## TRY THIS ON YOUR HAIR 15 DAYS

Then let your mirror prove the results—Write today for the trial

Now that dermatologists and skin specialists are agreed that the beginning of baldness is the gradual thinning out of the hair and that that is due to a microbe in the scalp, it was not difficult for science to overcome it. So it is now possible to stop thinning out of the hair, falling hair, bald patches, itchy, scaly dandruff and other such afflictions of the hair and scalp. The new method strengthens the hair roots and follicles, makes the scalp healthy and sanitary and puts life, gloss and lustre into the old and growing hair. Tests show it will do this in 15 days in your own home—perhaps less in your case. Send your address today for the 15 days home trial to the

Mention the Leader When Writing Advertisers

## Nonpartisan League News

(Continued from page 7)

people is to be thrown into jail for his efforts.

"His trial appears to have been a mockery of justice, but the words of the court are final and one more man will have to pay the penalty of having opposed the plunderbund.

"We realize that the people have no power which will reverse the decision of the court. Much as we regret it, Mr. Townley will have to serve his sentence. Townley fought our fight and now must suffer for the fight he made. We for whom he fought and for whom he now goes to jail, can do nothing to release him.

"But are we to stand before the world as people who have no gratitude in their hearts for their benefactors? Will it be said of us that we allowed the power of greed to take from us our leader and that we uttered no word of protest?"

## NORTH DAKOTA

AS THIS issue goes to press, too late for any detailed report here, farmers' enemies in North Dakota have been foiled in a sensational last-minute attempt to close the Bank of North Dakota and make capital against the Nonpartisan league and the state officials in the recall campaign.

Politicians hostile to the farmers, with the aid of an "easy" state court judge in Stutsman county, had an injunction issued against the state bank, prohibiting the bank from receiving any deposits or any money from the sale of state bonds recently placed in the East. At the same time the injunction of the court did not prevent the bank PAYING OUT funds. The injunction was issued by the judge WITHOUT NOTIFICATION to the officers of the state bank or the state officials, so that, before it was issued, the state had absolutely no opportunity to be heard or make a defense.

The injunction was "temporary," crippling the bank until November 3, after the recall election, which is held October 28. The court ordered bank and state officials to appear November 3 and show cause why the temporary injunction should not be made permanent. The court issued the injunction on affidavits sworn to by anti-farmer politicians, which alleged the state bank was "insolvent." The plot was, of course, to prevent the bank making extensive loans to farmers before the recall election, out of the proceeds of the recent bond sale; to enable hostile newspapers to make a great play that the bank was closed for "insolvency," and to wreck the bank by forcing it to keep on PAYING OUT MONEY without allowing it to RECEIVE DEPOSITS or money from the sale of bonds.

State officials, however, immediately applied to the supreme court and secured an order dissolving the Stutsman county court's injunction and ordering the Stutsman county judge to appear November 1 before the supreme court to show cause why he should not be permanently prevented from interfering with the state bank. The bank therefore is now open and functioning normally. Even had the lower court's attempt to wreck the institution not been called off by the higher court, the state bank would have been able to meet all obligations and pay all demands for cash, although enjoined from receiving deposits or bond sale money, according to the bank's officers.
