Prof. B. A. Wallace and family, who have been much respected residents of this city for a number of years, expect to leave tomorrow for Minneapolis where they will reside. Prof. Wallace having accepted a position at the University of Minnesota. The Wallace family will be missed in Valley City. They have been earnest workers in the social and religious life of the community, and during their residence have won for themselves many warm friends who regret very much to see them leave us but who will join with the Times-Record in wishing them abundance of success in their new surroundings. The Normal school also loses one of the best members of its faculty in the departure of Prof. Wallace.

A poor unfortunate insane man was brought into the city last night from the Soo line and was taken to the insane hospital at Jamestown. He was a heart rending specimen of humanity. His hands had been frozen off to the knuckle joints some time ago and he was certainly a pitiable object. His insanity was caused by the war. He wanted to lick the kaiser and said that if he could only get to Berlin and at the kaiser he would stick his stumpy hands in his eyes. This may seem funny to some people, but it does not to us. This poor man is only one of thousands whose reason has been taken away from them through this terrible war and perhaps many others will go the same way before the great struggle is over.

Messrs. Oscar Aldahl and Damon, a traveling man friend of Mr. Aldahl, returned home late last night from a hunting trip up around the Missouri river bottoms near Bismarck. They had a good hunt but met with a little hard luck coming home, breaking an axel on the car. We sympathize with them on the bad luck they had but rejoice with them on the good luck in hunting—which resulted in a couple of fine prairie chickens finding their way over to the editor's home for which the gentlemen have our thanks.

S. Tort, of Des Moines, has been in the city the past day or two and has been stopping at the Valley Hotel. Mr. Tort is employing his time in selling plaster of Paris statues of Abraham Lincoln, Belva Lockwood and a few other choice celebrities. We don't know much about it but in these war times we are inclined to think the gentleman is engaged in a non-essential occupation besides selling things that are not needed in these times.

Every mother and father who have sons in the army should attend the big meeting to be held in the Congregational church this Sunday evening at 8 o'clock. Mrs. Frank White will speak on "Welfare Work for Our Men and Boys in the Camps and Cantonnments." Mrs. White has had wonderful opportunities for getting in touch with the work and has herself had first hand experiences in the work. The choir will have special music.

"Efforts are being made to provide a low rate for the shipment of straw to districts where needed, and for this reason farmers in the eastern part of the state who will have a surplus and who, due to the excellent crop, are not possibly in need of the small financial return that the sale of straw generally brings, are urged not to illuminate the night with hundreds of bon-

fire straw piles but to save them so as to have a reserve for themselves and for the farmers in the western part of the state."

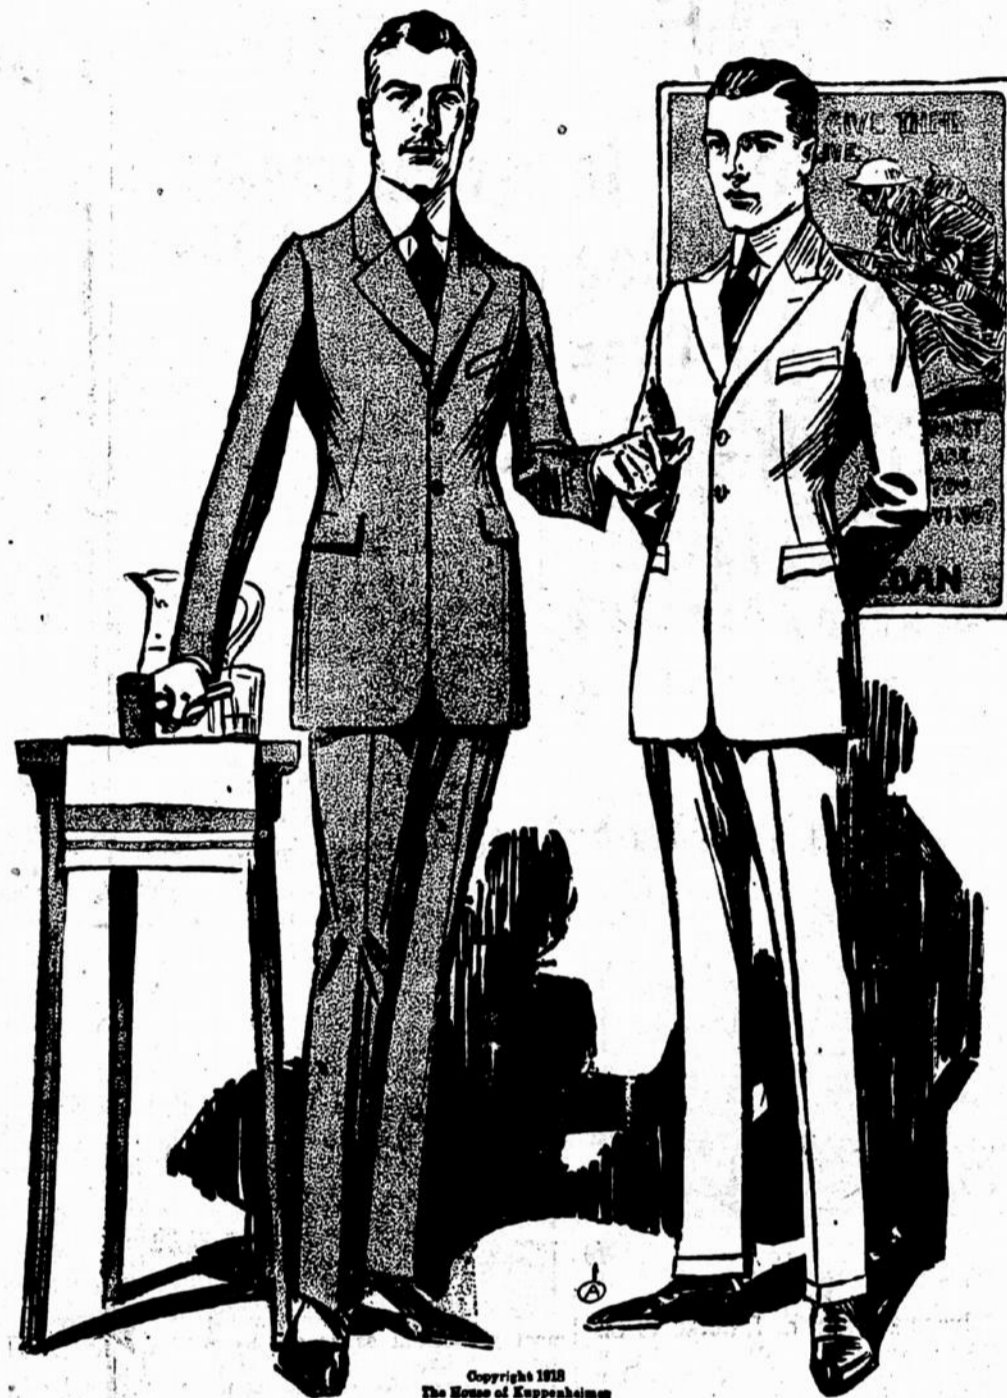

An innovation for securing money for the Red Cross is to be introduced at the Grand Theater on Monday next. Through the courtesy of Manager Robinson, a plan is to be put into effect which has proven very successful in other cities. As all theater-goers know, a few extra pennies are always given as change when a ticket is bought. Beginning next Monday members of the Auxiliary Guild of the Congregational church, who officially represent the Red Cross organization of Valley City, will be on hand to collect these extra pennies for the Red Cross. The Red Cross needs those pennies. Won't you help by giving yours? The money will be

deposited in the bank and each month the chairman of this committee will publish a statement of the receipts of this gratuitous offering so that all may know the exact amount turned into the local branch of the Red Cross Chapter from this source.

## P. E. O'S HAVE A GOOD TIME

The P. E. O. Sisterhood was entertained at the hospitable home of Mrs. Frank Heimes Monday night and the gathering is said to have been one of the most interesting as well as enjoyable meetings of that organization ever held. The event was given in honor of Mrs. L. B. McMullen who

leaves this week for Indiana. The guests assembled at 6:30 and all were in costume and the outfits were varied and most original. Mrs. Wylie Nielson, as band master, led the festivities, and she carried out the character so well and her technique and finish as a musician won the admiration of the assembled sisters and she was unanimously voted prize winner of the evening. A delightful chicken dinner was served by Mrs. Heimes and at this there did not seem to be any one better than the other—they all did justice to that feed with equal qualifications. Following the dinner a short business session was held. The color scheme was yellow and white. The gathering was indeed a pleasant one and one that will long be remembered by the guest of honor.

## The Boys Have "Come Through" -----Have You?

The boys have "come through," as Americans always do, at the Marne, Chateau Thierry, Seicheprey and St. Mihiel.

They are doing their part--the hardest part—and now again we have the privilege of doing ours, puny in comparison, by subscribing to the Fourth Liberty Loan.

Make every dollar you can possibly spare a fighting dollar—lend your money to the Government to wage humanity's greatest crusade.

The more tanks, artillery, airplanes and munitions we have, the less will be the toll of American blood—your money will help supply these. Knowing this, can you conscientiously hold back from subscribing for Liberty Bonds to your fullest capacity? It's your turn to "come through."
