Is the St. Louis Fair a real World's Fair?

Yes, more so than any other Exposition ever held.

Why?

Because 50 different nations (to say nothing of 44 of our own States) will be represented; because the St. Louis Fair is twice as big and cost nearly three times as much as the Columbian Exposition; because it represents the latest triumphs of civilization.

About getting there?

Take the Rock Island System. Only one night from St. Paul and Minneapolis.

WHAT IS CATARRH?
Hyomel Only Guaranteed Cure for This Common and Disagreeable Disease.
Hyomel cures catarrh by the simple method of breathing it into the air passages and lungs. It kills the germs of catarrhal poison, heals and soothes the irritated mucous membrane and effectually drives this disease from the system.
If you have any of the following symptoms, catarrhal germs are at work somewhere in the mucous membrane of the throat, bronchial tubes or sinuses of the lungs.
offensive breath
dryness of the nose
pain across the eyes
pain in back of the head
aching of the body
droppings in the throat
tendency to take cold
burning pain in the throat
hawking to clear the throat
pain in the chest
stitch in side
huskiness of voice
discharge from the nose
stoppage of the nose at night
sticking of the mouth open while sleeping
tickling back of the palate
formation of crusts in the nose
dryness of the throat in the morning
loss of strength
variable appetite
low spirited at times
raising of frothy mucus
expectorating yellow matter
difficulty in breathing
frequent sneezing
Hyomel will destroy activity of all catarrhal germs in the respiratory organs and in a few weeks the cure will be complete.
This is a strong statement, but A. E. Moseberg emphasizes it by agreeing to refund your money if Hyomel does not cure.

10 ON YOUR MONEY 10 per cent

The Greatest Investment Opportunity of Your Life

Invest in the great mine, the successful mine, the mine which has struck it rich. The attained income of the company is more than double the amount required to maintain the dividends perpetually, and is increasing rapidly and enormously. The reserves of ore are opened for years ahead, insuring regular and increasing production. We are extending and improving our equipment. When the plant is completed we shall have an income sufficient to pay 50 to 80 per cent dividends.

\$120,000,000 to Divide Among Our Shareholders

Expert estimates of the ore in the opened vein give 14,000,000 cubic feet of high grade ore and 50,000,000 cubic feet of lower grade ore. This gives 1,000,000 tons of ore averaging \$75 a ton, \$75,000,000, and 3,000,000 tons ore averaging \$15 per ton, \$45,000,000. A total of \$120,000, 0 to divide among our shareholders.

Secure Wealth by Creating It
We have developed a solid body of the finest copper ore ever opened in the great wealth producing copper belt of Arizona. We cannot get it out with our hands. We are selling stock to provide additional machinery for taking out this rich ore. When we install the required machinery we can take out millions of pounds of copper per year. A company in our copper belt has taken out \$60,000,000 worth of ore in the last 20 years. We have as fine ore as they ever produced. Join us in putting in this machinery and share this immense wealth.

The Best Investment Ever Offered
The company is accumulating an ore reserve at the mine. This is set aside to maintain dividends on this stock permanently. It is already sufficient to pay the dividends for many years to come. No other investment ever offered so great a measure of protection to the investor. 10 per cent dividends is the rate for 1905. We have paid 6 per cent on the preferred stock for 1904.

By Leaps and Bounds
When a mine has opened a great ore body and installs machinery for large production its stock increases in value by leaps and bounds. We have the ore and are rapidly securing the machinery. Our stock will increase in value very rapidly. Now is your opportunity to take advantage of the increase.
There is but a small block of this stock offered for sale. Act quickly if you would secure this great opportunity.

For full particulars, prospectus, maps, etc., call on or address WALTER DeLAHUNT, Willmar, Minn., or ANTON M. ANDERSON, Route 1, Hawick, Minn.
