Not Correct.

From the report of the daily papers we learn that Co. D, of Willmar, was the ring leader in the trouble of the camp of the Fifteenth regiment. They are still under heavy guard awaiting the action of the court martial which will soon be held.—Benson Monitor.

We have read the dailies but can find nothing to base that idea on. It is true that there were members in Co. D who were rash enough to commit the terrible blunder, but to take the Co. as a whole is eminently unfair and the Monitor owes it an apology.

Have You Heard Of It?

SCOTT'S EMULSION

You may have heard about SCOTT'S EMULSION and have a vague notion that it is cod-liver oil with its bad taste and smell and all its other repulsive features. It is cod-liver oil, the purest and the best in the world, but made so palatable that almost everybody can take it. Nearly all children like it and ask for more.

looks like cream; it nourishes the wasted body of the baby, child or adult better than cream or any other food in existence. It bears about the same relation to other emulsions that cream does to milk. If you have had any experience with other so-called "just as good" preparations, you will find that this is a fact.

The hypophosphites that are combined with the cod-liver oil give additional value to it because they tone up the nervous system and impart strength to the whole body.

The hard times dance at the town hall last Friday evening was largely attended and a general good time reported by all. The good time is due largely to the first class music that was rendered by Prof. Swalin, of Willmar, assisted by Mr. Robert Otterness, of Willmar, who is a master with the flute, and by Miss Bertha Salter as pianist. Prof. Swalin is very popular with the young folks of Atwater and vicinity, and this fact together with the fact that the music that he furnishes is the kind they like to dance by, always insures a good crowd.—Atwater Republican.

Any adult suffering from a cold settled on the breast, bronchitis, throat or lung troubles of any nature, who will call at Carlson Bros. & Frost, will be presented with a sample bottle of BOSCHEE'S GERMAN SYRUP, FREE OF CHARGE. Only one bottle given to one person, and none to children without order from parents.

No throat or lung remedy ever had such a sale as BOSCHEE'S GERMAN SYRUP in all parts of the civilized world. Twenty years ago millions of bottles were given away, and your druggists will tell you its success was marvelous. It is really the only Throat and Lung Remedy generally endorsed by physicians. One 75 cent bottle will cure or prove its value. Sold by all druggists in this city.

After several days of intense suffering, death came as a welcome relief to Mr. F. Hallberg, who passed away at his home in this village last Wednesday morning at 1:45. Death resulted from a complication of diseases covering a period of about twelve years. Deceased was apparently enjoying good health, and to those not intimately acquainted with him the news of his death came as a great surprise. He was confined to his bed only a short time.

Deceased was 75 years, 5 months and 29 days of age at the time of death. He was born in Ronneholm, Skane, Sweden; immigrated to America and arrived in New York the 10th day of August, 1881. After a visit with relatives in Providence, Rhode Island, he came to Minnesota in the fall of that year. He first settled in Atwater, removing later to Willmar, where he has resided for the last seventeen years. He was married to Mrs. Anna Margareta Norell in 1883, who with her son John are the surviving members of the family residing in Willmar. The children by his former marriage who survive him are: Two sons—Nels Hallberg of Genessee, and another son in Sweden; three daughters—Mrs. Marie Flygare, of Genessee, and Mrs. Augusta Younggren and Mrs. Matilda Frasser, both residing in Providence, R. I.

The funeral was held last Sunday afternoon at three o'clock, services being conducted in the Swedish Lutheran church by Rev. A. F. Nelson. The remains were interred in the Conference cemetery west of the village.
