Barney Sullivan and his right hand man, Mr. Scott, have worked out a scheme that will be of great value to the hunters. All hunters are aware of the fact that when they go in the slough after a duck they get stuck in the mud and the result in most cases is the boots stick in the mud while the foot comes out. This is due to the fact that the strap around the ankle of the boot is made of fabric that will not stretch and therefore cannot be pulled up tight. Our two well known tire men have taken upon themselves to take the place of these fabric straps. The rubber ones can be tightened without making the ankle uncomfortable. They have started the manufacture of these straps this morning and any good hunter who wishes a pair of the straps can obtain them by calling at the Sullivan Tire Hospital.

Many of the cars went early this morning before the rain.

Another down pour of rain this morning which started about six thirty, will stop the threshing again in this part of the country for some time. It looks like an all day rain and a few of the old timers say they wouldn't be a bit surprised if it would turn into one of those old time rains that used to last three weeks at a time. The farmer's wheat will be starting to grow over again if they don't get it of the fields soon. Those who have threshed are considering themselves very fortunate.

He urges the holding of patriotic meetings, school exercises, and any other means of acquainting the people more fully with the basic law of the land. The prevalence of burglary seems to indicate that there must be a number of undesirable gentry loose in this vicinity. Besides the account in today's paper about the attempted entrance into a local store Saturday evening, we find in the Nome Tribune that they are having trouble of the same kind. Brorby & Bye's clothing store was the point of attack, but they only got a few articles. Sheriff Larson was called down to help trace the thieves. The Tribune makes a good suggestion, that a night watchman be employed on the roads. Very good if the watchman can be equipped with a motorcycle.

Some unidentified roughneck started the first rough stuff of the campaign last night. Coming down the steps at the City Hall where the Lemke meeting was in progress, he heard a newsboy crying the Fargo Forum. He went up to the lad, struck his papers out of his hand, and nearly upset the little chap. This was too much for one of our good citizens who stood near, and he started to even things up with the roughneck, but the latter evidently didn't relish meeting somebody near his size, so he took to his heels, and when last seen was a block away and still running. That's the way to make friends for your cause, all right.

William Lemke, in his speech last night, got slightly mixed in one reference to local people. He said in his talk that he lived in a house no better than that occupied by Senator Ploybar whom he saw in his audience. Reminds us of the college student who wrote in his examination paper that the lobster is a red fish that walks backwards. The professor who corrected the paper wrote at the bottom, "This answer is all right, with the exception that the lobster is not a fish, is not red, and does not walk backwards."

Valley City club workers will be interested in the following clipping from the Nome Tribune of recent date regarding women's club activities there. Having heard that the county executive committee of the women's league was to be present people came with great expectations; and indeed they were not disappointed. Then too we had the honor of having with us the state vice president of women's clubs, Mrs. C. A. Fisher of Valley City. Those who know Mrs. Fisher know why she is one of the women most sought as speaker at our gatherings. May she long be spared. Mrs. R. C. McGee, who represented the Valley City club, extended greetings and spoke on "Possibilities of building up club libraries." Mrs. McGee gave much helpful information as to how this might be done.
