NORTH DAKOTA FAIR BUILDING IS DEDICATED

Exposition Grounds, San Francisco, Cal., March 16.—With simple but impressive ceremonies, North Dakota's handsome building at the Panama-Pacific International Exposition was dedicated this afternoon. Several hundred former residents of the great corn state assembled to hear the eloquent orators and speakers chosen for the occasion.

North Dakota Home

The official home of North Dakota situated at the edge of San Francisco bay, overlooking the Golden Gate, was in gala dress for the event. Before the official dedication hundreds of visitors inspected the building and viewed the distinctive exhibit of corn and other products of the state. The great "North Dakota Enlightening the World" came in for much favorable comment. This piece of work entirely made of different grains of corn gathered from every section of the corn state, stands 25 feet high and is placed in the lobby of the building.

Secretary Holbein

Shortly after 3 o'clock, Will E. Holbein, secretary of the North Dakota commission introduced Director A. W. Scott, the official representative of the exposition, to the audience. Director Scott, in a brief but sincere address, congratulated North Dakota on the beautiful building she had erected at the exposition and expressed a wish that the good feeling which had always existed between North Dakota and California would continue. In part he said:

Director Scott

"The importance of this exposition has been greatly aided by the assistance we have received from the other states of this country. North Dakota has done her share and has done it well. The states and nations of the earth have helped in making this the greatest exposition ever conceived by man.

"What they have done is only small compared to the brotherhood and sisterhood which exists between us all. In behalf of this exposition I welcome you to the official family and as a token of our esteem, I wish to give to the citizens of your great state this bronze plaque which is the gift of the president of this exposition and the directors."

Corbet Receives Plaque

Hon. Burke Corbet, a former resident of North Dakota, who is well known in San Francisco as one of her celebrated attorneys, received the plaque on behalf of the governor of North Dakota. Hon. Corbet spoke of the friendship between California and North Dakota and hoped that before this great exposition was over every citizen of his home state would visit the exposition and the North Dakota building.

Mayor Welcomes Visitors

Judge William Bailey Lamar, United States commissioner, on behalf of the government, thanked North Dakota for her participation. Chester H. Rowell represented Gov. Hiram W. Johnson, who was unable to be present. Mayor James Rolph Jr., of San Francisco welcomed all North Dakotans to San Francisco and as chief executive thanked them for having built such an attractive building. A music number by the exposition band concluded the formal ceremonies. Hundreds of visitors were decorated with attractive pennants bearing the name "North Dakota."

MRS. FROYSAA NOT ARRESTED AS SPY

A report recently circulated in Valley City that Mrs. Knute Froysaa was arrested as a spy while crossing from Germany to Norway, is entirely without foundation. Mrs. Froysaa lately visited Prof. Froysaa in Berlin, and on returning to Christiania was somewhat delayed at Fassinitz, finding out on arriving there that the boats had not been running for several days owing to a battle on the Baltic Sea, where the crossing was made into Norway. Here, while precaution was taken and transports examined, there was no further inconvenience or trouble, and the trip was resumed without further delay after a stop of one day at Fassinitz. Mrs. Froysaa expects to remain in Norway during the summer months, where she is studying music, and after spending a month or so in Berlin later in the season, she and Mr. Froysaa will return home about Sept. 1.

Mrs. Mary Yule, of Rogers, is visiting friends and relatives here. She will remain over Saturday and Sunday.

BRITISH SINK GERMAN SHIP

London, March 15.—The British admiralty announced tonight that the German cruiser Dresden had been sunk. The following statement was issued: "On the fourteenth of March, at nine in the morning, H. M. S. Glasgow, the auxiliary cruiser Orma, and H. M. S. Kent caught the Dresden near Juan Fernandez Island. She hauled down her colors and displayed the white flag when she was much damaged and set on fire. After burning some time the magazine exploded and she sank.

"The crew was saved, though fifteen of them were badly injured. The Germans are being landed at Valparaiso. There are no British casualties, and no damage to ships."

The Dresden was a member of the German squadron which was defeated by the British squadron off the Falkland Islands in December and was the only one of five warships to escape. It was a sister ship of the famous Emden, sunk off the Cocos Island in the Indian ocean.

The sinking of the Dresden leaves at large on the high seas, so far as known, only the cruiser Karlsruhe, last reported operating in the West Indies, and the auxiliary cruiser Kron Prinz Wilhelm, still raiding commerce in the South Atlantic.

Late in August the Dresden sank the British steamer Hyades off the coast of Brazil. It was a vessel of 3,600 tons and no match for the cruisers of the British in the battle off the Falkland Islands. Since the escape British and Japanese warships have searched persistently the waters of the south Pacific and south Atlantic. It carried a light armament comparatively. Its displacement was 321 men.
