Mr. Dobson is much pleased with his new job and likes the Magic City which he thinks is about the liveliest town in the state.

Marshal Foch, the greatest general of the lot, will be at Bismarck Sunday morning for about an hour and a half. Bismarck is making great preparations to entertain him and we presume many from Valley City will go to the capital to get a glimpse of the man who was the greatest of all strategists in the world war. The marshal is getting some great ovations in the big cities of the country. Tomorrow Minneapolis will give him a gala time.

Notwithstanding that J. W. Brinton marked up the profile of the editor of the Courier-News some time ago, he was declared not guilty the other day in court on a charge of assault and battery. The editor had refused to retract some false statements made against Brinton in the two of them got into a fist fight. The jury evidently figured that if the editor would not give Job a square deal in the paper he did not get any more than he had coming to him.

Thanksgiving day was a beautiful day for this part of the country or any other. It was moderate and sunny and in most places there was sunshine in the hearts of the people. There were many family parties yesterday, while others who could not have family gatherings dined with friends or availed themselves of the opportunity to get a Thanksgiving dinner at the hotels.

The firemen's ball held in the High School Gym Thanksgiving eve, was another great success from every point of view. There were about 150 couples present, the music was fine and those who enjoy dancing had a wonderfully good time. This was the twenty-sixth annual ball of the firemen of this city and as is always the case, it is one of the big events of the season. The firemen are pleased at the response of the people of Valley City to their annual blowout.

Trains have been stalled in twenty feet of snow close to Portland, Oregon, in the past few days and it has required big snow plows to go and dig the trains out of the snow. This is unusual out in this part of the country but there is something unusual happening all the time somewhere. In North Dakota, while the weather has been snappy, we have had no such troubles as that recorded at Cook

Oregon, where these trains were snow-bound.

The election headings used on the front page of the Times-Record at the time the independents won out at the recall election, seem to have made a hit in many quarters. Nearly every day we get a call for a Times-Record with those headings in it, and the other day we saw the same headings quoted in a paper on the Pacific Coast. It would seem that the daily paper is read at long distances as well as at home.

Mrs. W. T. Craswell leaves this afternoon on train No. 2 for Albuquerque, New Mexico, where she will spend the winter months, returning here perhaps about May first. Mrs. Craswell is feeling fine and is going to spend the winter in this milder climate in order that there will be no question about a permanent cure for her ailment. Her many friends hope that when she returns here next spring she will be absolutely cured of any ailment for which she had been treating.

Some time ago we mentioned that the state motor department sent us a statement that we had not paid our automobile license fee when we not only had the tags but the receipts for the money. W. T. Craswell tells us that the school board received a notice dated at Bismarck November 21, from the fire and tornado department asking the board to pay \$560.34 for insurance on the schools buildings. This amount had been paid to the state on July 16 by order No. 10566. The question is: who got this money and what has become of it. We should have recalled a few more officials, we guess.

Dr. J. A. H. Winslow, of Cooperstown, N. D., well known to a great many people here, is dead. Dr. Winslow was the victim of diabetes which he had been fighting for years, but it finally took him away. Many friends in Valley City and Barnes county will regret to hear of his passing away. He has always been a lively participant in our county fairs and in stock exhibits. He was one of the best auctioneers and veterinarians in the state. The wife, who is left to mourn the loss of this husband, has herself been unto death's door for weeks, and this shock it is expected may bring about worse conditions for her. They have two daughters, one 20 and one 16. As a former neighbor and friend of the Times-Record editor we are indeed sorry to learn of the passing away of Dr. Winslow.

In the case at the court house yesterday of Mrs. A. E. Lane vs. J. W. Aldrich, the jury returned a verdict in favor of Mrs. Lane. Station Agent J. J. Chamberlain has received instructions not to sell tickets over certain railroads out west, particularly the S. P. and S. on account of washouts and snow. At Butte, Mont., the schools have had to shut down on account of two feet of snow on the level. Out here in the banana belt we have not enough snow to cover the ground. We should not complain taking all things into consideration.

A city fireman was passing by a house, in front of which sat several boys, with their eyes closed and their chairs tilted back against the house. He stopped and as none of the boys opened their eyes to look at him, he made a noise to attract their attention, when one boy opened his eyes, he said "what is the game kid," the answer was "we are playing firemen," and he appeared to doze off again. Valley City firemen are never caught napping, in fact some of our citizens have asked members of the department if they ever sleep. The boys, however, find some of our citizens asleep, when they are out selling tickets for the ball, at least they do not respond. Remember the firemen's ball at the High School Gym tonight. If you haven't bought a ticket and wish to buy one, you can secure it at the door.

The city has taken up the skating rink problem with the Teachers College and an agreement has been made to keep up a rink during the winter months. Several students from the college and a couple of men hired by the city were on the ice the first of the week cleaning it off. Skating is one of the best out of doors sports for exercise there is and the physical education classes at the college can use the rink to a good advantage.

Besides the husband are left three sons, James, of Sanborn, Andrew, of Spiritwood, and Daniel of Philadelphia, and three daughters, Mrs. Frank Gray, of Oswego, Mont., and Mrs. R. H. Reed, of Courtenay. Many friends of the Brimer family in Valley City deeply sympathize with them on the loss of wife and mother.

An event of unusual interest which was not reported the first of the week was the meeting of the Home Economics club at the home of Mrs. Frank Heimes Monday evening, November 21. This being Thanksgiving, the ladies responded to roll call with Thanksgiving menus. These menus were all very appropriate and gave a good deal of varieties. After roll call the hostess gave a splendid demonstration of making fruit cake. Due to the length of time it requires to bake this cake the guests did not have an opportunity to sample it but the lunch that was served later in the evening left nothing to be desired - not even fruit cake. The members of the club brought silk scraps which are being collected to send to the inmates in the hospital for the insane at Jamestown. The next meeting of the club will be with Mrs. M. P. Krogh December 5.

THE NEWSPAPER MAN

The following clipping taken from an exchange gives one person's version of a newspaper man. We very blushing submit same to our readers:

(Contributed)

He seldom is handsome or natty, And has none of the charms of the dude; Is more often abstracted than chatty And sometimes unbearably rude. He courts us, then slights us and grieves us, As much as he possibly can; He kisses us, loves us and leaves us, This perfidious newspaper man. Our mothers won't have him come calling, He's no earthly good as a catch; His morals (they say) are appalling; His finances usually match. He's rollicking, reckless, uncaring, Living but for the hour, the day; He's dangerous, dubious, daring, Not fit for a husband, they say. But somehow we girls are forgiving, Perhaps he but needs us the more. Because he goes wrong in the living, And knows the old world to the core. So we pass by the dude and the schemer, Who lead in society's van; And cherish the thinker and dreamer, Enshrined in the Newspaper Man.
