Valley City Ladies Back From Meeting

A very successful meeting of the executive board of the North Dakota Federation of Women's clubs closed Friday evening in Grand Forks. All of Friday's sessions were held at the spacious home of Mrs. F. L. McVey. At noon the visiting ladies were given a reception by the members of the Civic League of Grand Forks. They were also guests of the club at luncheon, which was beautifully served at the McVey residence. Addresses were given by a number of the heads of departments along their line of work. Miss Minnie C. Budlong, historian of Bismarck, will this year furnish plans along any line of work asked by individual clubs, instead of publishing a set plan of work as formerly. Mrs. J. E. Featherstone, of Valley City, Mrs. O. W. McCluskey of Carrington, Mrs. S. N. Putnam of New Rockford, and Mrs. F. J. Conklin of Bismarck were in Fargo, guests at the Waldorf Friday night, and left for their homes Saturday morning.

A Splendid Evening at Congregational Church

All who were brave enough to go out into the storm Sunday night in order to attend the Congregational church were amply repaid for their efforts. There was a small audience present compared with the usual number, but considering the storm, it was a goodly number. The choir rendered an anthem in their usual manner and Prof. Meyer pleased his hearers by singing "The Plains of Peace." Prof. Froysoa, to whom it is always a pleasure to listen, delighted the audience with a beautiful violin solo, "La Folia" by Corelli, a variation of an old sixteenth century air. His rendition was masterful and the audience sat rapt in attention while he played, especially through the cadenza, which was peculiarly beautiful. When Rev. Lyon began to read "The Guardian of the Gate" everybody realized that there was something interesting in store, and they were not disappointed. The "phantasy" was a story of a boy and his queries of the life inside the gate which were responded to by St. Peter in kindly manner, following the boy all through life and the final coming to the gate. The story itself gripped one's interest but the beauty of it was enhanced by the clear and intelligent manner in which it was read. Surely the service was worth a trip out into the storm, although the storm had abated somewhat. After the service the audience became guests in the social room where an hour was spent in social chat and getting acquainted, while the cheery fire in the grate lent a charm to the occasion. Light refreshments were served and a pleasant time enjoyed by all.

The Epworth M. E. church was filled Sunday morning with those who came out to hear the sermon addressed by Rev. C. E. Vermilya to the Masons of the city who were present in a body. A full report of the service will be given in tomorrow's issue.

Offensive of Teutonic Allies Is Under Way

London, Feb. 5.—The long looked for offensive of the Teutonic allies against Saloniki may be now on or near at hand. An Agency dispatch from Saloniki reports that an artillery duel has been in progress for two days at Doirlan, where strong forces of the central powers for some time have been facing the position of the entente allies. Such a bombardment might well be a prelude to an advance movement by the Teutons and their allies, which, according to recent reports from the Balkans, was set for about the middle of the present month, but which may even now be in progress. According to the dispatch through entente sources reporting the opening of the bombardment, the British heavy guns were dominating those of the Germans and Bulgarians opposing them. Elsewhere along the main line of the widespread war field few operations of importance have been recorded. On the Franco-Belgian front the French artillery continues its activity, the bombardment being intense in the Champagne and the Argonne. Berlin reports cases of sporadic activity by the infantry, one instance being south of LaBasse canal, where the British are declared to have been repulsed when one of the detachments attempted an advance. When south of Somme where the Germans made a gain only recently the French were beaten off in a hand grenade attack. In the Vosges the German guns have bombarded the French position. Along the lines where the Austrians and Italians are engaged the deadlock shows no signs of being broken. German reports declare that the Italians are worn out and discouraged by their failure to advance, and have recognized the impossibility of breaking the Austrian line. It is announced in Vienna that peace negotiations with the Montenegro cabinet ministers remaining in their city have not been begun by the Austrians and will not be started until the ministers are furnished unimpeachable credentials empowering them to conclude binding peace.

Has Used Chamberlain's Cough Remedy for 20 Years.

Chamberlain's Cough Remedy has been used in my household for the past twenty years. I began giving it to my children when they were small. As a quick relief for croup, whooping cough, and ordinary colds, it has no equal. Being free from opium and other harmful drugs, I never felt afraid to give it to the children. I have recommended it to a large number of friends and neighbors, who have used it and speak highly of it," writes Mrs. Mary Minke, Shortsville, N. Y. Obtainable everywhere. Lee Combs, Jr., the ten year old son of Mr. and Mrs. Lee Combs, underwent a successful operation for appendicitis on last Friday. It was a very complicated and very serious case and they are rejoicing that it was so successful. A rapid recovery is hoped for by the many friends of the family. Oh, la grippe! What absences from the office have been enjoyed in thy name!

The high school basket ball team journeyed up to Cooperstown Saturday for a game with the high school team of that city. The game resulted in a victory for Cooperstown by a score of 11 to 31. While out boys lost the game it is not so much of a discredit to them as they were playing a much more experienced team and they had had but little practice before the game.
