

GRIEG PROGRAM IS ANNOUNCED

Bjarne Chorus and Wesley Conservatory Faculty to Give Recital.

BEGIN CAMPAIGN FOR TICKET SALE

Purpose is to Raise Money for Placing Grieg Bronze in the City.

Miss Cordelia M. Hulburd, head of the piano department of Wesley conservatory of music, today announced the Grieg program, which is to be given December 11 under the auspices of the Grand Forks Sons of Norway.

The proceeds of the concert are to go to the Grieg memorial fund, which the local order has just established. The Sons of Norway plan to erect a statue of Grieg in this city, and the concert is one of the steps to be taken in raising the money.

The program is made up entirely of Grieg's compositions. Aside from the conservatory musicians, the Bjarne chorus, the oldest musical organization in the city, is to sing two numbers. The following are to appear: Miss Cordelia Hulburd, pianist; Rowland Mannel, tenor; H. Alden Enqvist, tenor; Jacob Buchholz, violinist; Paolo Conte, pianist.

One of the feature numbers will be the Carnival songs, which will be played by Miss Hulburd. This is one of the famous Grieg compositions, and is indicative of music he revised.

Another feature will be the two piano numbers played by Miss Hulburd and Mr. Conte.

Mr. Mannel and Mr. Enqvist each will be given an opportunity to display his vocal ability in the selections they have chosen. Mr. Buchholz also will have an opportunity to show his best work as a violinist.

The program is one of the best ever arranged for Grand Forks music lovers, each number being a feature in itself.

The complete program follows: Landlighting—Bjarne Chorus; Carnival Scenes—Miss Hulburd; (a) In the Boat; (b) Forest Wandering; (c) Sunshine Song; (d) Eros.

Mr. Mannel, Mr. Enqvist, Mr. Conte, second piano, The Great White Host, Bjarne Chorus.

"DICK" WAS ALMOST HUMAN, SAYS RUNGE, FORMER FIRE CHIEF

A. H. Runge, former chief of the Grand Forks fire department, now state fire marshal, writes in his column, chairman of the fire department committee of the city council, interestingly on the death of "Dick," the horse killed several months ago in responding to a fire alarm. Mr. Runge's letter follows:

"I am deeply grieved over the accident and death of our faithful horse 'Dick.' I have bought, sold and exchanged a large number of horses in my career as a fireman, but I never had such a faithful and intelligent animal as 'Dick.' You could say that his intelligence was almost human."

"Dick" was quick to learn his duties and could be trusted to get to a fire in the shortest time possible. "When we bought his mate 'Babe' a few years ago, and in the training of 'Babe,' 'Dick' secured the lead in his work, so it was the shortest time I ever experienced in training an animal for fire duty. You will have a hard time purchasing an equal to 'Dick' any more."

"Sincerely yours, A. H. Runge."

MILITARISM IS ONLY SOLUTION

German Speaker Declares Fatherland Adopted Only Plan Open to It.

ARMED NATIONS ON ALL SIDES

American Sentiment Would be Similar if Governed by Same Motives.

Declaring that militarism is necessary for German freedom and for the preservation of German democracy, Dr. Eugene Kuehnemann, professor of philosophy at the University of Breslau in Germany, gave an address at the University of North Dakota this morning. He spoke in the gymnasium and the place was packed with students, members of the faculty and Grand Forks people.

Dr. Kuehnemann is an exchange lecturer to this country. He has been here twice to act as lecturer to Harvard university and was also the first exchange speaker to the University of Wisconsin. Kuehnemann is a rapid fire talker, although hampered somewhat in the pronunciation of certain words in English. In his talk this morning, however, he was able to present his subject to his audience in a very clear and concise manner. The first part of his address was taken up with a discussion of the old German ideal of the nation, which declared that the German of today has practically the same ideals as it had centuries ago.

Discussed Writers. Dr. Kuehnemann discussed the literature of the earlier times and showed how it reflected the thought of the German people. He showed wherein some of the German writers with each other on certain points, but declared that fundamentally they were all working toward the same end.

Dr. Kuehnemann presented the German viewpoint in the present European war, declaring that his country was forced into the fight. He stated that it is hard for American people to understand the conditions in Germany and other foreign nations. He said that Germany was surrounded by foes on all sides and that it was unable to resort to force of arms. Germany, the speaker declared, was in the right in this war and that people would soon find that to be the case.

He said that Americans would feel like the Germans if they were in the same position. He told his audience to imagine this country surrounded by enemies. He declared that "Supposing for instance that Mexico and Canada were both powerful nations, waiting for an opportunity to seize part of this country," said the speaker, "What would happen? Every man in the United States would be prepared to fight for his country." That is the way the Germans feel about their country, declared the speaker. They believe that they are in the right and are ready to give their lives in defense of the German cause.

Same Old Ideas. The speaker declared that the military system in Germany is merely the expression of the old German ideal in another way. He declared that every man in Germany believes with a clear conscience that the war has been forced on his country. The Germans are all living with this unity of conviction and are determined to be of service to their fatherland. Every man, woman and child is doing something to help out in the present struggle.

Dr. Kuehnemann said that he is aware that this attitude seems peculiar to the people in this country. He declared, however, that this unity is the great blessing of the German people. He said that they never were united before in the history of the nation. The people there believe that they are doing right and they have no fear for their safety, declared the speaker.

Played Enemies. The speaker flayed the enemies of Germany for the way in which they are conducting the war against that nation. He declared that they are using unjust means to attain their ends. He declared that an effort has been made to get all the nations to combine against Germany. Not only this, the speaker said, they are making all sorts of unfair statements in order to prejudice the rest of the world against the fatherland. He declared that the enemies of Germany must do this in order to make themselves appear to be in the right.

Dr. Kuehnemann declared that he would like to call the allies by their right name. He stated that considerable literature is being scattered through this country for the purpose of influencing the people against Germany. He said that this distribution is nothing more or less than English war measures. He declared that the traitors of certain German words throw the wrong light on the war. Several German writers, he declared, have written prejudicial books. These works, however, do not show the true state of affairs, according to Dr. Kuehnemann. These writers, he stated, have very little influence in Germany. He declared that he never heard anything but peace, but they were prevented from keeping it by force.

Before Dr. Kuehnemann was called upon to speak President F. L. McVey asked the audience to stand and sing the hymn, "The Morning Light is Breaking." The Glee club then favored the audience with a selection.

SEVERAL ARRESTS EXPECTED

Parents Refuse to Comply With School Attendance Laws—Warrants May Be Issued Today.

Warrants will probably be sworn out late this afternoon by F. F. Burdard, secretary of the school board, for the arrest of several parents who are not sending their children to school, as the law requires.

In several cases, according to Mr. Burdard, the parents have been repeatedly warned, but have either neglected or refused to comply with the law in the matter.

It has been determined, therefore, to make arrests in order to demonstrate that it is absolutely necessary that the children be sent to school.

GOVERNOR HANNA NAMES COMMITTEE TO RECEIVE AID FOR THE BELGIANS

The Millers' Belgium relief movement has been organized with the advice of and in co-operation with the general committee of the Belgian relief fund of Washington and the American ambassador in London.

It purposes collecting 80,000 barrels of flour of the approximate value of a half million dollars, one-half to be contributed by the general public and one-half by the millers.

The railroads have agreed to transport this flour to Philadelphia without any charge, while the cost of the ocean transportation—\$41,000—has been contributed by a few individuals.

The British and German governments have consented to the arrangement, thus insuring its safe carriage and delivery.

The American ambassador in London cables: "Flour cannot be bought on this side of the world. Money sent to the other side of the world to assist in relieving the starving women, children and old men of Belgium is the common duty of humanity. It helps the German as much as the Belgian to assist in alleviating the frightful distress which has befallen innocent non-combatants on account of war."

Every bank newspaper, elevator agent and flour mill manager in the state is authorized to receive donations of wheat, flour or money for the relief fund. The flour contributed will be converted into flour at the nearest mill and the flour will be shipped, free of all freight charges, direct to the shipper, Northwestern Miller at Philadelphia, from which point the personal representative of the Northwestern Miller will accompany the shipment and personally assure its delivery by permission of the American ambassador in London and our minister in Belgium.

For each five bushels of wheat delivered to the elevator agent or mill, approximately one barrel of North Dakota patent flour will have like delivery.

Farmer and Business Man Should Respond.

The 1914 wheat crop, oats and corn crop of North Dakota will realize at least \$30,000,000 more money because of the European war.

The farmers and business men of North Dakota are richer by just this amount by reason of the war.

Hence, the farmer and business man should be the first to respond to this urgent call.

If every farmer in the state will today deliver to his elevator one bushel, five, ten or twenty-five bushels of merchantable wheat according to his ability (or if he has already sold his wheat, then the proceeds in money), it will save the lives of thousands of suffering Belgian women and children, and furnish evidence to the world that the hearts of the men of North Dakota are as expansive as the prairie of their noble state.

If every man and woman, not a farmer, will today hand his or her cash contribution to the nearest mill, elevator agent or bank, other thousands of lives may be saved.

It is believed that \$7,000,000 worth of food for each of the next several months will be required to sustain the helpless victims of the present war.

All contributions will be acknowledged by the undersigned committee and through the local newspapers.

RELIEF WORK IS BEING ADVOCATED

Press Bureau Urging State Papers to Solicit Funds For Belgians.

"Help North Dakota help the Belgians" is the slogan adopted by the Development League Press Bureau, which is run under the direction of the Grand Forks Commercial club.

The bureau of which E. A. Bronson is chairman, has undertaken the task of interesting newspapers throughout the state in the Belgian relief fund and in acting as a central collecting agency.

The bureau is working directly in connection with the New York Belgian Relief Fund committee, which has charge of the work.

The New York committee is composed of such men as Lyman Abbott of The Outlook Magazine, Frank A. Vanderlip of the treasury department and Cleveland Dodge. The funds of the committee are deposited with and paid out by the J. P. Morgan company, and are handled through the London American committee, of which Ambassador Page is chairman. It also is handled by official representatives of this government in Belgium and Holland.

Each paper is asked to interest the people in its community in the work. They are petitioned to urge the appointment of a Belgian Relief committee to work in connection with the Grand Forks committee.

JUST WANDERING (Blue Herd Post.)

Wonder is John Lind is not seriously pondering over the thought of entering the race for the United States senatorship? Mr. Lind is keeping well in the background politically, these days, and with Hammond holding down the gubernatorial patronage, the two distinguished gentlemen would make a combination difficult to combat.
