

WHAT THEY ARE DOING IN SOCIETY

Trouble Enough. We do not need to borrow. Our trouble from tomorrow. We'll find enough to worry us before we're through today.

We waste our time in fretting. O'er what's to come, forgetting. The goodness and the gladness that are rich along the way.

We do not need to ponder. On what we left back yonder. Back yonder on the blotted page that tells of yesterday.

We shall recall the gladness. And not bring up the sadness. But let the gloom go to the dark and let the sunshine stay.

This casting up of trouble. Will only make it double. Will only wilt the flowers that are sweet along the road.

This thing of being tearful. Instead of waxing cheerful. Because of what has gone, will only add unto our load.

So, what's the use to borrow. Our trouble from tomorrow. Or clutch the sorrows that we thought were ours on yesterday?

Today will have its frettings. But let us go on our way. And joy will overtake us while we walk along the way.

INDIANA UNIVERSITY GIRL ATHLETE OF CLASS; HOLDS RECORD IN POLE VAULT

Pauline Siebenthal.

Bloomington, Ind., Aug. 25.—Who says girls can't jump? If there are any who do, let them read of the exploits of a pole vaulter, of pretty little Pauline Siebenthal, a student in the junior class of Indiana university.

Miss Siebenthal recently broke the world record for women jumpers in this sport.

Recently, at a meet at Bloomington, this remarkable girl athlete easily eclipsed all records at clearing the bar previously made by girls by vaulting 5 feet 1 inch, which is five inches higher than the best record previously made.

Miss Siebenthal's record is made all the more remarkable from the fact that it was accomplished with little previous training in track work.

When Miss Siebenthal was first permitted to vault for height, after only a few days' preliminary practice, she cleared the bar with ease at 5 feet 6 inches. Then she did 5 feet 11 inches,

which broke the record by three inches, but to eclipse this, a few days later she made her best jump of 6 feet 1 inch.

Although track athletics are new to Miss Siebenthal, ever since she was a small girl she has been interested and has participated in basketball and tennis. Among the other championships she won this spring was her class championship in tennis.

She is also keen on baseball, and has attempted to set up a girls' team in college this year, which she believed would, with a little practice, put it all over the boys' team, but the college authorities interfered with this ambition.

Coach Childs has been almost as much astonished at Miss Siebenthal's remarkable athletic powers as any one else. He has stated that, in his opinion, she is today the most remarkable and proficient girl athlete in the United States.

Food for the Business Trenches

It takes the highest type of nerve and endurance to stand the strain at the battle front of modern business.

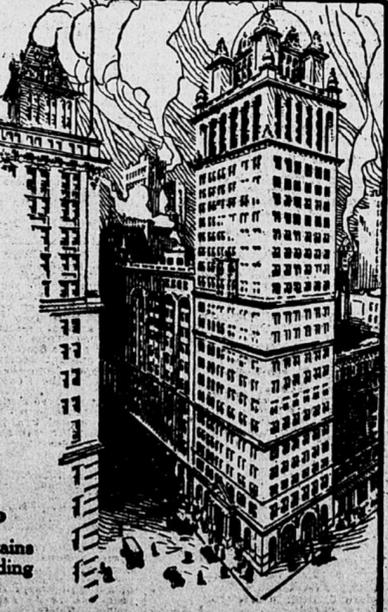

Many fail. And often the cause is primarily a physical one—improper food—malnutrition. It is a fact that much of the ordinary food is lacking in certain elements—the mineral salts—which are essential to right building of muscle, brain and nerve tissue.

Grape-Nuts FOOD

made of whole wheat and barley, contains these priceless nerve- and brain-building elements in highest degree.

Grape-Nuts food is easy to digest—nourishing—economical—delicious, and as a part of the menu of modern business men and women helps wonderfully in building up the system for strenuous demands—and keeping it there.
