According to students of the sky, the night of June 26 is to be a rip snorter on this planet of ours. It is said that the world may be burned up, or less worse, there may be a tremendous display of fireworks. There is said to be a comet headed toward the earth, named Posas-Winnecke, which is said to have a vicious disposition, and "slings a mean tail." Said comet is said to be rushing toward the inhabitants of this piece of earth at the rate of many thousand miles per minute. If the head of the comet strikes the earth, according to astronomers, we won't know much about it. If the tip of the comet's tail brushes the earth, it will be the biggest display of fireworks since July 4, 1776, they say. "Don't lose any sleep," however, is the comforting words from the sky students.

OBITUARY

Funeral services of Mrs. I. M. Carlton were held from the Congregational church, Oriska, Sunday, afternoon, April 24.

Vera E. Huntley, Carlton, was born at North Branch, Isanti county, Minnesota, March 17, 1873. She was well known as a teacher in her home county. Desiring a larger opportunity for helpfulness she took a nurse's course at Asbury Hospital, Minneapolis, graduating in 1898 and began her chosen life's work at Valley City, N. D. As a nurse she was highly successful, winning many friends by her untiring devotion to her patients. She was a conscientious christian attending faithfully and well to every duty.

She was married at Rush City, Minn., Nov. 16, 1910, to Merrill Carlton of Oriska, N. D. Since then her home has been on the Carlton farm northwest of Oriska.

For some time she has been frail and on Thursday evening the end came suddenly. She is survived by her husband and a daughter Edith, aged seven; also a sister, Mrs. Emir Stewart, Portland, Oregon, a brother E. W. Huntley, of Rush City, Minn., and a sister, Joanna Huntley of Oriska, N. D.

V. C. N. HAS LIGHT AVIATION TRUCK

The State Normal School has received what is known as a light aviation truck, a G. M. C. three-fourths ton vehicle. This motor truck was obtained through the North Dakota State Highway Commission. It is a wholly new truck, in excellent condition, and will serve the institution admirably in a multitude of ways.

Last Monday Secretary C. A. Lee and L. D. Rhoades went to Fargo where the truck was held in storage and during the day made it ready to drive back to Valley City. The skilled mechanics left Fargo Tuesday afternoon and drove the "creature" here in four hours without any trouble of any kind. It was taken to the Normal School farm. Mr. Rhoades was the official driver on its initial trip to Valley City. These motors are splendidly equipped in every particular because they were made for the government for shipping to France during the World War. The armistice stopped their shipment. It appears to be the policy to effect their distribution among institutions of one kind or another and the institution here in Valley City was selected as one of the recipients.

BASKETBALL PHOTO GIVEN TO SCHOOL

Much interest has been shown in the picture of our basketball team which is hanging in the main hall near the Museum door. This picture was presented to the school by the Men's Brotherhood of the Congregational Church of Valley City. The team with Mr. Spalding and Dr. C. E. Allen were invited to a church supper after which the picture was presented to Dr. Allen. President Allen gave it to Mr. Spalding who placed it in the hands of Captain Gunderson. The presentation of the picture was a complete surprise to those concerned. It is certainly, in every way, a very fine picture and the school appreciates very much this visible evidence of the work of its team in basketball this year. The artistic work on the picture was done by Mr. Eugene McFarland. Dr. F. L. Wicks was active in originating and promoting the idea of a picture of the boys. M. W.
