Adjutant General's Office, Bismarck,
June 19th, 1916.

1. In accordance with the proclamation of the President of United States, dated the 18th day of June, 1916, calling forth, under the constitution and laws of the United States, the organized militia of the state, to be employed in the service of the United States, the members of said organized militia, except as hereinafter prescribed, will assemble at their respective home stations at 9 o'clock, on June 19, 1916, preparatory to their muster into the service of the United States at a later date. Full field equipment will be issued each man. Officers and enlisted men will habitually wear uniform.

After the various companies are efficiently drilled and equipped it will be consolidated into a regiment and may be ordered to the border for duty. Freight Wreck on High Line on Sunday Morning

Sunday morning at 8:45 a disastrous freight train wreck occurred on the N. P. high line two miles west of this city. A long freight train, east bound with two engines, was rounding a curve when evidently the rails spread and the two large engines, Nos. 1900 and 1904, went into the ditch. Two ancient box cars were smashed up, while two refrigerator cars on either side were practically unharmed. The train was in charge of Conductor Burr, and the engines were driven by Ed. Seeberg and Ed. Stearns. The engines and firemen escaped by jumping. The tender of one engine was thrown against the supports of the wagon bridge over the track at the point where the wreck occurred, and it is a wonder it did not wreck the bridge.

All members of the Valley City lodge No. 1110, B. P. O. E., who returned from Dickinson Sunday morning, report one of the best and liveliest annual conventions it had been their luck to attend. Some of the busiest members missed the special train and strayed in later on regulars.

The entertainment provided for the guests was all that could be desired, and some of the special features, such as broncho busting, riding, roping and tying wild steers was the best ever witnessed. The prizes for this part of the program amounted to nearly \$3,000, and brought into the contests the best talent in the West.

The street lighting and decorations conformed to the color scheme of purple and the national colors of red, white and blue throughout the city. Everything movable and stationary was decorated, and the effect was one of glad show.

Bismarck won the beauty contest, and Jamestown carried off the honors in point of numbers.

Glendive, Mont., sent a special train that cost \$1,000 to decorate, and their bunch had a string of stunts that furnished something doing all the time.

Dickinson proved a worthy and hospitable host, and deserves all the praise that every delegation will freely accord.
