YOUNG MEN GET GOOD POSITIONS

Will Work for United States Department of Agriculture in State.

YOUNG MEN GET—40 STATE. Mandan, N. D., June 9.—Three young men from the Minnesota college of forestry, St. Paul, have landed positions with the United States department of agriculture, and will be employed at Mandan in connection with the shelter belt work of the northern Great Plains field station.

The local farm of the government Langenskiold industry has three hundred acres of trees for distribution west of Minnesota and to the 5,000 foot contour line. The three men with Superintendent W. A. Peterson will make an examination of property where farmers intend to set out shelter belts; confer with them, offering suggestions, and will see that the soil is properly prepared for the reception of the trees they seek free from the government.

Started originally by the government as the headquarters of five states in the work of investigation and experimenting in dry land farming, the forestry department was added last year and within two weeks another department, dairying and live stock, will be added.

Another section of land has been secured, is now being fenced, and by July 1, some forty head of cattle purchased by the state at Chicago, will be shipped here. The state agricultural college is co-operating with the United States department towards determining the actual value of native prairie grasses for grazing.

ONLY STOCK AND BONDS TAXABLE

Fargo, N. D., June 9.—A point whether personal property belonging to a non-resident of this state is subject to the payment of an inheritance tax and which will put to rest subdivision two of section 83-76 of the compiled laws of 1913 will be considered if the state tax commission through Attorney George E. Wallace appears before the ruling recently made by Judge Hanson who interpreted the law to read that the only class of property of non-residents subject to tax is stocks and bonds.

It will be the first time that the question has been raised. The estate in which the matter is brought to public attention is that of Herman Verkes, formerly a resident of Fargo. The principal part of his estate consists of \$31,843.97 in cash or personal property in the Fargo bank. His real estate consists of six lots in Fargo and appraised at \$5,250.

Fred Irish of the First National bank of this city is the administrator of the estate and Watson & Young, his attorneys. When the hearing was held before Judge Hanson, Attorney George E. Wallace appeared and stipulated the facts. The judge ruled that this property is not subject to the payment of an inheritance tax for the reason that so far according to the law, no payment of an inheritance tax is limited only to stocks and bonds.

It was stated at the court house yesterday that the case is certain of being appealed.

Opinion of the court by Bruce, J. STRIKE-OUT PITCHERS LEAD IN PASSES

Lowdermilk, the big hurler taken from Louisville by the Browns at the end of last season, and Wycokoff, Connie Mack's great strike-out artist, hold two notable records among American league pitchers thus far this season. Wycokoff leads in strike-outs and bases on balls, and the former colonel is second in both departments.

It would seem that a pitcher who is to make the opposing batsmen whiff the air is not a winner unless he also has control. These two pitchers apparently are wild as March hares. While he has struck out sixty-two batsmen, Wycokoff has been more liberal in his passes, sending seventy-nine men down to the initial sack via passes. Lowdermilk has caused sixty-one to breeze and has issued seventy free transportation slips to first. They are both pitching below the .500 mark.

1. He who comes into a court of equity must come with clean hands and a promoter of a corporation who has prepared and caused to be circulated a stock subscription form or contract by which, some at least, of the subscribers to the capital stock of a corporation are made to agree not to purchase more than ten shares of such stock and who in violation of such form or agreement has himself, before the capital stock of said corporation has been subscribed in full, obtained control of said corporation by obtaining an issue of stock to "dummies" and which stock he has afterwards had assigned to him, cannot come into a court of equity and complain because the directors of such corporation have taken such control from him by the sale of the balance of the capital stock of said corporation, even though such sale was
