The Gazette is giving the

Fourth ward a chastisement for the terrible mistake made in nominating Peter Freeberg for alderman.

Mr. Freeberg was fairly nominated for the reason we presume that the people of the ward thought that he possessed the qualifications they wanted in one of their aldermen.

The Degree of Honor will give a card party at the Odd Fellows hall next Wednesday evening.

All of the Willmar relatives of Mr. and Mrs. Chris. Pedersen, First Ward residents residing at 12th street and Campbell avenue, assisted them last Sunday afternoon in celebrating their 25th wedding anniversary.

A series of district meetings was held at the Lutheran Free church on Tuesday, Wednesday and Thursday last week, which were largely attended.

About forty friends of Mrs. Mary Lawler took possession of her home in First ward last Friday evening, the occasion being a surprise party planned by her neighbors to help her celebrate her birthday anniversary.

The Tribune believes that every legitimate business interest in the city, including the railway service, will be greatly benefited by the re-establishment of the no-license policy.

Above the mass of personal abuse being used in the city campaign, the issue is clear. The citizens' ticket stands for a civic principle and an economical city administration.

The Gazette is throwing out aspersions on the sincerity of the Tribune on the temperance question.

A baseball team was organized Tuesday afternoon. Oswald Frankgaard was elected captain and Frank Adams manager.

A Bangor (Me) woman sat up very late the other night waiting for her husband to come home.

One of the most remarkable examples of mistaken criticism is found in Bentley's edition of Milton.

The unearned portion of the saloon revenue is subtracted there would be about \$800 less than nothing in the general fund of the city.

Prof. Hilleboe and Dr. Johnson have both informed representatives of the Tribune that they have had no apologies to offer anyone for the parts they took at the mass meeting.

He had finished his introductory remarks and was about to propose, when he discovered that his proposal would be treated with contempt.

"Go on, Mr. Spritzer," she said impatiently, tapping her foot on the carpet as he paused in his remarks.

"I was about to say, Miss Hilder," he continued, "that I am aware that the human heart, especially a woman's, is a delicate thing, and I come tonight to correct a wrong impression which you have been under for some time, I think. To be plain, Miss Hilder—because I do not wish to cause you future suffering—let me state that I have never cared enough for you to ask you to link your lot with mine.

"There is no telephone question in this city,"—C. F. Spencer's paper.

The above are two significant expressions. They both mean the same thing. The Gazette is more guarded in its utterances, but otherwise it agrees that there is no occasion for controversy—

that the telephone question will take care of itself when the time comes. When dealing with such a formidable concern as the Bell telephone trust, it appears that there can be no possible harm in a little active watchfulness for the people's interest, and we prefer to see men elected to make this deal who have been placed in nomination by a mass meeting of citizens and committed to take aggressive action for the rights of the city.

The telephone company wants "conservative and fair-minded men" on the council who are not committed to any definite line of action. The people should elect such men as are definitely committed to carry out the people's wishes and who are aggressive and active in their support of the same.

Some Ways of Falling.

A visitor from another city here on a tour of inspection of the public schools came to a West Philadelphia school one day when the pupils were writing original sentences on the blackboard and found an opportunity to air his pet hobby of avoiding superfluous in the use of words.

Rally Monday Evening.

Dr. W. Stuart Leech of Brocton, has been invited to address the citizens of Willmar next Monday evening on the license question.

How his father treated his negro slaves. A murdered man from Kandiyohi county. St. Cloud Texas.

The unfortunates who are yet to father and mother. The beautiful 16-year old girl and her doctor.

GRUE, March 25.—Ed Carlin and family moved to Kandiyohi Saturday, where Mr. Carlin intends to go into the livery business.

The entertainment and trinket social at the Grue schoolhouse Saturday evening was attended by a crowd that overtaxed the seating capacity of the building.

The Young People's society of Eagle Lake will meet in the Grue schoolhouse on Thursday evening, March 28.

High School Notes.

Miss Nora Pedersen of Benson visited the high school Tuesday morning.

Eight of the students are busy studying up for a debate to be held April 12.

There was a rumor around the high school that the barbers were going to raise the price of wool and most of the boys had their hair cut immediately.

Most of the students expected a holiday on Friday, but they will nevertheless go to school and study.

A literary program will be given on Friday afternoon in the high school room.

A baseball team was organized Tuesday afternoon. Oswald Frankgaard was elected captain and Frank Adams manager.

A Mean Trick.

A Bangor (Me) woman sat up very late the other night waiting for her husband to come home.

One of the most remarkable examples of mistaken criticism is found in Bentley's edition of Milton.

On account of all the snow last winter a great part of the fields especially the low lands are now under water and it takes a long time of dry weather to make the field fit for any spring work.

The roads in this vicinity are very bad in some places at present, it being almost impossible at some points to get thru with an empty wagon. This should be remembered when road work is being done later on.

Mr. and Mrs. Carl Lund, who moved down to New London, Wis. ago, are busy transporting their things back on the farm again.

Mr. Lund has now taken a good long rest, and his limbs all sound and in working order, there is no doubt but that he will commence farming again with his usual energy.

Some Facts

REGARDING THE CENTRAL Life Assurance Society

Consider them BEFORE taking out insurance. To consider them AFTER will only bring regret.

CENTRAL Life was organized in 1896 under Iowa laws. EVERY year its business has greatly increased.

NEARLY \$150,000.00 have been paid in death claims. THESE claims have been settled very promptly and satisfactorily.

REAL Estate loans are deposited with the State to secure reserve. ALL risks are selected with utmost care by competent examiners.

LARGER results have been obtained for each dollar spent by this company than by any other.

LARGER gains have been made by the Central Life than by other companies. IOWA'S Insurance Laws are as good as those of any State in the Union.

FAITHFULNESS, fairness and fidelity are the watchwords of our officers. EXAMINATIONS have been invited, and have been made by state officers and by the legislative committee without a single criticism.

The examiners unite in saying that the interests of the policy-holders are fully protected.

WHAT MORE COULD BE DESIRED? Call and let us explain our policies.

Genoa of today is not the city that Evelyn found it long ago.

Genoa of today is not the city that Evelyn found it long ago. Sailing to avoid the harbor the diarist met while at sea the odors of the orange blossoms in the old palace gardens of Sanpierserens, the westward suburb of the city.

It was a suburb of terraces and southward facing houses and trees heavy with fragrance.

Chess is of great antiquity, and its origin is lost in obscurity. Though nearly every nation under the sun claims the invention of the pastime, it is undoubtedly of oriental origin.

The Romans placed over the door of the temple of Janus "Ex Oriente Lux et Ludus Scacchorum" ("Out of the east came light and the game of chess").

Chess was called by the Hindus "chaturanga," the four angas—that is, the four members of the army—elephants, horses, chariots and foot soldiers.

The Chinese played chess 6,000 years ago as the "game of war."

"Did you ever know," remarked the medical authority, "that any one who will constantly practice singing can't starve off consumption?"

"Even so," replied the hard-boned man, "some people might stand a chance of living longer by lifting consumption take its course."—Philadelphia Press
