The board of education is advertising for bids for enlarging the boiler house of the local public schools. Certain alterations and changes will be made in the boilers. This is made necessary because of the fact that the city power plant has refused to promise the school that they would furnish heat for the school next winter, as they claim the load now being carried is too heavy. The boilers were working last winter, but were not any too strong for the strain which they were under. The new High School is connected up for the city heat, but being out on the line of customers that the city would furnish heat to the city officials believe that they would not be able to give satisfactory service.

Miss Mary Messer, daughter of Mr. and Mrs. W. H. Messer of this city has recently written a pageant, which will be presented in the Miles City, Montana, school on June 2. The press in speaking of the pageant says: "The first scene is allegorical, and shows the spirit of Montana sleeping, and is gently awakened by the events of transpiring following the passage of the famous Lewis and Clark expedition. The next scene shows the spirit of Montana weaving her history on the loom of time, as it passes in review. Primitive Indian homes, the coming of the missionaries, the first settlers the steamer Josephine, which plied the Yellowstone as far west as Pompeii's Pillar, with the vigilantes, and the Masonic funeral of Custer's fight at the Little Big Horn, the coming of the railroad into Miles City, down to the present day with its passing of the buffalo, ranching, the oil excitement and education." A more thorough description is given of the pageant by the Miles City press, which will no doubt be very pretty, doing much credit to Miss Messer's talent.

At the jubilee exercises at the Normal school the other evening a sort of history was given of the institution and mention of the early boards of trustees of the institution, but mention of the first board was entirely omitted for some reason or other. Emerson, of this city, who was president of the board, J. H. Whitcher, Major M. Cushing, who was the secretary, and a Mr. Mallory, of Grand Forks. This was in 1890. School was held for a month in the old high school building, which is now the

Fifth Avenue Hotel, then it was taken down to the McConnell building and after that to the building now occupied by the Sheyenne Bottling Works. These facts should have been given at the jubilee celebration but evidently were overlooked.

Next week Valley City is to entertain the state G. A. R. and it will probably be the last time that this body of old veterans will ever assemble in state convention in this city. What we want to suggest at this time is that the merchants and citizens of the city pay homage to these old soldiers by decorating their stores and residences to their fullest capacity. Let us all display the national colors and thus help to make the visit of the old soldiers indeed welcome. Valley City should do itself proud next week in entertaining the veterans and give to them just as good a time as it is possible to give them.

You know J. J. Earley, Walt Coop and J. J. Grest have become golf cranks—that is they would much rather play golf than do anything else so that while at Shoreham recently they got into this sport that seems to be getting into the system of many of the men folks. Mr. Coop distinguished himself by making a 165 yard drive in two shots whereas it usually takes an expert to do this trick in three shots. For this purpose there has been established a Bureau of Information on the ground floor of the post office department building, located on Pennsylvania Avenue at Twelfth Street, which is in charge of competent people who will definitely answer queries of this character. On Friday, June 3rd there is to be the annual banquet and dance of the Valley City High school.
