Tornquist & Kalbee have taken the contract to move the schoolhouse in Dist. 45, town of St. Johns, from its present location to the crossroads near Ole J. Pederson's place, half a mile south. They went out there Monday afternoon to begin work.

Have You Seen the Hero Fanning Mill in Operation?

If you have, please tell your neighbors about it.

If you have not, we invite you to examine a strictly superior article.

Notice how oats and wheat are separated to the perfection of hand picking by a new and superior method; how the blast is brought to the efficiency of a mill cleaner, and how the extra long screens are worked by a double motion. Take notice of all the other points, and try the machine for yourself and with your own sample grain, and you will see why it is everywhere highly appreciated by all who use it, and why it was sold in ten states within four months after the first machine left the factory. Sold by GUST A. ERICKSON, Willmar, Minn. 30t

### Sayings from the Ram's Horn.

There is no fear in faith.

Righteousness is the richest reward of the right.

The miracles that men demand would almost always be catastrophes.

The church does not keep men whole-some by the refrigerator method.

No man knows the reality of life till he recognizes the unreality of the world.

When faith fails selfishness prevails.

The force of gravity is surpassed only by that of happiness.

It is a good deal easier to forget what we ought to know than it is to know what we ought to forget.

When the devil preaches he always takes a text.

Our saddest infirmities may bring on our best afflictions.

Our interests determine our influence.

Prayer will not flow where malice is allowed to grow.

It is always easier to ridicule a truth than to realize it.

When a man goes on the wrong track he will find it impossible to flag the boys behind.
