

WHAT THEY ARE DOING IN SOCIETY

Out of Reach. The grapes on the trellis are purple and sweet. They tempt little fingers and clamoring feet. We pick them will all, there are plenty for each. But it's strange how the finest grow just out of reach.

But grandfather says—he's old and wise— That the difference is not in the grapes, but our eyes. That the things within reach never please us so much. As the things we can't have, that are just beyond touch.

There are beautiful grapes that we crush without feet. While we eagerly climb for others more sweet, and more true. That fruit within reach is the fruit for the day. And to pluck as you go is the sensible way.

Oh, grandfather's wise, for grandfather is old. But no matter how often we all have been told. At the vines, every morning, it seems to us each. That the very best grapes are the grapes out of reach.

—Kate W. Hamilton in the Sunbeam.

The Suffrage tea given at the home of Mrs. A. J. Ladd on Belmont avenue yesterday afternoon was most successful. One of the most successful of its kind ever given.

The guests were interested in the subject to begin with and if not so enthusiastic as the most ardent members, on their arrival were distinctly so at the close of the address given by Mrs. Edward Nelson of Minneapolis.

Mrs. A. G. Leonard introduced the subject by referring to the statements current in some quarters that the present movement in Pasadena, Cal., had a disastrous effect inasmuch that Pasadena had gone "wet" at the first election after the franchise had been granted.

Mrs. Leonard has a sister in Pasadena who has been a resident of that city for twenty-six years and she wrote immediately after receiving a letter inquiring as to the statement that Pasadena were a "wet" city. She completely refuted the charges made and said that the women of Pasadena and California, were as unalterably opposed to the liquor traffic as were the good women of every community.

Mrs. Leonard then introduced Mrs. Edward Nelson of Minneapolis who has been doing efficient work for the local suffrage club during the fall and she received a hearty welcome.

Her address showed careful thought and study and her earnest, womanly manner was very pleasing.

She traced the history of the movement for equal suffrage from its first inception to the present day and quoted from noted workers in the cause and her own personal experience in this state and community.

Some of her experiences are very amusing but all show forth the kindly spirit that characterizes all she says and does.

The hostess served tea and cakes and was assisted by her daughter, Miss Hazel Ladd and Mrs. A. G. Leonard.

A social hour was enjoyed and plans formulated for the distribution of suffrage literature and every lady expressed utter willingness to assist in any war she could.

Mr. and Mrs. Emerson of 624 Oak street announce the engagement of their daughter, Miss Beesie Rustain, to Daniel Cavalier.

Chicken pie supper Thursday evening at 8 o'clock. Congregational church, 35 cents. Everybody come.—Adv.

Dr. Charles E. Hunt and wife are guests at the home of Dr. and Mrs. E. F. Robertson, Hamplie place. Dr. Hunt will return to Valley City tomorrow but Mrs. Hunt will remain for several weeks longer.

Mrs. George Rodick gave a birthday party yesterday for her little daughter Marian who was six years old. The guests came after school and had a delightful time playing games.

The birthday supper was a delightful one and the large cake was the center of attraction with its pretty candies guarding it.

The cake was cut and eaten and the result was eminently satisfactory. Much merriment ensued when the children tried to blow out the candles.

Miss Marian received several pretty gifts and she gave each guest a Jack O-Lantern favor with a little rodding head that was very amusing.

The guests were Ruth Woutat, Harriet Hatcher, Jean Sinclair, May Wagner, Stanley Gordor, making six to seat at the table counting the little hostess.

The regular monthly board meeting of the Y. W. C. A. was held yesterday afternoon in the association rooms. A large amount of routine business was transacted and the monthly reports of the secretaries were read.

Miss Margaret Gowan, new secretary for the Junior girls has been busy getting matters arranged during her two weeks here, so that she was unable to report on the progress of her work generally in her department in a highly satisfactory condition.

Gymnasium classes were started yesterday and in a week or two the meetings of the Camp Fire girls will be given. Departmental reports were given and the lunch room, house and employment affairs very good indeed.

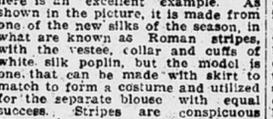

The report of the canvass for funds was not complete but the returns that were in are very gratifying. The applications for work numbered thirty-six and the applications for work twenty-seven, showing that the demand far exceeds the available supply.

Eight girls were placed by the association and many more found places after their applications have been filed. Plans for the conference at Fargo in November were discussed and the secretaries and several of the board members signed their intention of attending.

Miss Adelia Dodge, student secretary of the North Central Field Committee will in the near future pay the association a visit and immediately after the conference at Fargo. Miss Frances Crittenden also of the North Central Field will be here.

The meeting was one of benefit to the members and decidedly encouraging.

Herald Fashion Dept.

8411 Fancy Blouse, 34 to 44 bust.

One of the most interesting developments of the basque idea is to be found in the blouse that is finished over the skirt in place of under it, and here is an excellent example. As shown in the picture, it is made from one of the new silks of the season, in what are known as Roman stripes, with a vestee, collar and cuffs of white silk poplin, but the model is one that can be made with skirt to match to form a costume and utilized for the separate blouse with equal success. Stripes are conspicuous among the new materials, but there are also a great many plain silks which would be adapted to such use. Charmeuse and liberty satins are to have great vogue, and the new taffeta is delightfully soft and fine. Crepes are lovely both in the silk and the silk and wool, and if liked, the blouse itself can be made of one material with the trimming of another, such as striped silk over plain, velvet over taffeta set over crepe. Silk poplin is much liked for vestees but washable materials such as pique and organdie are also used. Clever women attach them with snap fastenings so that they can be easily renewed.

For the medium size will be needed 3 1/2 yards of material 37 or 35 inches wide, one yard 44 with 3 1/2 yard 4 inches wide for vestee, collar and cuffs.

The May Manton pattern No. 8411 is cut in from 34 to 44 inches bust measure. It will be mailed to any address by the Fashion department of this paper, on receipt of ten cents.

SUFFRAGE ISN'T PART OF MRS. LA FOLLETTE'S VISIT TO FEDERATION

Valley City, N. D., Oct. 13.—Miss Minnie Nielson, president of the Federation of Women's Clubs, made the following statement last evening in regard to the challenge to Mrs. LaFollette, issued yesterday.

"Mrs. LaFollette does not appear upon the program of the federation under the auspices of the state suffrage and she will not speak upon suffrage but, upon the Woman Movement. In view of the misrepresentation of the attitude of the program committee of the federation, it is only fair to say that it is the aim of the committee to in no wise make suffrage or anti-suffrage arguments of the official program. If it is introduced by members of the delegate body, as it may well be in a democratic organization, that is outside the jurisdiction of the program committee."

The suffragists repeat that they have nothing whatever to do with Mrs. LaFollette's presence upon the program of the convention, but that hearing she was to address that body, they at once sought an opportunity to have a little of her time following the meeting for suffrage work in the state, but their connection with her does not mean until her obligations to the Women's clubs is at an end.

Wednesday evening has also been dated for a reception and tea of the delegates and program and the proposed debate could have no effect upon the carrying out of the function, it is said.

CLUB NOTES

REMOVAL PROJECT

Movement Under Way to Change County Seat in McKenzie. Alexander, N. D., Oct. 13.—County seat selection will be held in McKenzie Monday afternoon. The project of moving the county seat from Grand Forks to McKenzie has been taken up by the business men of Arnegard, one of the biggest towns in the county, asking that the seat of the county be removed from Schafer to Arnegard.

A counter movement is already under way by the business men of Watford, who are in favor of moving near Schafer, the present county seat, which, because of the construction of the Great Northern line across the county, has become an inland town, isolated from the rest of the county. Alexander also will be a candidate for the county seat.

WAR LOANS TOTAL \$1,675,000,000 NOW

New York, Oct. 13.—According to a compilation made by the War Finance Administration, the belligerent governments have made war loans aggregating \$1,675,000,000 during the first ten weeks of the European war. Previous loans by belligerent countries since the beginning of the Balkan war two years ago amounted to \$330,000,000.

Of the \$1,675,000,000 war loans that have been reported in the ten weeks, Germany made \$1,115,250,000 and the allies, including Belgium, only \$560,000,000. The amount of the German loan was a result of the fact that 25 per cent of all banking balances were attached and that merchants were directed to liquidate their debts to the belligerent countries in the war loan at 5 per cent.

The Wall Street Journal states that if Paul Leroy Beaulieu's estimate that the war as far as public loans go has only been one-fifth provided for.

It is said that the first sawmill in the United States was built in Jamestown, from which sawed boards were exported in June, 1767. A water power mill was in use in 1828 near the present site of Richmond.
