

HAY JOINS HANDS WITH WILSON FOR GREATER FORCES

Head of House Military Affairs Committee Approves the Program.

CONSERVATIVE, HE DECLARES

Will Supplement Administration's Scheme With Movement for Higher Pay for National Guard—Would Strengthen That Branch.

Washington, Oct. 25.—Chairman Hay of the house military committee went over details of the army program with President Wilson, and announced that it would have his hearty support.

Mr. Hay said he considered the program very conservative, and saw no reason why there should be difficulty in getting congress to adopt it.

He added he would secure as speedy action in the house as possible.

In addition to plans prepared by Secretary Garrison, Hay said he would make efforts to strengthen the national guard. He said he favored increasing the pay of the organized militia.

No Early Hearings. Because the house committees are yet to be organized, there will be no hearings on the army bill before congress convenes, but afterward hearings probably will last for a month or six weeks.

Hay saw no necessity for a bond issue. Chairman Chamberlain of the senate military committee will confer with President Wilson next week. He also favors the program.

CONSISTORY TO BE CONVENED

Rome, Oct. 25.—Although Pope Benedict did not wish to hold a consistory during the war, he has now changed his original intention as the Italian members in the Sacred College are in fewer number than the foreign cardinals. There is mention of the creation of French, German and perhaps Austrian cardinals, but otherwise no cardinal created will be of Italian nationality.

It is asserted that the pontiff's allocation on the occasion will be the most important exposition of his views on peace that he has yet made.

GERMAN OFFICER EXPERIMENTING IN UNITED STATES

Machine for Disabling Ships Uncovered by the New York Police.

THREE JAILED AS CONSPIRATORS

Understood That Several Others Who Had Cognizance of Movement Will Be Arrested—Confession Is Said to Have Been Made.

New York, Oct. 25.—Robert Fay, who claims to be a lieutenant in the German army, and his brother-in-law, Walter L. Schrein, who were arrested yesterday while testing explosives near Grantwood, N. J., were arraigned before a justice of the peace at Weehawken, N. J., on charges of conspiracy, and were held without bail for examination tomorrow.

Arrangement of the two men disclosed the fact that a third man, Paul Daeché, had been arrested at his home in Jersey City after New York and New Jersey police had searched his house.

Daeché also was arraigned with Fay and Schrein and held without bail. Detectives said they expected Daeché to prove a valuable witness as he has already given them much important information.

Daeché said he is 34 years old, that he came to this country from Germany in 1912, and a graduate of Cologne university.

Announcement was made at the police headquarters here by Commissioner Woods that Fay, after an all night grilling, had made a confession. For more than two hours, it is stated, Fay stuck to his original story that he was not connected with the German government.

At 5:30 this morning, according to the commissioner, he broke down and admitted that he was a lieutenant in the German army, and came to this country two or three months ago for specific purpose of experimenting with a machine containing high explosives.

This machine, the commissioner said, contains works like a clock and was to be attached to the propeller or rudder of a ship.

The machine is so constructed that the stirring of the water would cause a rod connecting with one of the soles to release a spring, resulting in an explosion which would disable the ship and force her to the nearest port.

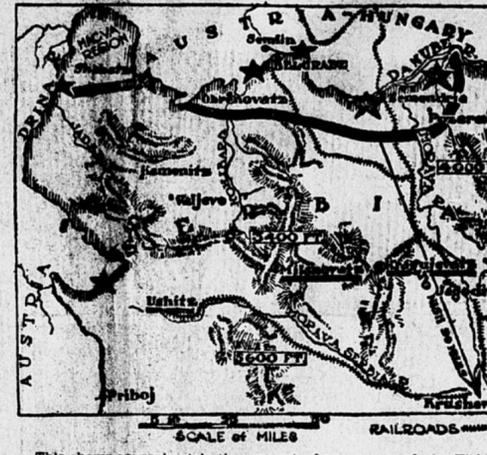

This was for the purpose of delaying shipments of munitions to the allies, it is stated. A number of detectives left headquarters in automobiles, and it is said that a number of arrests will be made of men who are cognizant of Fay's movements.

GERMANS GAIN MILE A DAY IN SERBIA

This shows approximately the amount of progress made by Field Marshal Mackensen in the first two weeks of his invasion of Serbia. The Germans have advanced at the rate of almost exactly one mile a day, and if this rate were not bettered they would not reach Nish before the middle of January.

The black stars show the approximate points where the invaders first crossed the three rivers into Serbian territory, and the heavy lines mark the present extent of their advance.

The three Serbian strongholds which still bar their way, Ushitz, Kravjatz and Milinovatz, are underlined. Heights of some of the mountains are given in feet. This map, however, only faintly indicates the wild and mountainous nature of the country which the invaders are approaching. Upper Serbia has been compared to the Austrian Tyrol, which the Italians have been trying to invade for five months.

Brussels Execution, Say Germans Used Up by Allies to Offset Indignation at Own Actions

Berlin, Oct. 25.—Germany's enemies apparently are anxious to counteract the indignation aroused by the fact that German sailors on a sinking submarine, who had surrendered and held up their hands, were shot down one after another, says the Overseas News agency.

"For this purpose they are giving the widest publicity to investigations about sentences by court martial against conspirators in Brussels. The fact is that the conspirators knew what they were doing, and what they might expect under the law. The conspiracy was carried on during a period of nine months, and countless soldiers were helped to join the army now fighting against Germany."

"The German judges faced the alternative of giving way to their natural feelings of pity and endangering the country by encouraging similar enterprises, or applying the law."

All stories about the details of one of these executions in Brussels are pure inventions. The execution was a sad necessity, but was carried out as prescribed by law without incident."

BULGARIAN PROGRESS MOST MARKED FEATURE OF BALKANS CAMPAIGN

EXPECT WETS TO TAKE HONORS IN TODAY'S ELECTION IN LE SUEUR

Le Sueur Center, Minn., Oct. 25.—The option campaign in Le Sueur county, which came to a close today with the election, has not been as strenuous as in some of the counties where elections have been held. There has been plenty of campaigning, but there has been a notable absence of that intense feeling which has dominated in other counties.

The wets have been well organized, maintaining an office here. A series of personal letters has been sent to the voters and two important speakers have talked in all the principal towns and villages of the county.

It is generally believed the county will go wet, though the dries do not concede this.

A Promise To Pay

When a manufacturer advertises his goods in this newspaper he is giving a promissory note to dealers.

He is promising to pay those who co-operate with his newspaper advertising.

He is promising more customers and increased sales to the storekeepers.

It is only business sense on the part of the retailers to show the goods and push them at the time they are being advertised in the newspapers.

Grey, Churchill, Haldane, British Muddlers, Must go, Demand of Edmund Yates' Famous Paper; Sees Reign of Terror in England

London, Oct. 25.—Edmund Yates' famous paper, "The World," publishes a leading editorial signed by its chief editor, W. F. DeWend Fenton, in which he says: "The time for fatuous optimism, for the honest sophistries, for the whole gospel of 'wait and see' has passed. 'I believe that the time has come for plain speaking, however unpopular and unpopular the truth may be. There is still time to save this country from the greatest humiliation and the greatest disaster—but if the policy of drift and muddle is allowed to continue in force for a few months longer, the sun of England's glory will have set."

Foreign Office Called Obtuse. "The bungling of one minister has turned the Gallipoli peninsula into a slaughter house. The crass obtuseness and lack of initiative displayed by the foreign office will complete the disaster unless some drastic step is decided upon and at once."

"Twice in the last eight months has the great British empire placed its fate in the hands of the minister of a Balkan state—twice has she been unceremoniously thrown over."

"In the case of Turkey, in the case of Bulgaria, and in the case of Greece—and as it will probably turn out, in the case of Roumania also—our foreign office has been outmaneuvered at every point by German diplomats, at the clumsiness of whose methods

Lord Winston Churchill.

we were wont to indulge in superior smugness. Not only were we outmaneuvered, but it would seem that the foreign office was hoodwinked into believing that the negotiations both at Sofia and at Athens were progressing entirely favorably for this country. "It would be interesting to know if it is true that on Friday, October 1, when the attitude of Bulgaria had

Lord R. B. Haldane.

suddenly precipitated a crisis, the Russian ambassador telephoned to the foreign office about postponement to know if he could see Sir Edward Grey, and was told that Sir Edward had gone away for the week end and could not be reached until Monday morning. "The whole government of the country must be reorganized, without

delay. It seems to me idle to wrangle about conscription when with the present situation at the head of affairs human effort and human life are being sacrificed to no purpose. "Grey must go and must be replaced by a man in full possession of his health and vigor. "Churchill must go. We have no place for the man at whose door must be laid the responsibility for the sacrifice of thousands of brave lives. "Haldane must go. We want no smooth-tongued prevaricators whose spiritual home is in Germany. "Turn Out All Lawyers, He Says. "All the lawyers must go. The country which will have to be called upon for an effort, compared to which previous efforts have been as child's play, will not submit to the solicitor general drawing 19,000 pounds (\$95,000) per annum in salary and fees, when our sailors who risk their lives every moment for a pittance, have not even received their prize money. "It is with a full sense of responsibility that unless here and now we make a peaceful end of professional politicians there will be well-known men hanging from lamp posts before many months are past. We have been drifting to it faster since the war began—now we are racing toward it—and the measure of our speed is the measure of Mackensen's dash through Serbia, through Bulgaria, through Constantinople to the East."
