## SKIN GAME DATE CHARGE

Farmer \$30 to En-  
Member of  
Association."

N. D., Sept. 28.—The  
case of state vs. O. S.  
wherein defendant was  
making false misrepresen-  
tations while canvassing the  
service of the Consumers Serv-  
ice supply company, was held in  
court of Justice P. E. Stefanowicz  
at Williston on September 21, and  
the binding of the defend-  
ant to the district court. He  
was to furnish bail in the amount  
of \$30 and will spend a vacation  
in the district court at Williston  
for trial in the district

at Williston was in this vicin-  
ity of the Consumers Serv-  
ice supply company of Minn-  
a company formed for the  
purpose of dealing direct from the  
producer to the consumer, saving a  
middleman's profit for those  
bought through this concern. He  
told a story to tell of the immense  
profits that could be saved, what  
advantages could be derived  
and what wonderful conveniences  
could be at the command of the  
service of the Consumers Serv-  
ice and Supply company. For  
service he charged the insignif-  
icant sum of \$30 a year which could  
be saved in one order of goods.  
He would take a note for the thirty  
days as smooth as grass and in-  
sisted upon a number of local par-  
ties to bite, signing notes of from  
\$5 to \$125 each in payment of from  
one to five years' service. Some of  
these notes the agent cashed at local  
banks.

When the purchasers began to re-  
cover from the effects of swallowing  
his bait they grew suspicious that  
such goods could be bought at such  
prices. Suspicion led to investigation,  
investigation led to the arrest of the  
seller.

The prisoner was taken to Williston.  
The sentence for the crime of  
which he is charged is from five hun-  
dred to a thousand dollars fine or  
from one to three years in the peni-  
tentiary.

Mr. Leselyoung states that he is in-  
nocent of any intent to defraud and  
says that if there is any fraud, which  
there might be beyond his knowledge  
of the company, it was the company  
and not he. He claims that he is con-  
sidered an agent of the company.

Those whose notes have been cashed  
by Mr. Leselyoung are losers, and  
it is thought that he gathered quite a  
wad while working in this vicinity.

## ALMOST LOSES FOOT IN MACHINE

Crarry, N. D., Sept. 28.—Adolph  
Winroth, separator man on L. P.  
Johnson's threshing machine, while  
standing on the top of the machine  
above the cylinder stepped through  
and got his foot caught in the cylin-  
der. The foot was lacerated and in-  
jured.

## WHAT SHALL I PAY FOR A PIANO?

First make up your mind  
to buy a good piano. This  
does not necessarily mean the  
highest priced piano, but,  
naturally, a good piano can-  
not be made to sell at the price  
of a poor one. However, it is  
possible to buy a high grade  
piano at a reasonable price.

## Crown Piano

Scientific factory organization and large volume of business enable us  
to produce a high grade, artistic instrument at a price only slightly higher  
than pianos of medium quality manufactured under less favorable conditions.

## How Can I Know A Good Piano?

Send for the complete set of our books. They tell you just how to test  
pianos—how to recognize true musical value; what to look for. These are  
points you ought to know and you are  
welcome to them whether you decide  
upon a Crown or not. Follow the ad-  
vice in these books and you will get  
a good piano.

## PART OF LARGE FARM IS SOLD

Sheyenne, N. D., Sept. 28.—William  
Milne sold 277 acres of his farm for  
\$25,000 to Amel Hage of New Ulm,  
Minn., who will take possession De-  
cember 1. Mr. Milne retained 240  
acres for himself. For the past thirty-  
two years Mr. Milne and his wife  
have been residents of Eddy county.  
This farm is one of the finest farms  
in Eddy county and is especially  
adapted for a stock farm. Mr. and  
Mrs. Milne will take an extended trip  
through the west a little later where  
they will visit friends and relatives.

## BRONCHO STARTS THINGS FOR BOSS

Williston, N. D., Sept. 28.—Attacked  
by a vicious broncho, which he was  
attempting to break for riding pur-  
poses, U. L. Burdick, former Univer-  
sity of Minnesota football star, now a  
candidate for governor of North Da-  
kota, had a narrow escape from death  
at his ranch on the Missouri river be-  
low here.

At the moment when the animal  
seemed to be well in hand, it reared,  
and with both forefeet struck Burdick  
on the shoulders and breast and  
knocked him to the ground.  
Before any of the helpers could  
interfere the maddened horse reared  
again and planted his forefeet on  
Burdick's body, at the same time  
making maddened attempts to bite  
the prostrate man. With a wonderful  
show of strength Burdick sprang to  
his feet and, grasping the horse by  
both ears, held him secure for a mo-  
ment, then with one bound cleared  
the high walls of the corral, the horse  
in hot pursuit.

## FARMERS' ELEVATOR IS INCORPORATED

Kenmare, N. D., Sept. 28.—The  
Kenmare Farmers Elevator company,  
which has just been reorganized from  
the old Kenmare Farmers Elevator  
company, have been granted articles  
of incorporation by the secretary of  
state. The concern is incorporated  
for \$10,000 and will do a general ele-  
vator business including buying of  
grains and handling of flour, feeds  
and fuel. A. Mielke, John Theisen and  
Albert Stark are the stockholders  
whose names appear on the articles of  
incorporation.

The first meeting of the stockhold-  
ers will be held at Kenaston on Sat-  
urday, October 2, when the by-laws will  
be adopted and a board of directors  
elected.

The new concern, which has taken  
over the old Kenmare Farmers eleva-  
tor at Kenaston, will operate under a  
different policy than that pursued by  
the old company. The business will  
be operated on the cooperative plan,  
under which patrons of the house will  
receive a percentage of the profits dis-  
tributed on a basis of volume.

## CONTRACTS LET FOR LIGHT PLANT

New Salem, N. D., Sept. 28.—Con-  
tracts were let yesterday for machin-  
ery for an electric lighting system  
which will be installed here by  
William F. Peterson, president of the  
State Bank of New Salem. The  
contract was granted a year ago, but ac-  
tion was delayed until the present.

## MANDAN FAIR IS HELPFUL TO REDS

### Indian Men Now Carry Chil- dren and Walk Beside Wives.

Mandan, N. D., Sept. 28.—"It's a far  
cry from the Indian of today and the  
Redskins of 25 years ago," said Judge  
C. P. Thurston "Look at them," said  
the judge, pointing to a couple of  
young Indian men passing by.  
"There is a young buck who is carry-  
ing his papoose, and his wife walks  
along beside him." They are dressed  
as well as the average white people.  
You take 25 years ago and the fellow  
the same, but that one wore nothing  
but a breech cloth; his squaw wore  
moccasins and a skirt. When they  
came to town the buck walked forty  
feet or more ahead of the squaw and  
she carried the baby.

## NEW FARMERS TO MOVE TO KENMARE

Kenmare, N. D., Sept. 28.—Eight  
new farmers with their families and  
equipment, reached Kenmare to make  
their permanent home, brought here  
through the efforts of local real es-  
tate men. Fred Berg, clerk, reports  
the arrival of six farmers to whom  
he had sold land. They are Wm.  
Kugler and Emil Brightkritz, from  
Renville county, Minn., who have  
taken the Van Vleet tract east  
of Kenmare; Wm. Steinkamp, who  
takes the Wm. Green farm, north of  
Norma, and Fred Steinkamp, who  
takes the Jas. Berg farm, also in the  
Norma country. The latter two are  
from Danube, Minn. Henry Zimmer-  
man and Albert Butler, both of Ren-  
ville county, arrived at the same  
time and will take land recently pur-  
chased north of Tolley.

The Des Lacs Valley Realty Co.  
have two farmers here who recently  
purchased land near here. J. L. Vol-  
kanant, of Madison, Minn., arrived  
with two cars of effects, and has gone  
on the Norden farm, north of town,  
and W. Lapham from Dennison, Minn.,  
reached here at the same time to go  
on his new farm in the same vicinity.

They all report themselves highly  
pleased with the crop raised here this  
season, and entirely satisfied with  
their purchases.

## FARMER'S BARN IS BURNED TO GROUND

Anamosse, N. D., Sept. 28.—The  
barn on the Frank Rademacher farm  
just west of Anamosse, N. D., was  
burned to the ground. The barn was  
ground. Mr. Rademacher was un-  
loading hay next to the barn, and hap-  
pening to look up saw smoke and  
flame issuing from the cupola. He  
immediately returned to the stock  
and harness out of the barn, every-  
thing was removed except the dog  
which was chained up and a set of  
harness. It was not until the fire  
had started, but it is thought how  
happily had been dropped in the  
loft and that mice had ignited  
them. The loss is a serious one to  
macker, although that there was in-  
surance on the building.

## MANDAN PAVING IS BEING LAID

Mandan, N. D., Sept. 28.—Surveys  
are being laid out for the paving of  
the streets of Mandan, N. D., for the  
next spring. In addition to these four  
other streets will perhaps be in-  
cluded in the improvement work. Man-  
dan was the first city west of Fargo in  
North Dakota to pave, and still holds  
the reputation of being the only town  
in the western part of the state with  
that street improvement. The paving  
has proved such an asset in inducing  
new residents to locate here that the  
paving district will be trebled in the  
coming year.

## SMALL BOY HAS GINGERS BLOWN OFF

Mandan, N. D., Sept. 28.—Phillip  
Sailer is a coal miner at Stanton. His  
son wanted to do like papa, and Sun-  
day morning when his parents were  
in church, Phillip, Jr., started playing  
with dynamite caps. He was brought  
here last night and physicians think  
same reason performed an operation at  
the Mandan hospital to cut off shreds  
of the fingers of his left hand which  
still remained.

## DYNAMITE THROWN DOES NOT GO OFF

New England, Sept. 28.—John  
Strasler, mine worker, was returning  
from this place to the C. C. Culver mine  
with a box of dynamite. In turning  
the corner one wheel dropped off the  
buggy, throwing the dynamite. The  
team started to run away and Strasler  
and others watched for the explo-  
sion. The dynamite was thrown  
out but remained peaceful.

## COMMITTED SUICIDE

New England, N. D., Sept. 28.—  
Mrs. Joseph Leonard, aged 52 years,  
committed suicide by hanging herself  
in the barn at the farm home north of  
here. Ill health had caused her to  
lose her mind.

## DAKOTA COLONY PLAN END

Marmarth, N. D., Sept. 28.—An ex-  
tensive colonization project is being  
launched by G. E. Sult of Marmarth,  
N. D. Thirty-two sections of land ly-  
ing west of Marmarth have been lying  
practically unused. Mr. Sult is now  
the start making arrangements to  
bring at least 100 families into the  
territory.

# Heat is the soul of a house!

Quick-coming Winter is to be a  
dread of a delight—depends upon  
whether you "put-it-off-again" or  
adopt ideal heating. Old-fashioned  
heating causes more worry and ar-  
guing than any single factor of the  
home. Why therefore vex through  
another seven months of weak and  
wasteful old-time heating? Why be  
at the mercy of the weather, with  
shut-off rooms, drafty floors, frigid  
halls and bays? A house is changed  
into a home, a soul is put into the  
dwelling by the flood of mellow  
warmth guaranteed to you only by  
the use of

## AMERICAN & IDEAL RADIATORS & BOILERS

have invariably proved more economical than the heaters they replaced—often reducing the fuel-bills one half, besides the far greater ease in operation, absence of repair bills, vastly greater household cleanliness and avoidance of fire risks.

A No. 2118 IDEAL Boiler and 270 sq. ft.  
of 36-in. AMERICAN Radiators, costing  
less than \$40, were sold last night  
at a cottage. At this price the goods can  
be bought of any reputable, competent  
dealer. This did not include cost of labor, pipes,  
valves, freight, etc., which are extra and vary  
according to climate and other conditions.

That is why IDEAL-AMERICAN outfits are an investment, not  
an expense. You must know they bring 10 to 15% higher rental, or  
property sells quicker at price to fully cover cost.

It should be understood that the name IDEAL applies to a group of Boilers—  
changed in form to suit exactly the perfect burning of different kinds and grades of  
hard and soft coal, (screenings, pea, buckwheat, etc.) coke, lignite, wood, oil, gas,  
etc. Hence it is not our interest to urge the sale of an "all around" or  
"straddle" Boiler which may or may not do the work, but rather to assist the  
building owner to select the type and size of IDEAL Boiler which will give him  
complete satisfaction and be best adapted to burn the fuel most cheaply available  
in his locality. And to burn the least amount of it, and with least care-taking!  
Don't this Fall set up again the old stove, but put in an IDEAL-AMERICAN outfit and enjoy  
winters of solid heating comfort and reliable ventilation, every room and corner "warm as toast,"  
without heater dirt or drudgery to ruin the housewife's disposition and the household furnishings.  
Call up your dealer and ask for estimate. Ask for book (free): "Ideal Heating"—full of big  
facts you ought to know. Does not obligate you in the least to buy. Put the soul of genial,  
vital-giving radiator warmth into your country or city cottage by looking us up today.

IDEAL Boilers are  
safer and easier to run  
than stoves. Accept  
no substitute.

## GROGERS TO FIGHT MAILORDER HOUSES

Will Sell Goods for Same  
Prices as Houses Can  
Sell Them.

Mandan, N. D., Sept. 28.—To com-  
bat the mail order houses, one local  
grocery company yesterday announced  
instructions that all bill of goods  
required by farmers and the exact  
prices scheduled in mail order house  
catalogues. The only consideration  
being that the farmer must pay cash.

When questioned as to whether this  
grocer declared that jobbers have  
given instructions that if the grocer  
cannot fill the order, send in for the  
goods, and the jobber would see that  
the middleman made a profit.

## THOSE WHO WON'T HEAR

A certain young man of Columbus  
who is so hard of hearing that he  
often carries a little deaf trumpet in  
his pocket to help him hear. He  
was in the conversation of his friends  
last week. There happened to be a  
farmer in the vicinity who had not  
heard a word for many years. The  
Columbus man was introduced to  
him and referred to his little instru-  
ment which helped deaf persons, and  
offered to demonstrate it to him.  
"I can't hear through those things,  
I have tried all of them and none of  
them seem to be any good," he said.  
"Put this on your ear and try it any-  
way," suggested the visitor. The  
farmer hesitated a while and then put  
one of the instruments to his ear. To  
the surprise of the Columbus man  
the deaf farmer replied, "I've never  
in a tone hardly above a whisper."  
"Can you hear what I say?"  
"Nope, I can't hear a word. These  
things don't do me any good."  
"Would you acknowledge it if they  
would help you," was then asked  
him in a still lower tone, and the an-  
swer came back promptly: "Certainly  
I would, but I can't hear a word of  
what you say."

## MIS FIRST LINE

"Pa, what is the 'first line of de-  
fense'?"  
"That depends on the circumstances  
son. If this country were at war, the  
first line of defense would be the navy.  
When a man's married, it's usually the  
telephone line, by which he tries to  
square himself before he comes  
home."—Birmingham Age-Herald.

## SOLDIERS TAKE WAR PICTURES

Several Men Belong to the  
"Photographic Section"

Paris, Sept. 28.—(Correspondence  
of the Associated Press.)—One of the  
French soldiers killed at the taking of  
Metz in Alsace belonged to a  
branch of the army service, organized  
after ten months of war, called the  
"Photographic Section," which is now  
officially photographing the war. Its  
role is artistic, historical and educa-  
tional. Although the staff is military  
it also is serving the foreign office  
and the department of public instruc-  
tion.

General Joffre, Monsieur Millerand,  
Minister of War, Delcasse, Minister of  
Foreign Affairs and Sarraun, minister  
of public instruction, aided by the  
committee of foreign affairs of the  
chamber of deputies and the foreign  
office collaborated in its organization.  
The operators are all mobilized men,  
and, as its reports, plans and other  
documents will hereafter constitute  
the historical section of the general  
staff.

For the fine arts section and the edu-  
cational department it is intended  
that to make a complete collection  
of photographs of destroyed or dam-  
aged public monuments of great ar-  
tistic value, and in general to furnish  
a sort of illustrated annex to the his-  
tory of the war for the instruction of  
future generations.

## PARIS STREETS BEING REPAVED

Paris, Sept. 28.—Although most of  
the laborers employed by the city are

is not being neglected. The Champs  
Elysees is being repaved, as well as a  
number of other streets, and public

## Go October 14 with Santa Fe Farmers' Special for a tour of California farms and fairs

Rural California invites you to be its guest,  
and will give our party a chance to see by  
auto the country life that most tourists miss.  
Bring your family along for their vacation  
outing. October is a convenient month to get  
away, and it is a pleasant month to travel in.  
California's two great fairs are at their best, and offer  
special features for entertainment of our party.

I am getting up a special limited party  
of people interested in the business of farm-  
ing to make this trip under my personal  
escort.  
I want you to see California farms and  
talk to the farmers there about the greater  
production per acre, the balmy, beautiful  
climate, the year-round growing season. You  
will be the guests of many communities in  
Southern California and San Joaquin  
Valley. They will take you on auto trips  
to see their farms, orchards and homes. We  
have no land to sell. We just want you to  
see and know California.

Let me tell you at what small cost this  
trip will be made. We will live on our own  
special cars most of the time, so saving hotel  
bills. Go with us on the Santa Fe. We will  
stop a day on the way to see the wonders of  
the Grand Canyon of Arizona.

This party will leave Chicago October 14,  
reach San Francisco October 29, and return  
from there at your pleasure up to December  
31. You'll see rural California—as you  
could see it in no other way.  
I have just made a personal trip to the  
Coast to see what the various California  
communities propose in the way of entertain-  
ment. They are eager to show our party  
their country. They want you to know what  
California is like. They will make you feel  
at home. It will be a wonderful trip. I mean  
you can go with us.
