CLEAVER MAIMS VICTIM. Mrs. Peter Johnson of Beach Has Three Fingers Cut Off.

Beach, N. D., Oct. 21.—While in the act of cutting the feet off a chicken with a cleaver, Mrs. Peter Johnson, wife of a rancher living on the Little Missouri river, 45 miles southwest of Beach, sustained a painful injury to her right hand, which later resulted in the amputation of three fingers and a part of the thumb. It appears that the woman had finished picking the chicken, and her hands still being wet with the handle of the cleaver slipped from her right hand and struck her left hand.

The injury was a painful one, and for a time it was feared that blood poisoning would set in, though at present the infection appears to be well under control. The painful accident occurred on Mrs. Johnson's birthday, while she was preparing a chicken dinner in honor of the event.

The comrade who first interviewed had a wound in his arm and his tongue had been cut out by the root. "Not only was he minus his tongue, but all his teeth had been knocked out and his lips mangled. I understood that this had been done by a rifle butt, because, seeing what had happened to the man, I thought he would show his tongue. The blow made him unconscious and when he came to his tongue was gone.

Laugh With Us

Dr. Wiley, expert in the pure food crusade, is responsible for the following:

"Four flies, which had forced their entrance into a certain pantry, were bent upon having a feast. One flew to the four and ate heartily, but soon died, for the four was loaded with plaster of paris. The second perched himself on the sugar can; but he fared no better, for the sugar was full of white lead. The third decided to sample the syrup, which stood temptingly near, but his legs were shortly raised toward the ceiling, for the syrup was colored with aniline dyes. The fourth and only surviving one had been conceitishly hovering around the different receptacles, apparently unable to choose. Finally, overcome with grief at the death of his friends, he also decided to end his life and drank deeply of the fly poison which he found in a convenient dish. But he is still alive, and in excellent health.

"The fly poison, too, was adulterated."—Everybody's Magazine.

"Father, it says here, 'a man is known by the company he keeps.' Is that so, father?" "Yes, yes, yes." "Well, father, if a good man keeps company with a bad man, is the good man bad because he keeps company with the bad man, and is the bad man good because he keeps company with the good man?"

Uncle Ezra—Eph Hoskins must have had some time down in New York.

Uncle Eben—Yep. Reckon he traveled a mighty swift pace. Eph's wife said that when Eph got back and went into his room he looked at the bed, kicked it, and said, "what's that darn thing for?"—Judge.

CITY CHARTER READY FOR ACTION

OF PEOPLE, BUT NO DATE IS FIXED

MAY HAVE TO CALL SPECIAL ELECTION

Is Before City Council, But They Have Taken No Action as Yet.

Will the new city charter be voted upon at the general election November 3, or at a special election called later?

Just at present this question is perplexing members of the charter commission and other interested parties. The charter has been submitted to the city authorities, and the council is to fix the date for balloting upon it. The proposition was not submitted to the council at the last regular meeting, and a few days after Mayor O'Leary called a special meeting to consider the question. Only three members reported, however, and consequently no action could be taken.

The election is one week from Tuesday, and if the charter is to be voted on at that time, the council will have to take immediate action. Otherwise, a special election will be necessary. The charter has been printed in pamphlet form, and is being distributed today.

One of the important provisions is the re-districting of the city into five wards, with an alderman from each instead of four, with a ward alderman and two at large.

The ward boundaries are described as follows: The first ward shall embrace all lands lying south of the Red Lake river within the city limits.

The second ward shall embrace all lands lying north of the Red River of the North and the Red Lake river and south of the tracks of the Great Northern Railway company in said city.

The third ward shall embrace all that part of the city lying east of the west line of section one (1) and north of the tracks of the said Great Northern Railway company in said city.

The fourth ward shall embrace all lands lying between Dover avenue and DeMers avenue and north of the tracks of the Great Northern Railway company in said city.

The fifth ward shall embrace all lands lying within said city and not embraced in any of the wards hereinbefore described.

Water Commission Retained. The Water and Light commission, which was first appointed in 1909, is retained. The present members of the commission are to retain their offices until their terms expire and until their successors have been appointed. The powers and duties of the commission are practically the same as at present.

Another important provision is that regarding the payment of liquor license fees. Liquor licenses first were granted in April of each year, but a couple of years ago the present council changed the time of issuance to November. The new charter provides that they be issued and paid for in January. This, it is believed, will take the liquor license question out of politics. It gives the council elected in the November election the power of saying who shall have licenses.

The charter commission has spent practically all summer in drawing up the charter. The provisions make a few important changes, but for the most part they are designed to make the charter fit present-day conditions. The changes, it is believed, will work for the better adjustment of city affairs.
