Many ads. you find in the papers, are headed "Special for Saturday Only." This means they offer you special prices for one day out of six. We offer special prices six days in every week. If low prices are a benefit to the consumer one day in a week, we offer six times better than they offer, therefore give us the benefit, because we are the originators and adopted the plan first. On all offers made for Saturday only they demand cash, because the cash system is the only plan to reduce the cost of living, so if you buy from us you save six times as much as you do when you buy at reduced prices one day each week. We give you the best grades as well as the best prices.
