ALL ENGLISH IN MANITOBA SCHOOLS

Winnipeg, Man., Nov. 26.—The elimination of instruction in any language but English will be proposed by the Norris government, now in control in Manitoba, and in bringing about such legislation, they will repeal the so-called Laurier-Greenway agreement, established several years ago.

Under that agreement, now operative, when ten pupils in a school district petition for instruction in some other language than English, such petition must be granted and instruction in the tongue requested must be given.

Repeal of this agreement and the establishment of all-English schools must come, government leaders declare, if compulsory education is to be made successful.

The whole matter will be thrashed out at the legislature during the coming winter.

Mitchell's name was prominent at the recent inquiry conducted in Regina by Sir Charles Davidson.

His alleged frauds have to do with contracts made with the remount department, in an instance of fraud charged in the former complaint being the sale to the commission of eight carloads of hay, which hay, in fact, never existed.

American side, but several Mexicans fell under the bullets of the American soldiers, according to reports. The shooting followed a day and night of excitement, during which thousands of evacuated Nogales and Sonora.

PRESIDENT WILL NOT PARTICIPATE IN PEACE MOVE

Withholds Support From Unofficial Movement Now Under Way.

KEEPS IN TOUCH WITH SITUATION

Nothing Developed to Indicate There is Hope of Ending War.

Washington, Nov. 26.—President Wilson will take no part in the campaign to bring about peace conference, now being carried on in this and other neutral countries.

While he will interpose no objection to the unofficial movement, he has heard nothing from Europe which leads him to believe that the time is opportune for him to take any steps.

Telegrams urging the president to support the movement for a conference of neutrals continued to pour in at the White House. A delegation of peace advocates will call on the president late today.

The president is keeping in close touch with the peace sentiment abroad through American diplomatic representatives, devoting much time and study to the question. It is stated authoritatively that at the first intimation from officials of warring nations that such efforts would be welcome, the president will renew his offer of services to aid in ending the war.

Henry Ford's peace ship will not carry any representatives of the American government and unless the government will not take any part in the meeting proposed.

HOLBEIN ACCEPTS MINOT POSITION

Ex-press Secretary Will be Officer of Association of Commerce.

W. E. Holbein, formerly publisher of the Lansford Journal at Lansford, N. D., one time secretary of the North Dakota Press association, and who has been in charge of the North Dakota exhibit at the San Francisco exposition during the past year, will be secretary of the Minot Association of Commerce, taking that office January 1.

This is the position which Mr. Holbein had under consideration recently, as indicated in previous stories in The Herald.

The Minot Optic-Reporter says of Mr. Holbein's election to the Minot office: "W. E. Holbein, who has been in charge of the North Dakota building and exhibits at the San Francisco fair since the outbreak of that enterprise, has been selected for secretary of the Association of Commerce of this city and will assume his duties as such on January 1."

D. S. Hollenga, who has filled the position of secretary for several years, has resigned to accept a similar position with the commercial body of Fulton, N. Y. He will leave for his new position tomorrow.

Mr. Hollenga has had the matter of the change under consideration for some time and assumed the duties of the position in connection with the fair. The new secretary is not unknown in Minot, having been secretary for several years engaged in newspaper work at Lansford, where he edited and published the Lansford Journal. He was a candidate for the republican nomination for commissioner of agriculture and labor in the primary election of 1914 but was defeated. He was appointed secretary of the Panama-Pacific exposition commission and placed in charge of the work at San Francisco immediately upon the opening of the fair.

He is a publicity man of more than ordinary ability, having been trained in the practical school of newspaper experience, the only field in which publicity training is successfully learned.

The North Dakota exhibit at San Francisco has been closed and the exhibits are being packed for return to the exhibitors in the state. Mr. Holbein will spend a few days visiting at his old home in the seat and will return to North Dakota about December 20, reaching this city in time to familiarize himself with the conditions and assume the duties of the position to which he has been appointed on January 1.

It is certain that the press of the city will be utilized by the new secretary in spreading the ideas of Minot prosperity and opportunities. He fully realizes the value of newspapers as publicity mediums and will certainly work in conjunction with them in building up the Association of Commerce and extending its fields of endeavor and usefulness.

GRIM RECORD OF FIRST CANADIAN DIVISION IN WAR

Casualty List Contains the Name of 11,270 Men—About Half of Number

Ottawa, Nov. 26.—The grim but heroic record of the First Canadian division which first got into the firing line in France last January, is written in a big volume of the Casualty List, just compiled and issued by the military department, recording all the casualties of the division up to June 30 last. It contains no less than 11,270 names, or just about 50 per cent of the whole division. The list of killed totals 1,837 or about 16 per cent. The missing total 1,842, or about 16.2 per cent, while the wounded total 6,619, or about 58 per cent.

In addition, there were 157 deaths from various causes other than wounds, 173 men were "gassed," 113 suffered from the shock of shell explosions, 173 were confined to hospital for some time for illness, and 401 are officially reported as prisoners of war. The last mentioned figure, of course, includes only the names officially reported from Germany, and does not include probably a thousand or so who are believed to be prisoners of war, and are classed with the missing.

An analysis of the list shows how severely some of the battalions suffered. The 10th (Edmonton) and Winnipeg battalions had a total of 38 names on the casualty list, including 233 killed, 521 wounded, 49 missing, 8 "gassed," and 18 deaths from illness. There were only three prisoners of war, showing that the Princess Patricia's fought to the last, but never surrendered.

The 7th B. C. battalion suffered almost as badly as did the Princess Patricia's. With only a little over a carry any representatives of the American government and unless the government will not take any part in the meeting proposed.

The 10th (Edmonton) and Winnipeg battalions had exactly the same number of casualties, namely 312, including 154 killed, 546 wounded, 144 missing, 35 suffering from shock, 7 "gassed," and 5 prisoners of war.

The 15th (Ontario) battalion had a total of 388 names on the casualty list, including 84 killed, 231 wounded, 299 missing, 161 prisoners of war, and 18 deaths from shock.

The 3rd (Ontario) battalion also lost nearly 80 per cent of its strength, according to the casualty list. It had 73 killed, 427 wounded, 353 missing, 14 prisoners of war, 6 "gassed," and 19 suffering from shock.

The 1st (Ontario) battalion, which comes sixth in regard to the total number of casualties, lost 794 men, including 168 killed, 578 wounded, 32 missing, 127 missing, 18 prisoners of war, 49 "gassed," and 4 suffering from shock.

The 15th Highland battalion (Winnipeg) lost 314 men, including 144 killed, 498 wounded, 78 missing, 5 "gassed," and 2 prisoners of war.

The 4th (Ontario) battalion, with 718 casualties, lost 44 men killed, 309 wounded, 256 missing, and 6 prisoners of war.

The 5th (Western) battalion had, with a loss of 470 men, 143 killed, 463 wounded, 36 missing and 10 prisoners of war.

The 14th (Montreal) battalion has 55 casualties, the casualty list, with 98 killed, 150 wounded, 65 missing, 6 prisoners of war, and 9 "gassed."

GRAIN GROWERS ARE INSISTENT

Brandon, Man., Nov. 26.—Insistent demand that the dominion government let down the barriers against their grain now maintained at the border that they may enter the United States market, was made at the meeting here of the Brandon District Grain Growers' association.

The convention is unanimous in favor of the open market, not single vote being cast against the proposal. It was found that practically every portion of western Manitoba has a part of its grain unthreshed. Threshing operations, however, still are under way in some sections, despite the cold weather. There will be very little of the grain unthreshed when severe weather makes further operations impossible.

GERMAN CRUISER FRAUENLOB SUNK

Sent to Bottom in Locality That Undine Was Sunk by Allies.

London, Nov. 26.—The German protected cruiser, Frauenlob, was seen sunk by a submarine of the Entente Allies, according to a semi-official announcement made at Petrograd, says a dispatch the Central News Agency. The Frauenlob is reported to have been sent to the bottom in the same locality where the German protected cruiser Undine, sister ship of Frauenlob, was lost.

RUSSIAN ENTRY INTO BALKANS BY WAY OF RUMANIA IS EVIDENT PLAN OF BEAR; BIG FORCES NEAR

TELLS CANADIANS TO SEND PAPERS

Winnipeg, Man., Nov. 26.—If Canadian who has stayed at home are interested in news of what is going on in the trenches in France, the men in the trenches are just as deeply interested in what is going on back home, says Lady Mabelle Edgerton, daughter of Lord Brassey, writing to the Manitoba department of the Canadian patriotic fund.

That the soldiers are not receiving as much reading matter as they want; that Canadian papers are at a premium in the trenches, is her statement. She maintains that the Canadian relatives of the boys at the front should waken to the demands of the soldiers, and keep them well supplied. Newspapers are more in demand than perfumery, for the soldiers like to know, not only the news of the home folks, but they are much interested in what the folks back home are thinking of the progress of the war.

Des Moines Negro Beats Daughter of Police Chief

Attacked Couple with Hammer this Morning, and is Soon Arrested.

Des Moines, Nov. 26.—Mrs. Alice Jackson, daughter-in-law of Assistant Chief of Police Charles Jackson, and Miss May Jackson, aged 20, were attacked with a hammer by a negro in their home here, and seriously injured.

Lee Holt, the negro, is in jail charged with the attack. Holt was arrested after a long chase by citizens and police, as he was attempting to board a moving freight train. A razor and hammer was taken from him after he had been pulled from the freight train.

Her Problem Now Similar to That Which Confronted the Grecians.

Winnipeg, Man., Nov. 26.—A recent Winnipeg dispatch, relating to the life insurance business and making the statement that Canadian companies were restricted from writing insurance on the lives of alien enemies residing within Canada, was in error. A prominent insurance official of this city recites the actual situation as follows: "There is no distinction whatever in Canada with regard to the people of any nationality so long as they observe the laws of the country, and there is the same law for everybody. The only restriction with regard to alien people is that Canadian companies are not permitted to insure persons who are now residing in the enemies' countries, or carrying on business in those countries, and this same restriction applies to Canadians as well as all others. As no Canadian company is, under the present unfortunate condition of affairs, writing business in these countries, the restriction amounts to nothing."

CZAR GOES ON INSPECTION TOUR

Makes Trip Through the Trenches and Men do not Recognize Him.

London, Nov. 26.—During the Russian czar's recent visit to the front near Minsk, the soldiers generally refused to believe that their visitor was really the emperor, for he wore only a private soldier's overcoat, without decorations of any sort, and the only precautions taken were those usually taken by a staff or inspection officer when his work takes him to the trenches. The czar's companion in the present war took part in the battles of Lodz and Gorlice.

"How many children have you?" asked the emperor. "Seven captain," said the soldier, still refusing to believe that it was the emperor. "And how many wounds?" "Seven, also." "Then you shall have seven heads," said the visitor. "This was a reference to an old Russian proverb which says that a sergeant has seven years. It means that the soldier was promoted by imperial fiat to the rank of sergeant."

250,000 MEN CONCENTRATED CLOSE TO RUMANIAN BORDER; GERMAN EFFORT OFFSET BY APPEARANCE OF STRENGTH

Whatever German efforts have been made in Rumania it is believed here that they have been largely offset by the presence of large Russian forces close to the frontier and the now rapidly developing Russian preparations, with Odessa as a base, from which no other inference is possible than her immediate entrance into the Balkan conflict.

Emperor Nicholas is said to have promised the appearance of Russian troops in Bulgaria within a week. There are increasing indications that this campaign will be launched by way of Rumania. It is reported that conferences are now being held between representatives of Russia and Rumania to obtain the latter's consent to this movement.

This consent, as indicated clearly by Rumanian statesmen, has to depend on whether the allies gain a preponderance of forces in the Balkans. Rumania gives evidence of being impressed strongly by the concentration of 250,000 Russian troops at Ismail and Reni, near her borders.

No important achievement has been recorded on either side since the German announcement of the fall of Pristina and that of Mitrovitza. With only a small territory left to defend, Serbia's leaders declare she is unbeaten and can still harass the invaders.

Both Sides are Seeking Aid of the Rumanians

London, Nov. 26.—A Petrograd dispatch to the Morning Post says: "The Germans have commenced the evacuation of Mitau, their forward base in the Biala-Dvina region, and are preparing to withdraw from the now hopeless task of capturing Riga and the Dvina line."

"Janopol, one of the points where the Germans had reached the Dvina, and whence they had made attempts to cross, has been captured by the Russians. A good deal of the fighting which has occurred lately in the northern war theater has been directed toward securing a better line for the Germans' permanent winter fortifications."

"The Russians continue to press on various points to prevent the realization of this objective, and the German line as now constituted is far from satisfactory for anything more than brief defensive operations, inasmuch as the Russians threaten the flanks of the various positions."

"The Germans are constructing a strong four-fold line of trenches in their rear, with a formidable series of wire entanglements extending scores of miles. In the extreme rear the Germans are busy completing field railways to the interior of Germany."

Winter Sets in Among the Mountains in France

Paris, Nov. 26.—Winter has set in along the fighting line in the mountains of France. Snowfall in the Vosges is reported in a communication from the war office, which says: "In the Vosges last night the snow fell heavily, especially in the region of the Pecht and Thur rivers."

Serbian Troops Driven Back by German Forces

Berlin, Nov. 26.—Serbian troops, offering resistance in rear guard actions to the Teutonic advance near Mitrovitza and Sienica, have been driven back by Field Marshal von Mackensen's forces, the German army headquarters announced.

Dead Money—A Talk To Storekeepers

Every article you have on your shelves which does not sell represents dead money. It is not earning anything. It is taking up room. It is growing less in value as it gets older. It does not sell because people do not want it. It may be a good article but they do not know it or believe in it. People DO KNOW about the goods being advertised in their newspapers. If these are good goods they will want them. It pays the retailer to co-operate with newspaper advertised products, to show them in the windows, and to push them.
