The 36th annual ball of Company G First North Dakota infantry, given in the High School gymnasium Tuesday evening was a big success. The ball proved as successful, if not more so than any of the previous 35 balls given by the Company. The ball this year was under the auspices of the Edgar A. Fisher Post of the American Legion, to whom considerable credit is due for the success of the affair. About 120 couples were present. Delicious refreshments were served at 12 o'clock. Many of the ex-service men were attired in uniforms.

Professor Charles Correll, head of the department of history at Fargo college, will preside at the North Dakota state oratorical contest to be held in the Presbyterian church at Fargo Feb. 25 according to an announcement. Truby, superintendent, Lidgerwood; Professor W. M. Wettest, Valley City normal; D. S. Ritchie, attorney, Valley City; Judge M. J. Englert, Valley City.

Jackie Coogan, that delightful youngster, registers so convincingly that many will acclaim him the real star of the play. The little fellow's scenes are certainly surefire. Of considerable pictorial importance is Miss Edna Purviance, who is exceedingly beautiful. It is probably the finest work of her career. The public will in turn laugh and weep and as the final is flashed on the screen they will regret that the picture is ended—which to our mind is just about the acid test of a great picture. Chaplin returns to the screen in his greatest picture great as a comedy and great as a drama. In it he is a master of dramatic as well as comedy situations. "The Kid" hits the bullseye as a box-office attraction.—Exhibitor's Herald

These application blanks are for your ask at all banks in the city, the sheriff's office and the police station.

Rev. Thos. E. Nugent in the Congregational church last night preached a real practical sermon on the subject "Christianity and the modern home." It might be called a pessimistic sermon looking at it from the viewpoint of the young man or woman who has been looking forward to the time when they would take the matrimonial step without any thought of what it meant financially or otherwise. Mr. Nugent went on to cite the importance of having money enough to start up housekeeping with—it takes many times more money now than it did a few years ago—and the main thought he wished to convey in his excellent sermon was that the bringing of the children in a christian atmosphere was the real keystone of the world's christianity. That without christianity in the world it would not be a very good place in which to live.

The Eureka College team of Eureka, South Dakota, has arrived in the city and will clash with the Valley City Normal basketball team this evening at the Normal gymnasium. This is the second South Dakota team that the Normal has taken on this year, and the Eureka team promises to be as strong as the Wesleyan team which ave the Normal a run for their money a short time ago. The Eureka team is as fine a bunch of young fellows as the Wesleyan team and a spirited game is promised for this evening

Somebody sent the editor of the Picket Gazette a few bottles of home brew. The same day he received for publication a wedding announcement and a notice of an action sale. Here are the results: "Wm. Smith and Miss Lucy Anderson were disposed of at public auction at my farm one mile east of a beautiful cluster of roses on her breast and two white calves, before a background of farm implements too numerous to mention in the presence of about seventy guests, including two milk cows, six mules and one bob sled. Rev. Jackson tied the nuptial knot with 200 feet of hay rope and the bridal couple left on one good John Deere gang plow for an extended trip with terms to suit purchaser. It was a fine meeting, and enjoyed by all.

Valley City basketball fans will have the chance to see another pitched battle between teams representing North and South Dakota next Monday night. After defeating the Wesleyan University team last Thursday night the Normal team will Monday meet the Eureka College team of Eureka, South Dakota. This team has lost but one game this season we are told and are a clever, fast combination. The game will be played in the Normal gymnasium and in spite of the long distance which the team has to come the prices will be held to the regular popular level. It is rumored that this Dakota aggregation has a new style of play that may prove the means of interrupting the Normal team's unbroken string of victories.

The big "Change of Ownership" sale of the Marblestone Company the company which recently purchased the C. C. Chaffee business opened yesterday morning and within a few minutes the store was crowded with shoppers eager to take advantage of the special bargains offered by the new company. The store was crowded all day long, and the management reports the merchandise moving very rapidly although hundreds of bargains are still offered to the buying public. The sale is still continuing today, with a crowd equalling that of yesterday many country people being in today to take advantage of the big bargains. Several shoppers from outside towns were in the city yesterday and more are expected today. The sale is perhaps the largest of its kind ever staged in the city.

S. Marblestone, of Taylorville, Ill., who has lately acquired an interest in the Marblestone Co., successors to C. C. Chaffee, speaking to a Times-Record representative this morning, said that he thought Valley City and Barnes county had a bright future. He thought that with our city heating plant, electric light and water plant, city gas, and all these modern improvements that go to making an up-to-date city should be augmented by the size of this should be as backward about this paving question. Mr. Marblestone thinks North Dakota is a great state and when the credit of the state has been re-established and this political mixup cleared away he sees no reason why prosperity should not be the portion of those living in North Dakota. The gentleman himself has faith in Valley City and North Dakota to make heavy investments so that his opinion is backed by his capital.

Judge I. J. Moe held court in the courthouse yesterday afternoon to sit as a magistrate in an assault and battery case from Nome in which M. H. Wilberg, an old time farmer was the plaintiff and Cashier Bye of the First State Bank of Nome was defendant. It was a jury trial and after being out six hours the jury failed to reach a verdict and was discharged. The case grew out of politics in a way, according to the evidence. Mr. Bye at a school meeting made the statement or words to that effect that the bank officials were crooks and Mr. Wilberg is said to have made the statement that there were other crooked bankers in the state and Mr. Bye made it a personal application and called Wilberg into the bank and took him to task and during this interview some sort of trouble arose out of which Mr. Wilberg was badly pounded up in the face. Mr. Moultrie says that they have 750 children to feed, clothe, cure and educate, which is no small task, and that the Eldorado of their dreams is to get to America sometime. Mr. Moultrie says that he plans to start back about June first, Mrs. Moultrie staying until October, as it is impossible for both to get away at the same time, and that he will visit England for a couple of months, arriving in the United States about the middle of August, but has no idea as to when he will be at home in Valley City, but hopes to reach there for a visit later on. Brother Moultrie wishes to be remembered to his many friends.

SHOWS LOYALTY TO NORMAL SCHOOL

Reverend C. W. Finwall addressed students and faculty briefly in Thursday's chapel exercises. Until recently he has been an official in the Law Enforcement League of North Dakota. The speaker knew of the keen interest which abounds among the students in regard to legislative appropriations for V. C. N. during the next biennium. He said it was encouraging to know that the head of the senate appropriations committee is a warm friend of the Institution.

There are 53 counties in North Dakota divided into legislative districts. Each district has a representative in the Senate and from one to four in the House. The appropriation committee in the House and the appropriation committee in the Senate determine the appropriations of this institution. It has been understood that this institution needs more than \$300,000 for its maintenance and provision made for another building and to keep the school in good repair.

Mr. Finwall declared he was anxious to see a good school of this kind maintained in a high fashion. The purpose of the institution is to put out good teachers and we should have good teachers in the public schools. From his observation in those schools he has visited he said that if teachers are well trained, and are neat, accurate, hearty in their work, and who emphasize work above play they are the kind of teachers who mold right standards and ideals in their pupils.

Citizenship is something worth while. The three elements of good citizenship which are essential are the home, the school, and the church. Clean homes, good clean schools, and the advisability of "hooking up" with the church of one's choice are factors which make for sound citizenship. This State Normal School is North Dakota's oldest and largest and best located Normal Schools. His assertions as given throughout the speech gave evidence that Mr. Finwall believes the appropriations are necessary and should not be delayed, as it is not only the right step in economy but an intelligent investment to have the appropriations assigned. The interesting tonic of the talk together with his enthusiastic manner won the interest and appreciation of everyone who heard him.
