

### A State Experimental Farm In Kandiyohi County.

The suggestions of Mr. Quam in the Farm Column of last week's Tribune in regard to a State Experimental Farm here in Kandiyohi county has impressed us and others whom we have spoken to about it, as of more than passing importance. The reasons advanced in favor of its location in this section of the State seems unanswerable. And following the suggestions of Mr. Quam in providing the means, it would not be necessary to have any appropriation from the general revenue fund. Now while the capital racket is on between the two cities, and both sides are anxious to make friends, we believe our representatives in the legislature have a good chance of working such a measure through, or at least preparing the ground for prompt action two years from now. This republican legislature ought to regard any reasonable claim for something from Kandiyohi county, not only in recognition of the able men who represent the county but as a matter of policy. We have within our borders the State capital lands, that under certain contingencies and proper manuring may become formidable levers on the big twins. We do not of course pretend to give advice in this matter to the Honorable Gentlemen now serving our county in the legislature. But we have talked with some leading republicans who favor strongly the location of a State Experimental Farm here. We ask such to use their influence with our senator and representative to further the project. Our legislative sessions as conducted of late years, and we believe the present is no exception, are mainly grumbling contests between a few ambitious localities. Now while we do not approve of such methods, we should nevertheless insist on getting our share every time. A State Experimental Farm for Kandiyohi county appears to us not only highly desirable and appropriate, but also entirely within the range of possibility. In this connection the Tribune desires also to suggest what appears from every point of view the best adapted farm in the county for the purpose—the Dale farm. We understand that the farm is for sale at a very reasonable figure. The farm is as good, if not better, than any that can be found in the State. It is at present in a high state of cultivation under a scientific system of diversified farming. It is now producing enormous crops. It has a variety of soil, heavy clay and sandy loam, as well as a suitable proportion of upland meadow and timber. It is beautifully located with a lake frontage and just the right distance from town. The railway connection of Willmar also makes it accessible from all parts of the State. Let the business men of Willmar take a hold of this matter and we can have a State Experimental Farm. Where is the old Board of Trade of Willmar?

Prof. Hilleboe in the March Hammer criticizes us for stating "that the majority of the voters are moderate drinkers, who do not see any thing wrong in taking a drink whenever they feel like it." Now we will state for the Prof's information that we have studied the temperance question in all its phases, under all kind of law, and in all conditions of society, for the last twenty years, and as a physician with unusual facilities for observation, as well as a citizen, and that we are thoroughly convinced that the above statement is true. We do not pretend to say that the majority of voters are moderate drinkers in the sense that the Prof. seems to interpret the term. Anything that is done with "moderation" as commonly understood, implies the use of that something in accordance with the dictates of average good common sense. Any man, or woman if you like, that drinks stimulants regularly three times a day cannot by any fair construction of language be called a "moderate" drinker. He or she is a regular, habitual drinker, and most likely a sot. Why try to read into our language something meaning never so much hinted at? Society may be divided into three classes as regard the drinking habit.

1st. Total abstainers. Their numbers are very few.

2nd. Temperance people, or as I use the term "moderate drinkers." That class constitutes nine-tenths or more of the people. This class seldom frequent the saloons, very few of them ever get drunk. But most of them keep a bottle somewhere

about the house, and a good warm sling after a long cold ride, or severe exposure, or a glass of beer instead of poor filthy water on a hot day is not considered by them anything out of the way. Such are "moderate drinkers." And it is our opinion as a physician of something like 20 years experience, that the good old fashioned sling is far better and safer medicine, both physically and morally, than nine hundred and ninety-nine of the patent medicines on which our rising generation is fed to-day. This class is the moderate, temperate, self-controlled people. They do not furnish the material for drinkers. You couldn't make them drinkers if the streets flowed with liquor. We need no liquor laws to save them.

3rd. Habitual drinkers. Such a person has inherited or formed a habit for strong drinks or other stimulating drugs. He is an inebriate. He suffers from a disease of the brain. The underlying trouble with that person, no matter from what station in society he may come, is a lack of mental force to control himself. He yields to temptation, often against his better judgment. This is the class that go to make drunkards. That class we want to protect from temptations, saloons, and cure of the disease if we can.

This is our view. We shall neither argue, nor quarrel with Prof. Hilleboe. We have not attempted to explain ourselves for the benefit of the Prof., but for the public. To write language that the Prof. cannot some way misconstrue is beyond our power. If the Prof. desires to empty some of his exuberant gull at us simply because we do not happen to see things just as he does, we see no way to prevent it. The Prof. cannot pick a quarrel with us.

Minneapolis Times, March 29: The state of Minnesota has four state normal schools in fact, and five, counting the school at the university, and it looks as if three more schools were to be added to the list, making a total of eight normal schools to be supported by the state.

The senate yesterday surprised itself by passing the bill establishing a state normal school at Duluth, but it is understood that this was simply carrying out an agreement.

If what some senators say be true, Duluth, Litchfield and Pipestone have formed a combination, and all three are to be given normal schools. Some time ago the senate emphatically refused to grant a normal school to Duluth, and intimated that no one else need apply either. The house passed a Duluth bill, but it is understood that this was simply carrying out an agreement.

The house passed a Duluth bill, but it is understood that this was simply carrying out an agreement.

The Duluth bill passed overwhelmingly 30 to 12 against. Notwithstanding the opinion of Senator Thorpe that the Duluth bill was killed, the Tribune asserted a couple of weeks ago that the Normal at Duluth was part of the capitol deal. This has been demonstrated to be true. Nor have we the slightest doubt that Litchfield will get a state normal school in the same deal. These hustling Litchfield fellows weren't working for nothing. Birch is of course happy that Willmar got left. He would rather see the city die than have it profit by anything a Populist suggested. Well, we don't blame him. He is made up that way.

Now let our representatives get a State Experimental Farm here; or let them show that they have got some kicking stuff in them. It takes more than talking to grapple with those sleek grab schemes.

We have for some time been maturing plans to have a good local news column in the Tribune. We should have had it in operation by this time had we not been taken sick. As soon as we can go our old gait again the details will be perfected and the plans brought into systematic operation. We have found that as long as the Grippe has hold of us we are not good for much.

The Grippe is rampant now and the best form of exposure is apt to bring on a fatal form of pneumonia.

Everybody is seeding now. The ground is fearfully dry. But when rain does start we are apt to have lots of it.

On account of sickness, both of himself and others, the Doctor has been unable to give as much attention to the issuing of the TRIBUNE this week as he desired.

### VILLAGE ELECTION.

To-day is election day, and of course the main issue will be "license" or "no license." The "dry" element is very confident of success, and it appears that there will be two tickets in the field. There are some who seem to think that the prohibitionists were over-confident in putting up a complete ticket of their own, thinking a wiser plan would have been to nominate but one ticket and merely make the fight on the liquor issue. But to-day will tell the tale, and probably it will be wiser to wait until the votes are counted before indulging in any comments on the situation.

The tickets as near as we have been able to learn at this writing will read something like this:

**DRY TICKET.**

For President, Solomon Porter; Treasurer, F. G. Handy; Justices, Ramsett and Otterness; Aldermen: 1st ward, John B. Boyd, M. O. Thorpe; 2nd ward, C. H. Sherwood and A. O. Sather; 3rd ward, Iver Olson and J. A. Hedin.

**WET TICKET.**

President, John Williams; Treasurer, F. G. Handy; Justices, Alderman and G. H. Otterness; Aldermen: 1st ward, I. T. Cramer and C. Hennings; 2nd ward, J. H. Wiggins and A. F. Nordin; 3rd ward, A. J. Ekander and E. Holt.

### A CORRECTION.

The last issue of the Hammer contains the following: "Did Dennis O'Brien and the Board do what was fair to the Independent District of Willmar, when the ten thousand dollar bond was sold at one-tenth of one per cent premium?"

Allow me to inform Mr. Hilleboe that I have hitherto labored under the impression that I did not do the fair thing to myself in that matter, as the following fact may convince even him:

At the time I made the bid for the bonds, I hoped to be able to sell the same to the Burlington Savings Bank of Vermont, through A. F. Kelley of Minneapolis. Said bank, however, refused to take them, for the reason that the district was heavily bonded and the bonds were to run only a short time. I next tried to dispose of them to H. P. Upham of St. Paul, who informed me that he had already declined to buy them. (Mr. Upham had held the bonds for whose refunding these bonds were issued.) I then turned the bonds over to L. O. Thorpe, who negotiated their sale in Minneapolis. After paying Mr. Thorpe's expenses in delivering the bonds, I found myself short \$2.50 of realizing what I had paid for same.

So, Mr. Hilleboe, taking \$2.50 out of my own pocket to complete the deal constitutes my only offense in connection with those bonds. It seems to me the Independent District of Willmar is hardly the right party to complain of same deal.

It convinced me, however, that a five-year bond is not desirable property to sell, when compared with a village bond running thirty years. To compare such a simply ridiculous, and is on a par with the rest of the accusations emanating from the Hammer.

DENNIS O'BRIEN.

### Dissolution of Partnership.

Notice is hereby given, that the co-partnership formerly existing between us, the undersigned, Olof Olson, John H. Styles and Axel F. Elfstrum, as Drugs, Books and Stationery dealers, at Willmar, Minnesota, under the style or firm of Olson, Styles & Co., is this day dissolved by mutual consent, and that the said business will in the future be carried on by Axel F. Elfstrum and John Aug. Weddall, who will collect all bills and pay all the debts of the late co-partnership.

Dated this 20th day of March 1895.

OLOF OLSON.  
JOHN H. STYLES.  
AXEL F. ELFSTRUM.

The new firm respectfully asks for a continuation of the liberal patronage given the old firm, and will endeavor by carrying a complete stock of goods in our several lines, and by prompt, careful attention to business to merit the favor of the public.

ELFSTRUM & WEDDALL.

Farmers are busy preparing for spring seeding.

Mr. H. Severson is laying the foundation for the creamery.

Mrs. C. A. Warner is overseeing the Belgrade hotel, as Mrs. Smith, the land-lady, is very sick.

Mrs. Ole Jacobson of Spicer, died on Thursday, March 28th. She leaves a husband and eight children to mourn the departure of a wife and mother.

Another death occurred at the home of P. A. Olson at Irving this week. On Wednesday the daughter, Clarisse, ten years of age, departed from this life. Mr. Olson is also seriously ill, and is hardly expected to survive. The terrible afflictions of this family appeal to the sympathy of all. It is but a week ago that the oldest son, Harold, 10 years of age was carried to his last resting place.

### NEW LONDON.

Lyman Chandler is down with a bad attack of pneumonia. His condition is very serious.

Swenson and Broberg are preparing to erect a large brick store on their corner. The size of the building will be 40x90 feet. A basement will be built under the entire building. This enterprising firm expect to make their new quarters second to none in the county in points of convenience and general appointments.

The Belgrade Dramatic Club gave a very creditable performance at the village hall last Saturday night, which was not attended as well by our people as it deserved to be.

### Sheriff Odell was in town Saturday evening on business.
