THE LEADER'S INFLUENCE

The Nonpartisan Leader celebrated its first anniversary September 21st. In its short career many political changes came in favor of the farmer. Its progress has been rapid and the Leader now has fine prospects of becoming a daily. It has had a wholesome and far-reaching influence not only upon the state of North Dakota but upon the neighboring states. We wish the Leader even greater success in the future and heartily congratulate those concerned upon the results of their first year's work.—GILBY CHRONICLE.

ROBINSON, BIRDZELL AND GRACE

The progressive movement which is again sweeping over the northwest will present new problems to the men who interpret laws.

It is essential that the men elected to the supreme court be men who will view the new problems in the light of the new conscience of the people.

To that end every farmer—and every other good citizen should—stand like a rock for the three men selected by the farmers at the late primary.

All three men stand on the platform of Equal Justice to All. Not law which filches the people for the benefit of the corporations—not decisions made for political purposes—not decisions for which the court feels it necessary to apologize in advance—but law in the light of common sense and common fairness.—CO-OPERATORS' HERALD.

A PRACTICAL EDUCATION

Education, like furniture, can be ornamental or practical. The Union Commercial College of Grand Forks, N. D., teaches the practical kind. A business education is practical because it is useful and usable. A knowledge of book-keeping, bank accounting, shorthand, typewriting, penmanship, business methods, etc., has helped many young men and women. Send for our free catalog and find out about our successful students. We furnish board for only \$2.50. Adv. 59-2t
