

# SOLDIERS LAND IN CUBA.

### Gen. Shafter's Army Disembarks at Baiquiri, a Few Miles from Santiago.

## ARE PROTECTED BY SAMPSON'S FLEET.

### Guns of the Warships Drive the Spaniards from Their Positions—Cervera's Desperate Plan—Invasion of Puerto Rico—Other War News of Interest.

Washington, June 23.—Official dispatches received last night by both Secretary Alger and Secretary Long indicated that the landing of troops near Santiago was progressing most favorably. The first landing was effected at Baiquiri yesterday morning, and met with comparatively slight resistance. This was stated in a dispatch received from Gen. Shafter by Secretary Alger, which, though brief, was full of news and meaning. It was dated Playa del Este, and said: "Landing at Baiquiri successfully. Very little if any resistance."

### Sampson Reports.

Shortly after Secretary Alger received his dispatch, Secretary Long received a more extended cablegram from Admiral Sampson. It is as follows:

"Landing of the army is progressing favorably at Baiquiri. There is very little, if any, resistance. The New Orleans, Detroit, Castine, Wasp and Swanee shelled vicinity before the landing. We made a demonstration at Cabanas to engage the attention of the enemy. The Texas engaged the west battery for some hours. She had one man killed. Ten submarine mines have been recovered from the channel of Guantanamo. Communication by telegraph has been established at Guantanamo."

### Work of the Warships.

Later news of the events attending the landing of the troops at Baiquiri say that everything went off as if moved by clockwork. First the fleet opened up and kept the gunners on the forts busy while the small boats clustered around the transports to get their cargoes of men. The first of the boats were on their way to the shore when the Spaniards began to issue from the fort back of Baiquiri.

### A Battle in Progress.

This Spanish force had not fairly formed when, with yells of "Viva Cuba libre!" and "Viva los Americanos!" Gen. Castillo's force of 1,000 Cubans burst out of the woods and began firing volley after volley at the Spaniards. The latter had been none too steady under the fire from the American ships, and this unexpected attack by the Cubans rattled them badly. They got back to the shelter of the forts, the Cubans pressing them hard. The fight between the Cubans and Spaniards is still in progress, but out of sight from the sea.

The New Orleans, Detroit, Castine, Wasp, and Swanee attended to the forts and batteries in the immediate vicinity of the landing place, while the Texas did the heavy work further down the coast.

### Worked Under Heavy Fire.

Playa del Este, June 23.—Four picked crews removed seven submarine mines from Guantanamo harbor under a heavy fire from shore batteries. The Marblehead and the Dolphin replied to the Spanish shots.

### Cervera's Desperate Plan.

Santiago de Cuba, June 20, via Kingston, Jamaica, June 23.—Cubans have brought information to Admiral Sampson that Admiral Cervera is prepared to make a desperate effort to take his ships out of Santiago harbor at the first favorable opportunity. It is said to be the Spanish admiral's hope to save at least a portion of his ships from capture, and in a fight to sink some of the American craft.

### Invasion of Puerto Rico.

Washington, June 23.—The invasion of Puerto Rico will begin within two weeks. The troops will land probably on the south or east side of the island, and the strongly fortified town of San Juan, on the north coast, will be taken from the rear. Maj. Gen. Miles will soon go to the front, where he will inspect the situation, and then to Puerto Rico. The landing without much resistance of Shafter's army has filled the administration circles with enthusiasm, and it is generally conceded that the prompt occupancy of a strong position by Shafter's army near Santiago will bring the invasion of Puerto Rico much nearer in the matter of time.

### Will Leave Monday.

Washington, June 23.—Quartermaster General Ludington, of the war department, received a telegram from Quartermaster Long at San Francisco saying that the third military expedition for the Philippines will leave San Francisco Monday next on six transports, namely, the Ohio, Indiana, City of Para, Morgan City, Valencia and Newport. He added that Gen. Merritt, commanding the new department of the Pacific, and prospective governor of the Philippines, probably will accompany the expedition on the Indiana.

### The Cadiz Fleet.

London, June 23.—The Gibraltar correspondent of the Daily News says: No credence need be given to rumors that the Cadiz squadron will return to that port. Admiral Camara could not return without riots at Cadiz and Madrid, particularly as he said at the banquet before his departure he would never return before his flag had been stepped in American blood. You will find that the next move of the squadron will be to the Canaries.

### Michigan Populists.

Grand Rapids, Mich., June 22.—The middle-of-the-road populists held their state convention here Tuesday, and nominated a full ticket, headed by Sullivan Cook, of Hartford, for governor. The platform is lengthy, and denounces fusion in strong terms.

Washington, June 18.—The navy department has received the following from Admiral Dewey:

"Cavite, June 12, via Hong-Kong, June 17.—There is little change in the situation since my telegram of June 2. Insurgents continue hostilities and have practically surrounded Manila. They have taken 2,500 Spanish prisoners whom they treat most humanely. They do not intend to take the city at the present time. Twelve merchant vessels are anchored in the bay with refugees on board under guard of neutral men-of-war; this with my permission.

"The health of the squadron continues excellent. The German commander-in-chief arrived to-day. Three German, two British, one French, one Japanese men-of-war now in port. Another German man-of-war expected. The following is a list of the Spanish vessels captured and destroyed:

"As America protects the Cubans, so she will protect the Philippines. She will give us the liberty for which we have struggled for years. All the world will respect us when America protects us. We rebelled against Spanish authority because of the corruption of the government officials, her crushing taxes, her horrible cruelty, and her refusal to execute the reforms which she promised.

### Blood-Cleaning.

House-cleaning is a duty in every well-regulated household. People don't wait until the filth becomes painfully apparent, but it stands to reason that in every day use more or less dust or dirt accumulates. It is so with the human blood. From the enormous variety of eatables taken into the stomach, a quantity of useless material is bound to accumulate in the blood and clog the free and wholesome flow in the vessels. Every person should from time to time have a "blood-cleaning" and the best cleanser and blood purifier is Cascarets Candy Cathartic. We recommend them to all our readers.
