### The Legend of the Snowdrop.

An old legend gives the following as the origin of the snowdrop: After Adam and Eve had been driven from the garden of Eden Eve was disconsolate. One day as she sat silently grieving an angel appeared and sought means to comfort her. She longed for the flowers, but the fast descending snow was wrapping the barren earth in a robe of white.

As the angel stood and spoke words of hope to the weeping, repentant woman she caught a snowflake, breathed gently upon it and said:  
 "Take form, pure snowflake, bud and blossom and be a comfort to humanity, now and forever."  
 In a twinkling the snowflake changed into a beautiful flower, as white and pure as the snow itself, and when Eve beheld the newborn blossom gladness and hope came to her heart, and she smiled through her tears.  
 Having fulfilled his mission of love, the angel departed, but where he had stood there immediately sprang up a circle of perfect snowdrops.

### Approaching Marriage.

Cards are out announcing the wedding of Mr. Anton Peterson of Willmar to Miss Anna Lund of Minneapolis. The event will take place at the home of Mr. and Mrs. C. Christanson at 1619 Madison street, Minneapolis, on Saturday of this week.

### STEEL PLATE COMBINE.

Movement for a Consolidation of Mills Is Now Under Way.  
 New York, Nov. 13.—The Herald prints the following:  
 It is stated in trade circles that a consolidation of steel plate mills is being planned, and that the deal is being carried on under the direction of Charles M. Schwab, president of the United States Steel corporation. Conferences have been held in this city, the latter one of which took place recently in Mr. Schwab's office, but so far the matter has not reached a stage at which it could be presented to bankers.  
 Since Feb. 15 last a very rigid trade alliance has existed in the steel plate business. It was commonly known as the "plate pool," while its official name was the association of American steel manufacturers. This association controlled incidentally the structural steel manufacturers. There are about 14 important plate manufacturers in the pool, some of which have been absorbed by the United States Steel corporation. The present efforts of the promoters have been directed to consolidate into one company all the independent or outside steel plate makers. The necessity of a closer alliance than a mere association has become apparent within the last few weeks.

### NEW CONSTITUTION CARRIES.

Charge of Fraud Made in the Alabama Election.  
 Birmingham, Ala., Nov. 13.—The new constitution has been ratified by a large majority. It probably will reach 30,000 and will not fall below 25,000. The anti-radicalists charge fraud in a number of counties, notably Jefferson, Dallas and Pickens. This county gave 2,500 majority for the new constitution. General Shelly chairman of the anti-radicalists, claims that he has won the fight, but rather indicates that he does not expect to have it so recorded. He states, however, that he will push the fight to the bitter end. All things told the new constitution has been adopted and will be the law of Alabama.

### CAPTURED BY BOERS.

Alleged Taking of a British Lager Not Reported in London.  
 New York, Nov. 13.—Dr. Leyd's friends, says the Berlin correspondent of The Times, assert that a British lager, containing remounts for the cavalry now on the way from England, was captured by the Boers "near Cape Town."  
 The circumstances that this success of the burghers is not known in London, according to these informants, is due to the fact that it is not the custom of the British to mention the loss of war material unattended by loss of life.

### Last Boats From Nome.

Seattle, Wash., Nov. 13.—The steam schooner Arctic arrived shortly before midnight from Nome with 113 passengers and \$250,000 in gold. She was the last boat but one to leave the northern port and brought down many prominent business men.

### BRIEF BITS OF NEWS.

Fire at Marshalltown, Ia., totally destroyed the plant of the Marshall Oil company, including 3,000 barrels of oil.  
 Hon. Henry Clay McDowell has been elected to succeed Judge John Paul as United States district judge of the Western district of Virginia.  
 Judge Tuley has modified his order in the free text book case to allow the city of Chicago to purchase school books for children whose parents cannot buy them.  
 A telegram received at the state department from Auckland, N. Z., announces the death at Apia, Samoa, of Luther W. Osborn, United States consul general at Apia.

### A Career Ending Joke.

This is a true story about one of the mayors of Kansas City. He was mayor when the incident occurred, not so very many years ago. Two newspaper men, both very good friends of the mayor, were about to leave town, and they asked Mr. Mayor to help them celebrate their departure.  
 It was a hot day in summer, and after an hour or two of convivial indulgence the mayor of Kansas City was very much under the influence of liquor. The newspaper men were feeling jovial, but they were still able to walk around. It finally became necessary to do something for the mayor. Seeing a fruit wagon pass, one of the newspaper men ran out and hailed the driver. When he drew up to the curb, he was asked whether or not he wanted to make \$2. He replied that he most certainly did.

### Extremes in Iceland.

In Iceland nature seems to have deserted all her ordinary operations and to have worked only in combining the most terrific extremes which her powers can command. Nor is she yet spent. After the lapse of ages the fire of the volcano still bursts out among the regions of eternal snow, and the impetuous thundering of the geysers continues to disturb the stillness of the surrounding solitude.

### A Gate Covered With Shoes.

The principal gateway at Allahabad is thickly studded with horseshoes of every size and make. There are hundreds of them nailed all over the great gates, doubtless the offering of many a wayfarer who has long since finished his earthly pilgrimage. The sacred gates of Somnath, in the fort of Agra, are similarly adorned.

### Pennock Nuggets.

The days have been cold and dark and dreary and Pennock has as a result assumed a gloomy aspect. Farmers are busy hauling grain now. Mr. Berglund's store is nearly finished and he expects to move into it this week. W. A. Strand is busy grinding feed and sawing wood now-a-days. Mr. Doble has been out in the country carpentering for the last two weeks. Miss Josie Ellingson from Rockdell, Minn., has been visiting with her brother, Peter, for the last month. Our buttermaker made a flying trip to Minneapolis last week. The fantastic toe was stepped at P. Ellingson's last Thursday evening. Some of the Willmar high steppers were seen around here last Thursday evening on a prospecting expedition, evidently seeking the north pole, but as they were not fully equipped for the icy regions of the north they found it advisable to challenge Jim Hill to convey them back to the flesh pots of Willmar.

### Don't Read, Not Holes.

"There used to be a famous character in our part of the world named Frank O'Connor," said a Cincinnati man, "and the stories of his doings and sayings still form a large part of the staple anecdotes of the country which he used to permeate."  
 "One of his stock expressions has passed from local to national use. If any one did a particularly clever thing or said anything that especially struck him, O'Connor would say, 'That shows almost human intelligence,' and now when far and near I hear that expression used it conjures up memories of my genial old friend."  
 "Up in Ontario at one time ill fortune compelled O'Connor to accept a job on a farm, where a friend one day found him, the sweat pouring off his brow and a spade in his hand. 'Hello, Frank!' he unkindly called. 'Are you doing very well digging out postholes?' 'I'm not,' was the tart response of O'Connor, who was nothing if not literal. 'I'm digging out mud and leaving the holes.'"

### He Wasn't Deported.

Shortly after the Chinese exclusion act was passed the secretary of state received a letter from Pennsylvania, signed by a Chinaman. The writer said that he had been interested in this legislation and that he fell within the conditions of this act. He had come to this country under false pretenses, and hence he should be deported immediately. The request was so strange that the secretary of state ordered an investigation. The agent reported a few days later that the Chinaman's statement about the way in which he entered this country was correct and that he should be deported. There was just one drawback to this programme, however. The Chinaman had been convicted of murder and sentenced to life imprisonment.

Three-a-Week Edition.  
 The Most Widely Read Newspaper in America.

Time has demonstrated that the Thrice-a-Week World stands alone in its class. Other papers have imitated its form but not its success. It is, in fact, almost a daily at the price of a weekly and you cannot afford to be without it.  
 Republican and Democrat alike can read the Thrice-a-Week World with absolute confidence in its truth.  
 In addition to news, it publishes first-class serial stories and other features suited to the home and fireside
