## THE FUTURE OF OUR STATE.

Unless we misread the signs of the times the farmers of North Dakota are getting ready to sign a new declaration of independence. For some years the farmers and business men of our state have been concerned over stock and grain market conditions. There has been much difference of opinion, but all recognize the existence of some mysterious governing power that takes excessive toll from the producers of our State. The farmers of the northwest have been building up various co-operative institutions to market their product and to protect themselves from the wheat gamblers, and now, wonder of wonders they have turned attention to politics.

For several months a number of men have been travelling over North Dakota in automobiles organizing the farmers into a Non-partisan political organization league. We advise the political aspirants to study this new movement, for it is rapidly growing to large proportions, it appears to be well-organized and will be a force to

be reckoned with in the coming coming political campaign.  
North Dakota Record.

## THE SLAUGHTERHOUSE

LONDON, Oct., 26.—"The last thirty Prussian casualty lists issued, says a Copenhagen despatch to the Daily Mail, "contains the names of 159,901 officers and men killed, wounded and missing, and bring the total Prussian losses published to 2,026,209."

"The lists do not include the 228 Bavarian, 211 Saxon, 288 Wurttemberg, and fifty-four navy lists. The last list include the names of seventy seven airmen killed, seventy-five wounded, nine missing and two prisoners and four Generals killed and

two wounded. The total German losses up to date are estimated at 4,500,000.

"Among the latest casualties are many killed by poison gas. The losses of the telephone and telegraph battalions in the trenches are very heavy."

"The Kaiser returned Sunday morning from the western front to Berlin," says another Copenhagen despatch to the same paper, "where he and the Kaiserin attended the celebration service on the five hundredth year of the Hohenzollern dynasty at the Cathedral."

"Several neutral onlookers, who saw the Kaiser driving to church, state that he looked pale, worried and very old. Even the Germans were surprised by his appearance."

# To the Grain Growers of North Dakota:

In 1911, there was formed, by farmers, a corporation, for the handling of grain on terminal markets, known as the Equity Co-operative Exchange. It began business in Minneapolis, Minn. and Superior, Wis. August 1st, 1912—a little more than three years ago. It began in opposition to the most strongly entrenched combine in our land—The Minneapolis Chamber of Commerce. By that institution we have been maligned and slandered from the public platform and in the subsidized public press; and have been persecuted in the courts.

But through it all we have won. We are handling now over 500,000 bushels of grain each week; and prospects are that this will soon be increased to a million.

We are building a terminal elevator in the city of St. Paul, wherein grain may be dried, clipped, and cleaned for the benefit of the farmers. We need your co-operation. Buy a share of stock which sells at par for \$50.00. Consign your grain to us at St. Paul and Superior, Wis. Help us grow, grow with us and become a part of our great purpose.
