A Serious Charge.

A. M. Willey, a brakeman on the Willmar division, was brought before Justice Olson last Friday on the charge of criminal assault on a twelve year old girl. The complaint was made on Thursday and the serious offense with which he is charged is said to have been committed on the night of the 9th inst. Willey was the rear end brakeman on No. 37, Conductor Martin's west bound freight. From what we have learned of the affair the young girl and a brother, aged 15, were bound for Morris, and were riding in a box car loaded with emigrant goods, which had been placed in their charge. When the train was near Smith Lake, the brakeman seized the opportunity during the boy's temporary absence, whom it is alleged he had told to go into the caboose to warm himself. The cries of the girl attracted the attention of the other train hands, and the circumstances were of such a character as to warrant his arrest upon the arrival of the train at Willmar. Willey is said to be a married man whose family resides in Iowa. His hearing on Friday resulted in his imprisonment in the county jail to await the action of the grand jury.

Notice.

CHIEF OF FIRE DEPARTMENT.

ANXIOUS TO GO.

Fifteenth Minnesota Regiment Looks Longingly Toward Cuba.

[Correspondence to the Minneapolis Tribune.]

Camp Meade, Pa., Nov. 14—These are the closing days of Camp Meade; as each day succeeds the other, one by one the regiments are leaving for their various stations in the south. Orders and counter-orders come fast and conflicting, and often an order issued in the morning is countermanded before night.

The chief topic of conversation among both officers and men is the recent order assigning the Second corps to Havana with Gen Lee. This has been the ambition of all, and the news of such assignment is almost too good to be true. In case the present orders hold, the Third brigade, including the 15th Minnesota and two Pennsylvania regiments, will be stationed with corps headquarters in the city of Havana, because the Third is the senior brigade in the organization, another instance of luck in odd numbers for the 15th.

The corps officers are inclined to protest against removal to Augusta, and recommend a revocation of the operating instructions, and instead have the troops sent directly from here to Cuba. The difference in temperature between here and Augusta is not much, and since the men are in such splendid health, they fear the result of a change of water and climate, with only a short time for recovery, since, as the order now stands, the troops will sail before the first of December. The war department has not seen fit to look at it that way as yet, and probably will not.

The only orders the 15th has had so far relate to supplies and travel rations. Each company quartermaster has been instructed to draw three days' travel rations, and the full strength of the regiment has been taken for the purpose of securing transportation, etc.

Col. Leonhauser is still absent in Philadelphia, and it is thought by some that the delay in paying the men is caused by his absence, but the fact is, mistakes were made in the muster rolls of one of the companies. The paymaster was in the regiment on Friday last, and the delay is a severe disappointment to all.

The boys all want a tribute paid to the hospitality of the farmers in the vicinity of this camp. They are a most generous lot of people, and a soldier never goes hungry who stops

at one of their homes at meal time, or any other time, for that matter, and they serve good meals, too—possum with sweet potatoes baked, pie, cake, peaches and cream. It is better imagined than described how a hungry lot of soldiers feel when confronted with such a repast, but it is a noteworthy fact that no Minnesota boy has yet been guilty of abusing such generosity, though others have.

Another great boon to the soldier has been the "Soldiers' Rest" at Harrisburg. Here are furnished all the comforts of home, places to lounge, bathe, play cards and write. Stationery and stamps furnished free, and meals served without charge, all done by kind-hearted and sympathetic women. It has been a blessing to more than one regiment, and a beautiful

example of the kind-heartedness of the people of that old-fashioned, whole-hearted city.

A recent press report from this camp to a St. Paul paper stated that the 15th rebelled against vaccination, and were forced under guard to take this precaution against smallpox. This doubtless refers to the 15th Pennsylvania, as there was not a kick in the 15th Minnesota regiment. It is not a kicking organization, and doesn't court such notoriety.

Saturday was general inspection day. All drills were put off for the purpose of giving the boys an opportunity to clean up. All buckles and brass work were polished and dishes shined like new. When lined up for review the boys looked like a different organization altogether, and they

appeared to march better.

Yesterday the camp was almost deserted, most of the boys having gone to the mountains for chestnuts or persimmons, or to visit Giant's cave, a large and quite famous underground passage through one of the rocky clefts near by.

CO. D. NOTES.

Corporal Fredenberg, who was taken sick while on furlough in Jersey City, is back in the company once more. Richard Regan and Art Rogers have also returned from Iowa.

Sergeant Ed. Thorson and Al. Berger have returned from a five days' trip to New York city.

Lieut. Haley is now adjutant of the Third battalion. He fills the position very gracefully.

Sergeant Davis, that big jolly, good natured sergeant, whom everybody likes, is expected back in a few days.
