### The Eyesight!

Eye troubles are manifold. Sometimes the eyes are only tired; they need a rest and then are as good as ever. Some troubles are inherited. Other troubles arise from previous injuries. Most of them come from advancing age. In any case you should have determined by an examination what the trouble is. I make examination of the eyes free. I have the best instruments to be had. I have the latest works of scientific writers. I have made myself familiar with all new discoveries as far as they apply to my profession. Careful, conscientious service is my specialty. If your case is beyond my practice, I tell you so.

Say, friend! that's a bad cough you've got. Possibly your last cold has not entirely left you, and you should see to it that you use Mossberg's Cough Remedy in time to fortify your lungs against the chilling blasts of the early winter. Perhaps that's not a cold you've got, but at any rate if you feel one coming on you should try Mossberg's Cough Remedy before you find yourself in the grip of a hacking cough that will stand by you all winter.
