GRAFTERS WILL SCOOT

That Lynn Frazier will be the next governor of North Dakota you can stick a pin here. Mr. Frazier was the man selected at the last primary election and he will be elected by the biggest majority of votes that was ever accorded a man running for the highest office in the state. Mr. Frazier stands squarely with both feet upon the platform which he is running. He is a man that requires no dictations whatever and is fully capable of handling the reins of state without any assistance from ex-politicians, grafters or hoodlums. It will be Mr. Frazier himself, who will be governor, and perhaps after he steps into the state house, the rats will commence to scuttle. — WARWICK WEEKLY SENTINEL.

The biggest room in the world is the room for improvement and most of us are in it—but won't admit it.

Improved Erie Cleaner and Grader. In our Erie you will find a new fanning mill to separate Oats from Wheat and Barley and grades it better than any mill made. This we do on our new roll system in place of a flat screen as all others have. This also takes cockle out, that others cannot do. This is the only way to grade by rolls; cleans all grain perfectly, also Grass Seed and Flax. We guarantee a perfect grader in our ERIE mill.
Wild Oats separator every Farmer needs, to get clean Seed Oats. We have also a perfect Smut machine. Every machine guaranteed.
Buy no other until you have written us for full particulars. Write at once.
