FEDERAL COURT TERM POSTPONED

Session Will Not be Held in Grand Forks as Scheduled.

No term of the United States district court will be held in Grand Forks this week as had been scheduled, according to reports received from Fargo.

This is largely due to the postponement of the case of D. A. Dinnie against the Chicago Portland Cement company. Mr. Dinnie asks \$50,000 damages from the company on account of alleged poor cement furnished him for use in the construction of the Minot normal school.

Two criminal cases had also been scheduled for trial. These were the actions against the Sandile Bros. formerly of this city, charged with using the mails with intent to defraud, and the similar charge against John Zeha, the 13-year-old desperado of Pembina county.

Some of these cases will probably be allowed to go over to the May term of the court in Fargo.

EGGS ARE CAUSE OF MUCH GRIEF

Alleged Decayed Hen Fruit Causes Legal Mix-up at Crookston.

Mose Giller, formerly of this city, appears to have started some complicated litigation in Crookston, when he sued Moe & Rapin, proprietors of the Encore restaurant, in justice court for the price of a case of eggs which they had ordered from him.

The defendants claimed that said hen fruit was decayed, but in spite of that the justice decided in Giller's favor. Thereupon the restaurant men had Giller arrested under the pure food laws on a charge of selling eggs which had exceeded the age limit.

To further complicate matters, Mr. Moe more than insinuated that Justice Ball had been "bribed, bought or otherwise corrupted" by Giller.

Thereupon the judge's ire was also roused, and he had Mr. Moe pinched for using improper language to him as presiding judge.

Both of the cases are scheduled to be taken up in municipal court.

KURTZMANN

A Piano Ideal is not easy to satisfy. A name of honorable standing, tone of pleasing purity, action of elastic delicacy, designs of excellent proportions, woodwork of thorough care—and an available price.

In 1848—the year when gold was first discovered in California, the year when the French revolution occurred—the Kurtzmann Piano came into being. 1848 is made memorable in General History, in the History of the United States, and in Piano History as well. For the Kurtzmann Piano occupies a place of distinguished merit in musical annals.

Kurtzmann Pianos

It has been said that Kurtzmann Pianos never wear out—they merely grow mellow with age, like a true-hearted, philosophic human whose spirit and sympathy remain young even though his physical being becomes antiquated by the touch of Time.

The Kurtzmann Piano of today is possessed of the worthy improvements of modern excellence, each tempered by the steadfast purpose of stability and musical quality which dates back to the year of its birth.

Kurtzmann Tone—true, musically pure, wonderfully vibrant.

Kurtzmann Touch—light, elastic, even—made possible only by an action of thorough musicianship.

Kurtzmann Design—a model collection of perfectly proportioned exteriors.

Kurtzmann Price—within reach, within reason, within the requirements of the purchaser of a piano for music's sake.
