers are making a rather vigorous campaign against the fellows who come here to sell booze and this particular case is a result of their watchfulness. Smith tells a story of having avoided arrest at other points by narrow margins. He will be taken before the district court soon and has stated that he will plead guilty.

FLY CAUSES DREADED INFANTILE PARALYSIS.

INFANTILE paralysis is one of the most baffling diseases the medical profession has to deal with. Although it is confined largely to children, it sometimes visits adults. Death often follows within a week after infection and sometimes in as little time as forty-eight hours. High fever, delirium and convulsions mark its presence.

The Rockefeller institute was founded in 1901 primarily to arrive at some preventive or curative agent to fight the plague. It has received since its establishment gifts from the oil magnate aggregating more than \$5,000,000. The institute grew out of the death of Jack McCormick, one of Mr. Rockefeller's grandchildren, who died of this awful disease. The child's death awakened within its grandparent the determination to use his wealth to disclose the hidden and mysterious causes of the disease.

JOHN FAUST DEAD.

Relatives here received the sad intelligence this morning that John Faust, formerly of this place had died at Missoula, Montana, at 1 o'clock this morning. The deceased formerly lived at Litchville and at Sanborn, going west about six years ago. The remains will be buried at Hobart, service to be at 3 o'clock Monday. Besides three brothers living here and a sister at Oakes, a wife and four children are left to mourn.

LINCOLN SCHOOL CIRCLE ENJOYS AFTERNOON

WEDNESDAY, APRIL 29, 1914.

A regular meeting of the Lincoln School circle met at the school house yesterday afternoon at 4 o'clock. After the business of the day was transacted a very interesting demonstration of dramatization of nursery rhyme was given by the children of the primary room. Next followed a paper by Mrs. Carmen on "How to Make the Home Attractive and Interesting to Our Boys and Girls," and an open discussion by all members. Later Miss Emma Ahlborn reported on her recent visit to Fargo to hear Helen Keller, the deaf, dumb and blind woman. Miss Keller through her marvelous intellect, has created a great deal of interest throughout the country, and it was an interesting treat to hear a report of her from Miss Ahlborn.

STITCHES IN TIME.

This is the season when the fly is meeting death dealing swats on every hand perhaps the following by Walt Mason may prove of interest in connection with the "fly swating" campaign that is being waged.

Had Father Noah been quite wise he would have killed the pair of flies that roosted in the ark; he let that pregnant duty slide while he and Shem and Japhet tried to navigate their bark. Two flies were all there were all told! And Noah might have knocked them cold with one good husky swat; he had the chance—he let it slip while he was mooning round his ship—the knowledge makes me hot! And ever since the sons of men have toiled and wrought and toiled again, to kill the measly flies; the more we kill the more we find, the more we knock the blamed things blind the more their legions rise. We're all, like Noah, more or less responsible for the distress that makes all hope seem vague; we see some ugly things alive and let them live and grow and thrive until they are plague. We gleefully view the noxious weeds, and habits bad, and evil deeds, which breed so beastly fast! We let them grow and multiply as Father Noah did the fly and kick our selves at last. "A stitch in time," the poet said (he had a long and shape head), "will save you nine, by gum." And nothing truer will you find in all the years that lie behind, or all the years to come.
