COLORED MEN SHOT AUSTRIAN LABORER

May be Fatally Injured, Bullet Entering His Abdomen.

Waipeton, N. D., Sept. 4.—There was an attempted holdup and shooting in the woods near the stockyard at Ledgeswood in which an Austrian laborer was shot through the abdomen by some colored men, claiming Minneapolis as their home.

At the time of the attack, Frank Kullik, an Austrian laborer who could speak but little English, together with some companions, were camping in the woods near the stockyard at Ledgeswood, awaiting employment. They were lying down when two colored men approached them and commanded them to rise. Kullik was a little slow about obeying, probably because he did not at first realize the gravity of his situation, or because he did not understand the command.

A third colored man, who seems to have been a companion of the two charged with the shooting, remained at Ledgeswood. Kullik was taken into custody and he, too, was brought to the county jail, and is held as a possible accomplice, or it may be only as a witness.

Laborer Tried to Secure More Money Than He Could.

Jamestown, N. D., Sept. 4.—One of the laborers at the John F. Henderson farm near the city made a crude attempt to raise his time ticket. He entered the White & Henderson store to cash his ticket, issued by the foreman of the farm in direct violation of Walker. Mr. Walker remarked that the ticket looked as if it had been altered and reached for the telephone to call the foreman at the farm when the laborer picked up the ticket and walked out declaring that he would find Mr. Henderson himself and get it cashed. The foreman declared the ticket had been raised a crude amount from pay for half a day to \$12.50. By the time this information was secured the man had left the store and has not since been seen. The foreman is ahead of the man's labor and the laborer is out his money due him.

HANK AND KNOBS The Way to Milkdale

LARGE AMOUNT OF MONEY IS SECURED

Robber Entered Store at Jamestown—Got \$90 and Other Valuables.

Jamestown, N. D., Sept. 4.—The store of O. St. C. Cheney was robbed, the burglar securing \$42.50 in gold, \$50 in silver, a certificate of deposit upon the James River National bank for \$12 which had been endorsed over, and together with several other small certificates. The smaller certificates of deposit had not been endorsed and are not negotiable. Payment has been stopped on the certificates and they will be valueless to the thief. All banks in the state have been notified.

The burglar cut a hole in the rear door of the store through which he thrust one hand and turned the lock. The combination of the safe was worked and the outer door opened. He used his knife to pry open the inner door, but was unsuccessful in breaking the knife in the attempt. He then went to the front of the store where he secured a chisel and with this he opened the lock. The burglar then went to the front of the store where he selected Iver Johnson and U. S. revolvers and a number of razors and pocket knives, getting quite a collection of the best from the show case.

The hole cut through the back door near the knob and through which the burglar pushed one hand, would tend to indicate that the hand was not large and probably belonged to a man of medium height and weight. That he was familiar with the interior of the store and the value of goods is indicated by the choice of the articles taken. That he was not entirely a novice is shown by his opening the safe and abstracting the valuables therein. Fortunately Mr. Cheney had taken the currency home with him, which there was a considerable amount.

When near the Great Northern depot, they found the older girl found her about 5 miles from the depot. A number went in autos in search of the smaller child and after searching several miles found her about 5 miles southeast of this city where she was on upset. She was uninjured save a slight bruise.

There was some flour in the wagon, and when it upset the edge of the box rested upon one of the sacks and beside this sack lay the little girl, her head and shoulders under the edge of the box, head inside and feet of her body outside the box. The flour sack sustained the wagon box and prevented the child being killed.

AMERICAN HATS GET A CHANCE

Home Manufacture Can Now Make Good Showing at Department.

(Los Angeles Times.) America may now establish her reputation as the chief source of supplies for the world's hats. This would be a crowning achievement for her. Necessity is still the mother of invention. We must have hats if it is only that we may raise the question of the "Star Spangled Banner." Since the war has cut off the European supply, let us make good the deficiency by home manufacture. Of course we might have made all our hats at home without waiting for the European war to point out the way. But we didn't. Let us now cover the forelock of opportunity with an American hat.

FOUR SUSPECTS TAKEN IN CUSTODY

Arrested Near Barlow—One Confesses to Robbing a Store at Melville.

Carrington, N. D., Sept. 4.—The conductor on the north bound North-ern Pacific local freight wired to Carrington from Barlow that four hoboes attempted to hold up a brakeman on the train.

Agent Neal notified Sheriff Morgan, who started in an auto for Barlow. When about two miles from Barlow the sheriff saw four men from the Pulling his machine up alongside of them, he commanded them to throw up their hands. Three of them complied, the fourth drew a gun. Another command to drop the weapon, and the boy dropped it. The four were then searched for weapons. Two of them had big revolvers, and a couple one had dropped his. The men were brought back to Carrington and a more thorough search of their clothing was made.

Sheriff Morgan noticed that the men were wearing new shirts and underwear and one of them had a new sweater. Recently thieves entered the store of J. P. Kidder at Melville, and the sheriff suspected that possibly the men he had arrested for the hold up were the same outfit who had robbed the Kidder store. Kidder was summoned and identified the plunder. Under further examination one of the men told where the balance of the articles taken from the store had been hidden. It was found later under a hay stack at the spur between here and Melville.

The four men were given a preliminary hearing before Police Magistrate Pryor and were bound over to the district court. They gave their names as Mary Harmon, and a Kurd, Otto Kementz and John Tully. They will remain in the Foster county jail until their trial comes up in district court.
