RAIN IS CAUSING THRESHING DELAY

Need of Clear Weather and Drying Winds Throughout the State.

Rain during the night has caused another delay in threshing operations, and reports received in the city today indicate the rain was very general.

Just how soon operations can be resumed depends entirely upon the clearing up of the weather. That it will be only two or three days of the most favorable weather, with sun and drying winds, is generally accepted.

Threshing is not very far advanced in any section of the state, and the farmers are anxious that the weather should clear up.

During the last ten days, there have been only two or three days in which it has been possible to thresh, in some sections.

Rain in Lake Region.—Devils Lake, N. D., Sept. 14.—Slow rain all night soaked the unthreshed grain in the lake region, and it is doubtful if threshing can be resumed this week.

Stutsman County Sees Delay.—Jamestown, N. D., Sept. 14.—Rain has stopped threshing for a couple of days, as the grain in this part of the state was well soaked. The weather has also been cloudy and cool, preventing the grain from drying rapidly.

Threshing is not half done in this county. In other parts of the state where help is scarcer and machines less numerous, the work is still further behind, although two weeks of dry weather have prevailed since threshing began generally.

Crookston in Rain Belt.—Crookston, Minn., Sept. 14.—Rain Saturday night which stopped threshing yesterday, was followed by an all night rain last night, which was still falling at noon today. There will be no threshing till Friday at the earliest. No damage has been done to the grain thus far, as the weather is cool, which will prevent sprouting, but warmer weather would prove serious.

Crookston and villages are filled with idle threshers.

THE RESTORATIVE.—Madge—So you feel better since you gave up dancing and devoted yourself to Red Cross work? Marjorie—Indeed I do, dear. I've had my name in the papers nine times.—London Opinion.

THERE WAS A REASON.—"What sank him?" "The fact that they couldn't ball him out."—Baltimore American.

A KEY TO SUCCESS.—Dyer—How did Litely overcome Gotrox's objections to him as a prospective congressman? Ryer—He taught him a new dance step.—Judge.

WET WEATHER BRINGS CALL OF THE "EAST"; MANY LABORERS ANSWER

It looks like a big night in East Grand Forks.

Wet weather, which, to the farmer, is more to be feared than a mortgage collector, is very much to the liking of the cash takers in the threshing camps. It usually causes a suspension of threshing operations and a resumption of "tank" duties, to say nothing of the vain regrets that follow, generally when the "tank man" is before a stern and severe judge.

Yesterday's and last night's rains have delayed threshing operations throughout the valley, and today all roads literally led to East Grand Forks. The Northern Pacific train, which came in from the north this noon, deposited over 100 farm hands in Grand Forks, and most of them, with the unerring instinct of the species, made straight for that city: "Where a man can raise a thirst."

Morning trains also brought many to the city and evening trains undoubtedly will bring more.

And tomorrow, many farmers will be looking for help and police, as both cities will be escorting many out of the villages.

SHERMAN TO GET ILLINOIS G. O. P. FOR PRESIDENCY

Senator Lawrence Y. Sherman.

Kankakee, Ill., Sept. 14.—Senator Sherman gets the Illinois delegation to the 1916 republican national convention without a fight. James R. Mann shortly will announce that he does not care to become an active candidate for the presidency at this time, and will have the full support of Illinois republicans for the speaking in congress, which will be decided in November, 1915.

These two highly important political probabilities were determined definitely at a conference at a conference in the residence of Congressman William B. McKinley at Champaign, at which were present Mr. McKinley, E. Shannan, and between thirty and forty republicans from the eastern Illinois territory.

The news was conveyed quietly to 300 Illinois republican leaders who gathered for republican day at the Kankakee fair—the real curtain raiser for the Illinois 1916 campaign and preliminary to the big round-up which will be staged at Springfield during the state fair.

It was important because the concession is general, politically, that Congressman Mann has no chance to get Illinois unless he can get the support of Cannon and McKinley as willing to get out and fight in their district against Sherman.

There was a great count of noses at Champaign. The sentiment was all one way and it was favorable to Sherman. The decision reached was that all Illinois republicans, regardless of faction, must now get behind Sherman and "on the square" go the limit in putting the senator in the presidential going as the Illinois candidate and let the rest of the country know it at the earliest moment, for strategic purposes.

Mr. Mann's position, as reported to the conference, has at no time been a candidate for the presidency. The general opinion was that he will be elected speaker of the 1917 congress, if it is republican, and upon this understanding it is a safe forecast that Mr. Mann very shortly will issue a formal statement eliminating himself as a presidential candidate at this time.

CANADIAN BORN FOR FIELD SERVICE

Winnipeg, Man., Sept. 14.—A regiment of Canadian-born for service in the European war is the object of a movement launched here, the plans originally, however, contemplating the organization of only a single company to become a part of the 106th regiment of this city.

That the Canadian-born movement will attract to the colors, young men who heretofore have refrained from enlisting, is the belief of its sponsors. Officers of the 106th are giving their support to the plan.

RAISE FUND FOR RETURNED SOLDIERS

Winnipeg, Man., Sept. 14.—The creation of a \$100,000 provincial fund for the benefit of returned soldiers, a scheme sponsored by Mayor R. D. Waugh of Winnipeg, is receiving the united support of the press and the public, and it is believed that the goal of the "Returned Soldiers' association" is in a fair way of being attained.

It is the purpose of the association to provide for the relief of the family or dependants of every Manitoba soldier who has been in the European war.

That the problem of caring for returned soldiers will extend over a period of 50 years, as has been the experience in the United States, is the generally accepted conclusion.

As a means of creating the \$2,000,000 fund that is aimed at, it has been proposed that the province bond, the terms of payment covering a long period of years, so that future generations would bear their proportion of the burden.

HARD TO BE GOOD

ONLY PROLONG WAR BY HUMANITY, SAYS GIRL, BACK FROM HAGUE

San Francisco, Sept. 14.—"Red Cross nurses and humane treatment of soldiers only prolong the war."

Such was the unusual viewpoint expressed today by Miss Constance Drexel, wealthy young peace worker and suffragist, who attended The Hague peace conference and is here to attend the convention of the Congressional union for woman's suffrage.

"War brides are somewhat of a fiction," she continued. "Few girls were forced into unwelcome marriages. Marriages that were contemplated were merely rushed. The woman nature wanted a little touch of affection before the sweetheart died on the battlefield. That was all. That women will cease to bear children as a means of halting war is equally a fiction."

"Miss Fankhurst was undoubtedly right when she said polygamy will be practiced after the war. But polygamy, or war brides, are not the real tragedy. The tragedy is in robbing the homes of husbands, fathers and sweethearts."

"I came back to America hoping to aid in peace work, only to find that this country has been seized with a militaristic spirit. It was terribly discouraging."

NEW COURT HOUSE IS NOW OCCUPIED

Manning, N. D., Sept. 14.—County officers are today preparing to move into the new Dunn county court house, which is practically completed, and which was erected at a cost of \$7,000 to replace the building destroyed by fire last year.
