Fire at Revvills.

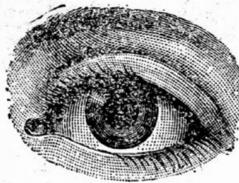

Reville, Minn., March 12.—At 8:30 o'clock this morning fire was discovered in the basement of J. H. Dale & Co.'s brick block, and in a few minutes the entire basement was so charged with gas and smoke it was impossible to locate the fire and water was indiscriminately poured in for an hour before the flames were under control. It was a close call for the southeast part of town, as there was a high wind blowing. The loss of Dale & Co. will be large, as they had just received their spring stock. There will be little salvage on goods. The stock was valued at \$20,000, with an insurance of \$10,000. The damage to the building was \$3,000 and is covered by insurance.

'Justice' Triumphant. It is a notorious fact, and one not even unknown to our "rigid enforcement" village authorities, that John Anderson has for a long time been running an illegal "joint" and with the aid of his three assistants has been dishing out Hamm's Exelsior beer and kindred substances to thirsty people. Yet the aforesaid authorities have lulled the goddess of justice to sleep with the plaintive lullaby, "We can get no proof." Last Monday John had been loading up one of his customers to the fighting point and then threw him out to make room for fresh customers. The ejected customer, Galen A. Plagman, was not satisfied with this rather impolite return for the sacrifices he had made at John's altar, and made a Fitzgibbon pass at John's solar plexus, forgetting that a glass door separated them. The result was a smashed pane for John and a terrible pain from a badly cut hand for Plagman.

This gross assault on one of the pillars of society shocked the authorities deeply and woke them out of their lethargic condition. Plagman had escaped. He must be brought back. The majesty of the law demanded summary vengeance on the wretch who had dared lift his hand against a blind-pig. The wires were nearly melted in the frantic endeavors to locate the perpetrator of this horrible crime. Finally he was located at Penock. Our efficient sheriff girded up his loins and dashed forth in quest of him. He came back like a Roman general leading his captive. The court fined Plagman \$20 and costs or thirty days in jail. He took the latter.

The community breathes easier. They have now the sweet and consoling knowledge that no man can safely carry on a blind-pig's property. Carping critics may deplore the fact that the authorities have not been so relentless in running down the blind-piggers, forgetting who were the main workers in electing the aforesaid authorities, but the people in general will fully realize that fact.
