

BERLIN IS PLEASED WITH WEEK'S WORK

OPTIMISM IN THE GERMAN CAPITAL

Reports all Favorable to the Teutons Concerning Operations.

Berlin, Nov. 23, by wireless to Sayville, L. I.—The week closed with optimism prevailing in Berlin regarding the situation in Russian Poland as all reports published here indicate that the fighting is going satisfactorily for Germany and Austria.

According to the Austrian official report the Germans and Austrians are pressing their attacks along the whole line. Two Russian battalions, it is announced, have surrendered in the fighting to the northeast of Czestochowa. The Austrians also are said to have resumed the offensive on the line of Cracow and Przenysl.

Bad weather has hindered the operations in France and Berlin, but it is understood that the Germans steadily are preparing for a further advance of their lines.

The medical authorities of the German army report the health of the troops excellent.

The Turkish general staff reports a victory for General Liman von Sanders, the German commander of the Turkish forces near Batun, Asiatic Russia, in which the Turks claim they inflicted heavy losses on the enemy.

Official news advices from Turkey say the Ottoman troops were victorious over the Russians and British. The Russians are said to have been further driven back in the Caucasus region and they are reported to have suffered heavy losses in the Van district, being driven beyond the river Churuk.

Included in the press information:

given out by the German official press bureau is the following:

"Holland reports that as the result of an official inquiry it was shown that everyone of the hundred mines washed up on the Dutch coast were of British and not German origin."

"The correspondent of the Amsterdam Tjide declares that the English newspaper correspondents of the front of the allied armies are absolutely dependant upon those in power for reports which must be read therefrom with reserve."

Belgian Views Cited.

"Belgian fugitive officers interned in Holland declare they got sick of sacrificing poor Belgian soldiers to British selfishness, so they persuaded the soldiers to desert, telling them the Belgian king did not agree with the cruel sacrifice and that the king was a slave of the English and French."

"Owing to dissensions in the British cabinet and to differences between King Albert and General Pau, Belgium, the officers say, is tied hand and foot by the French and English."

"Emil Rathenow, manager of the General Electric company in Berlin, replying to the allegation of the Times of London that he expressed doubt in a German victory because imports of copper and oil were cut off, says he is convinced of the ultimate victory of the Germans as the country has a sufficient quantity of oil and copper at hand."

"Stefan Frumuseanu, vice president of the Roumania chamber of deputies, in a statement made at Budapest, said in his view Roumanian friendship was traditional and that the neutrality of Roumania was safe."

"Special correspondents report that the views of the French and English regarding raids and inflicting heavy losses on the Russian troops."

"The Politken reports that the suburbs of Tangier, Morocco, are in the hands of Moslem rebels. French troops, the newspaper says, are being sent to Morocco."

"The Swedish, relentless Russiafication of Stockholm are asking how this is compatible with Great Britain's declaration that the triple entente is fighting for the freedom of the smaller nations."

"Advices from Sofia, Bulgaria, say that the defeated Servian army will

BELGIAN CARBINEERS ATTACKING UHLAN RAIDERS NEAR YPRES

A real action scene is this, showing a detachment of Belgian carbineers holding an outpost in the environs of Ypres, where one of the biggest battles of the war is still raging, against a raiding squad of German Uhlans. In the shadow of the shrubbery behind the fenced barricade may be seen the smoke from some of the rifles discharged by the Belgians resisting the Germans.

try to make its last stand at Kraguyevatz, a Servian town 60 miles directly south of Belgrade. The Servian government recently implored the Greek government to help the Servians.

"Lieutenant General Count Helmuth von Moltke, chief of the general staff of the German army, in an interview praised the excellence of the Austrian army and sharply condemned the lie which has appeared relative to the pretended dissension between Austrian and German troops."

Boer Hebel Movement.

"Dutch newspapers report that the Boer rebel forces are appearing everywhere in the Transvaal and the Orange river colony. Generals De Wet and Beyers, the rebel leaders, are reported to have joined hands, the combined forces now being 15,000 strong. A lasting disaffection in South Africa, the newspapers say, is an assured fact."

"The British authorities, after suppressing a riot at Port Said, at the entrance to the Suez canal, flogged the rebels."

"Reports from Copenhagen say that as a result of a consultation between Baron Sonnle, the Italian premier, and the Italian ambassadors, the Italian government has decided to maintain neutrality."

FRENCH PLAYWRIGHT WON'T DISCUSS WAR

Eugene Brieux.

"I have too much respect for the freedom and independence of judgment of America to say a word about the war."

This was the reply of Eugene Brieux, famous French playwright, when asked to discuss the war on his arrival at New York a few days ago. He is in the United States as a representative of the Academie Francaise at a meeting of the American Academy of Arts and Letters.

PROBE RELEASED OF AL PATRICK

New Sensation in Case of Pardoned Murderer—Promise of Aid Seen.

New York, Nov. 23.—District Attorney Whitman today began an investigation into all circumstances attendant on the granting of a pardon in November, 1912, by Governor Dix, to Albert Patrick, serving a life sentence at Sing Sing for the murder of William J. Brennan.

The investigation was begun when affidavits were filed concerning charges that Joseph Walker, Jr., a wall street banker, offered to obtain Patrick's pardon if John T. Milliken, St. Louis, Patrick's brother-in-law, would join him in a mining deal.

DECISION IN POLAND DELAYED, SAYS BERLIN

(Continued from Page 1.)

German Strength in East.

Petrograd, Nov. 23.—The German column between the Warta and Vistula rivers, according to reports from Russian Poland, comprises six army corps and presents a front of 50 miles in extent. The two rivers prevent flanking by either side, the fighting consists of straight frontal attacks in which the losses of both armies are heavy, but neither side has been able to gain a marked advantage.

The Germans, military observers contend, cannot advance further in this region, since the Russian concentration, which was delayed by bad roads and lack of railroads, is complete.

Dispatches received in Petrograd from Tiflis, Transcaucasia, explain the halt in the Russian advance toward Kopyrkiol was due to the discovery that the entire Turkish army was massed at Erzerum. The Russians are contenting themselves, it is said, with holding their positions while awaiting reinforcements.

READY TO ACT

Colorado Would Assume Charge in the Strike District.

Denver, Col., Nov. 23.—Colorado is prepared to assert its sovereignty in the coal mining districts which have been occupied by federal troops for nearly seven months. This is the opinion of the legislative committee appointed in May to act in an advisory capacity to Governor Ammons, expressed in its report to the governor today.

IRISH BARONET LOSES SUIT

Vancouver, B. C., Nov. 23.—Dennis Halron, who said he was an Irish baronet, lost a \$10,000 damage suit yesterday, and shot and killed himself last night.

The suit was against the man whose divorced wife Halron married, and who later had Halron arrested in a charge of sending scurrilous postcards. At the trial, Halron was confronted with a marriage certificate indicating that he had married Anne Turner at Brookfield, Mass., in 1891.

STOVE COIL EXPLODES

Aberdeen, S. D., Nov. 23.—A frozen water pipe caused the coil in the kitchen stove at the home of Joseph Fitzpatrick to explode and Fitzpatrick and his wife were heavily injured. The man's overcoat, which he had on, was torn to shreds.

RE-ELECTS OFFICERS

Philadelphia, Nov. 23.—The American Federation of Labor, at the final session of the thirty-fourth annual meeting, re-elected all the present officers, and voted to hold the next annual convention in San Francisco in November, 1915.

BUY AMERICAN HOPS

Salem, Ore., Nov. 23.—To protect brewers, to put an end to the contract system and to induce the brewers to buy American grown hops instead of European hops, representatives of associations of California, Oregon and Washington, at a meeting here yesterday, decided upon the organization at once of three corporations, one for each state, and to operate on a common plan.

FLYING ROLLER MARRIAGE BANNED

Action in Court Attacks Plan of Weddings Used in the Colony.

Benton Harbor, Mich., Nov. 23.—Marriages at the flying roller colony here are, according to a bill of complaint filed today in the circuit court by August A. B. Holliday, a 20-year-old girl, against Allan Holliday, being negotiated under a new system that approaches a lottery.

The bill also makes serious charges against the head of the colony, Benjamin Funnell.

Mrs. Holliday says marriage in the colony were contracted in this fashion.

The girls and men were led into different rooms and then instructed to write on slips of paper the mates they desired. All did so only Mrs. Holliday says she did not get the mate she wanted.

Two other girls wanted him. In such cases the suitors matched without any special regard for love.

After marriage Mrs. Holliday quit the colony and now wants the marriage set aside. She declares the flying rollers marriages are a "travesty on the marriage relation." Recently some forty couples were married at the colony.

LINE DIFFERENCE DETERMINED

Washington, Nov. 23.—Actual difference in longitude between the official meridians of Paris and Washington is five hours, seventeen minutes and 38.658 seconds, naval observatory officials announced today after completing their reduction of elaborate wireless observations, made through the wireless stations at Arlington and Sibley tower, constitute the first direct determination of longitudinal differences between Washington and Europe. When the work was half completed the scientists of the two governments exchanged stations.

STEVENSON COLLECTION

New York, Nov. 23.—Admirers of Robert Louis Stevenson in all countries regret the scattering by auction here next week of the last great collection of the novelist's letters, manuscripts and curios. The collection is by far the greatest Stevenson collection, and is owned by his stepdaughter, Mrs. Isabel Strong, who inherited it from her mother, Mrs. Robert Louis Stevenson, whose death occurred at Montecito, near Santa Barbara, last February.

With the release of this collection, Stevenson's literary remains will be scattered to the four corners of the earth. It is not unlikely, however, that many of the best manuscripts and curios will be held in the Huntington Memorial library at Harvard.

The library which forms a part of the collection was that in the Stevenson house at Samoa. It contained some 500 volumes, some of which belonged to Stevenson's father, Thomas, and some to his grandfather, Robert, and bear their autographs.

REVIVALS AT LARIMORE

Good Attendance at Meetings Conducted by Rev. Kendall of Ky.

Larimore, N. D., Nov. 20.—The revival meeting is now in progress. Evangelist Rev. Kendall of Ky. is here and preaching some forceful and convincing sermons.

Although the meetings began with the best of auspices, the weather, yet the congregations have been large and already deep interest is being manifested.

The best songs from various books are being sung and the choir makes it possible for the congregation to readily sing even the newest of the songs. The people of Larimore realize that Evangelist Kendall is an apostle in revival work, and with his leadership a great religious victory is assured.

MINNESOTANS SAVE SOAP

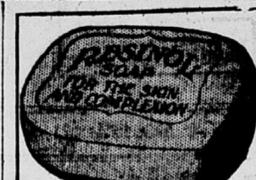

Minneapolis, Nov. 21.—A saving of \$300,000 a year in soap bills is expected in Minneapolis when the water supply is softened by a new process next month. The alkalinity of the water, now rated at 170, will be reduced to 50, compared with an average of 20 for rain water. Less water in the river and a high percentage of minerals in the nearby springs is assigned as the cause of the hard water.

BEER WITHOUT LICENSE

London, Nov. 21.—The coffee-stall opened at the Bank of England for the refreshment of the refugees, recalls a little-known privilege of the bank—no less than the right to sell beer without a license. This privilege was allowed the bank by the charter of incorporation, dated July 27, 1694, and the directors, if they choose, could open a public-house in Thread-needle street.

RUSSIAN FINDS REBEL PLOT

Petrograd, Nov. 23.—Several arrests were made when the police discovered a revolutionary plot involving members of the "duma."

Resinol Soap clears bad complexions

Pimples and blackheads disappear, red, rough, blotchy complexions become clean, clear and velvety, and hair health and beauty are aided by the regular use of Resinol Soap. It does its work easily, quickly and at little cost even when other methods fail.

The soothing, restoring influence that makes this possible is the Resinol which this soap contains and which physicians have prescribed for years in the cure of skin and scalp troubles. Sold by all druggists in toilet goods. For sample free, write to Dept. B-F, Resinol, Baltimore, Md.

DRUNKEN MAN STARTED STORY

Department of Agriculture Announces Sources of Sensational Report.

Washington, Nov. 23.—An official statement issued by the department of agriculture announced that sensational reports that the live stock foot and mouth disease was being purposely disseminated, to interfere with American exportation of meat to the warring nations of Europe, had been traced to a story invented by an irresponsible individual in Lincoln, Neb., who, when confronted with inconsistencies in his story, admitted he was drunk at the time.

Because both sides in a controversy were not explained to members, a St. Louis judge has restrained the trainmen from calling a strike there.

BIG EATERS GET KIDNEY TROUBLE

Take Salts at First Sign of Bladder Irritation or Backache.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

MY CATARRH BALM OPENS UP NOSE AND HEAD—COLDS GO

Breath Freely! Clears Stuffed-up, Inflamed Nose and Head and Stops Catarrhal Discharge. Cures Dull Headache.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head, catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing, catarrh or a cold, with its running nose, foul mucous drooping into the throat, and every snore distressing and truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.—Adv.

Reservations Nov. 24 at A. P. Clifford & Co., No Extra Charge

YOU MAY NOT KNOW THAT HOMEOPATHY

is able to cure every curable case of disease, whether tumor, cancer, skin disease or any form of acute or chronic disease peculiar to man, woman or child.

Children who have the benefit of homeopathic treatment cannot develop cancer, tuberculosis or other products of disease later in life.

Homeopathy prevents more than 90 per cent of the present day operations. Homeopathy is never suppressive, that is, it never forces a symptom to disappear while the cause that produced that symptom is still active in the system.

Homeopathy treats the individual in his entirety and not a single part. It therefore cures permanently, without being followed by complications. Homeopathy never establishes a drug habit.

A few of the conditions that are being cured by homeopathic treatment and without the help of surgery, are: gall-stones, hemorrhoids, varicose veins, ulcers, constipation, headaches, appendicitis, tumors, adenoids, etc.

In adding the fullest development of children, homeopathy has no equal. The results of the homeopathic treatment of mental and nervous diseases are unrivaled.

It will bear investigation.
